Michael Palin's Hemingway Adventure Hachette UK

A winning combination of No.1 travel writer Michael Palin and one of the great literary figures of the century. When Michael Palin was researching for his novel HEMINGWAY'S CHAIR his interest was stimulated by Hemingway's appetite for travel and 'Papa's' evocations of the places he knew. Hemingway remains a compelling figure, and Palin's goal was to revisit Hemingway's world. This book includes the American West ('wide lawns and narrow minds'), Idaho, Michigan ('fly fishing, hunting'), Europe in the First World (where Hemingway was wounded serving in the Ambulance Brigade), Cuba (where Hemingway wrote FOR WHOM THE BELL TOLLS), Paris in the Roaring Twenties and Spain during the Spanish Civil War, Sun Valley and Key West - where the Hemingway lookalike competition is an annual event.

North Korea Journal St. Martin's Griffin

A Kirkus Reviews Best Nonfiction of 2011 title The second volume of Michael Palin's diaries covers the bulk of the 1980s, a decade in which the ties binding the Pythons loosened—they made their last film Monty Python's Meaning of Life in 1983. For Michael,

writing and acting took over much of his life, culminating in his appearances in A Fish Called Wanda, in which he played the hapless, stuttering Ken, and won a BAFTA for Best Supporting Actor. Halfway to Hollywood follows Palin's torturous trail through seven movies and ends with his final preparations for the documentary that was to change his life—Around the World in 80 Days. During these years he co-wrote and acted in Terry Gilliam's Time Bandits as well as spearing in Gilliam's follow-up success Brazil. Palin co-produced, wrote and played the lead in The Missionary opposite Maggie Smith, who also appeared with him in A Private Function, written by Alan Bennett. In television the decade was memorable for East of Ipswich, inspired his links with Suffolk. Such was his fame in the US, he was enticed into once again hosting the enormously popular show Saturday Night Live. He filmed one of the BBC's Great Railway Journeys as well as becoming chairman of the pressure group Transport 2000. His life with Helen and the family remains a constant, as the children enter their teens. Palin's joy of writing is evident once more in Halfway to Hollywood as he demonstrates his continuing sense of wonder at the world in which he finds himself. A world of screens large and small.

Drawn from his published diaries, this is Michael Palin's account of the making of the Monty Python TV and stage shows, films, books and albums. Monty Python at Work opens on 8th July 1969 with Michael Palin's diary entry for the first day of filming on the very first episode of Monty Python's

Flying Circus. The diary entries that follow – up until the opening of their final feature film, The Meaning of Life, in 1983 – chart the tumultuous story of how the now famous shows and films were conceived and brought to life. Palin records the evolution of Monty Python's comic style, the moments of creative inspiration as well as discord, the persistent self-doubt, and the happy accidents that shaped what are now classic comedy moments. He captures too the group's many anarchic exploits (John Cleese in a bikini; driving a Budget Rent-a-Van up Glencoe in full chainmail; filming 'Scott of the Sahara' on the beach at Torquay...), as well as their battles with BBC suits, budget-conscious film producers and self-appointed censors. Thanks to Palin's as-it-happened accounts, we are taken behind the scenes to watch with unrivalled intimacy the creative processes that led to the finished work, seeing how it was actually put together. By distilling everything about the Pythons at work, this edition of Palin's diaries serves as an intimate guide to the legendary shows, films, books and albums. It will delight Python fans everywhere, and be a source of instruction and inspiration to those who seek to follow in their footsteps. 'No writer-performer has combined professional hilarity and personal sanity more successfully than Michael Palin. Anyone interested in how comedy happens should hang on his every word.' David Mitchell Blog entry: Michael Palin on what writer-performers can learn from the book, plus extracts from the early days of Python: 'If this account of the hoops we went through to turn that spirit into reality is instructive and inspirational today then I think it will indeed have proved itself to be some sort of educational tool, albeit in a very silly syllabus.' the Pacific Ocean, but this was perhaps the greatest challenge yet: to cross the vast and merciless Sahara desert. On his way, he encounters dangers such as camel stew, being run over by the Paris-Dakar rally and Dakar nightlife, as well as returning to the original spot where THE LIFE OF BRIAN was filmed.

The 20th century has witnessed crucial changes in our perceptions of Europe. Two World Wars and many regional conflicts, the end of empires and of the Eastern Bloc, the creation and expansion of the European Union, and the continuous reshaping of Europe's population through emigration, immigration, and globalization have led to a proliferation of images of Europe within the continent and beyond. While Eurocentrism governs current public debates in Europe, this book takes a special interest in literary and cinematographic imaginings of Europe that are produced from more distant, decentred, or peripheral vantage points and across differences of political power, ideological or ethnic affinity, cultural currency, linguistic practice, and geographical location.

The contributions to this book demonstrate how these particular imaginings of Europe, often without first-hand experience of the continent, do not simply hold up a mirror to Europe, but dare to conceive of new perspectives and constellations for Europe that call for a shifting of critical positions. In so doing, the artistic visions from afar confirm the significance of cultural imagination in (re)conceptualizing the past, present, and future of Europe. This book was originally published as a special issue of the Journal of Postcolonial Writing.

