Unto the Grave Oxford University Press, USA

Jane Austen's Emma, transported to the outrageous social melee of 21st-century Lahore. Our plucky heroine's cousin, Jonkers, has been dumped by his low-class, slutty secretary, and our heroine has been charged with finding him a suitable wife -- a rich, fair, beautiful, old-family type. Quickly. But, between you, me and the four walls, who wants to marry poor, plain, hapless Jonkers? As our heroine social-climbs her way through weddings-sheddings, GTs (get togethers, of course) and ladies' lunches trying to find a suitable girl from the right bagground, she discovers to her dismay that her cousin has his own ideas about his perfect mate. And secretly, she may even agree. Full of wit and wickedness and as clever as its heroine is clueless, Duty Free is a delightful romp through Pakistani high society -- though, even as it makes you cry with laughter, it makes you wince at the gulf between our heroine's glittering shallow life and the country that is falling apart, day by day, around her Louboutin-clad feet. Moni Mohsin, already a huge bestseller in India, has been hailed as a modern-day Jane Austen, and compared to Nancy Mitford and Helen Fielding. Duty Free is social satire at its biting best.

An Introduction to Contact Linguistics Wiley-Blackwell

The volume presents new insights into two basic theoretical issues hotly debated in recent work on grammaticalization and language contact: grammatical replication and grammatical borrowability. The key issues are: How can grammatical replication be distinguished from other, superficially similar processes of contact-induced linguistic change, and under what conditions does it take place? Are there grammatical morphemes or constructions that are more easily borrowed than others, and how can language contact account for areal biases in the borrowing (vs. calquing) of grammatical formatives? The book is a major contribution to the ongoing theoretical discussion concerning the relationship between grammaticalization and language contact on a broad empirical basis.

Shopped Crown

This volume brings together papers on a wide spectrum of topics within the broad area of language acquisition, stressing the interconnections between applied and theoretical linguistics, as well as language research methodology. These contributions in honor of Professor Jan Majer have been grouped in two sections: language learning, and discourse and communication. The former discusses issues varying from aspects of first, second, and third language acquisition, individual learner differences (i.e. gender, attitudes, learning strategies), and second language research methodology to the analysis of features of learner spoken language, the role of feedback in foreign language instruction, and the position of culture in EFL textbooks. The second part of the volume offers a theoretical counterbalance to the applied nature of the first one. Here, the contributions touch upon spoken and written language analysis, language awareness, and aspects of the English language; also, selected issues of language philosophy are discussed. The wide range of topics covered in the publication, authored by specialists in their respective areas, reflects Professor Majer's academic interests and corresponds to the complex nature of the general field the volume aims to portray.