Palin Travel Collection Macmillan

Michael Palin's terrific account of his journey through 18 countries bordering the Pacific Ocean, published by Phoenix for the first time. For almost a year, Michael Palin travelled through 18 countries on the perimeter of the world's largest ocean, in a spectacular journey of contrasts, drama and beauty. From head-hunters in Borneo to a meal of maggots in Mexico, his route takes him to some of the most politically volatile and physically demanding places on Earth. Whether climbing the Exalted Mountains in China, dodging icebergs in Chile, or being taken short on the banks of the Amazon, Michael Palin paints a vivid picture of the people and places around him. 'It was a journey of dazzling surprises and jarring extremes. Beauty and ugliness, sophistication and squalor, unceasing urban noise and monastic tranquility ... This is a record of a year of wonder' Michael Palin.

Around The World In Eighty Days Crown

'The pace of this kind of travel has not much changed since Fogg set out in 1872. Trains may be a little faster, but there are certainly no high-speed rail links yet across India, China or the USA. Passenger services have practically disappeared from the world's shipping lanes ... Recourse to air travel, even as a convenient means of escape, was not allowed.' Following the route taken by Phileas Fogg 115 years earlier, Michael Palin set out from the Reform Club to circumnavigate the world. The rules were simple, but nothing else about the trip was straightforward... From a tour of Venice on a rubbish barge to ship spotting at the Suez Canal and the bicycle rush hour and snake snacks in China, this is an unparalleled tribute to man's ability to make life difficult for himself.

The Truth Good Press

Driven by a passion for travel and history and a love of ships and the sea, former Monty Python stalwart and beloved television globe-trotter Michael Palin explores the world of HMS Erebus, last seen on an ill-fated voyage to chart the Northwest Passage. Michael Palin brings the fascinating story of the Erebus and its occupants to life, from its construction as a

bomb vessel in 1826 through the flagship years of James Clark Ross's Antarctic expedition and finally to Sir John Franklin's quest for the holy grail of navigation—a route through the Northwest Passage, where the ship disappeared into the depths of the sea for more than 150 years. It was rediscovered under the arctic waters in 2014. Palin travels across the world—from Tasmania to the Falkland Islands and the Canadian Arctic—to offer a firsthand account of the terrain and conditions that would have confronted the Erebus and her doomed final crew. Delving into the research, he describes the intertwined careers of the two men who shared the ship's journeys: Ross, the organizational genius who mapped much of the Antarctic coastline and oversaw some of the earliest scientific experiments to be conducted there; and Franklin, who, at the age of sixty and after a checkered career, commanded the ship on its last disastrous venture. Expertly researched and illustrated with maps, photographs, paintings, and engravings, Erebus is an evocative account of two journeys: one successful and forgotten, the other tragic yet unforgettable.

Greg Egan is arguably Australia's greatest living science fiction writer. In a career spanning more than thirty years, he has produced a steady stream of novels and stories that address a wide range of scientific and philosophical concerns: artificial intelligence, higher mathematics, science vs religion, the nature of consciousness, and the impact of technology on the human personality. All these ideas and more find their way into this generous and illuminating collection, the clear product of a man who is both a master storyteller and a rigorous, exploratory thinker. The Best of Greg Egan contains twenty stories and novellas arranged in chronological order, and each of them is a brilliantly conceived, painstakingly developed gem, including the Hugo Award-winning novella "Oceanic", a powerful account of a boy whose deeply held religious beliefs are undermined by what he comes to learn about the laws of the physical world. This book really does represent the best of Greg Egan, and it therefore takes its place among the best of contemporary SF. Startling, intelligent and always hugely entertaining, it provides an ideal introduction to one of the most accomplished and

original writers working today. This is an important and provocative collection, and it deserves a place on the serious science fiction reader's permanent shelf.

The amazingly insightful, funny and brilliant record of Michael Palin's prime years as a member of the famed comedic group, Monty Python. Michael Palin has kept a diary since newly married in the late 1960s. This volume of his diaries reveals how Python emerged and triumphed, how he, John Cleese, Graham Chapman, the two Terrys---Jones and Gilliam---and Eric Idle came together and changed the face of British comedy. But this is but only part of Palin's story. Here is his growing family, his home in a north London Victorian terrace, which grows as he buys the house next door and then a second at the bottom of the garden; here, too, is his solo effort---as an actor, in *Three Men in a Boat*, his writing endeavours (often in partnership with Terry Jones) that produces *Ripping Yarns* and even a pantomime. Meanwhile Monty Python refuses to go away: the hugely successful movies that follow the TV (his account of the making of both *The Holy Grail* and the *Life of Brian* movies are page-turners), the at times extraordinary goings-on of the many powerful personalities who coalesced to form the Python team, the fight to prevent an American TV network from bleeping out the best jokes on U.S. transmission, and much more---all this makes for funny and riveting reading. The birth and childhood

of his three children, his father's growing disability, learning to cope as a young man with celebrity, his friendship with George Harrison, and all the trials of a peripatetic life are also essential ingredients of these diaries. A perceptive and funny chronicle, the diaries are a rich portrait of a fascinating period. "A wealth of fascinating stuff about Monty Python." ---The Independent (UK)

Braving the cold grip of the Arctic Circle, and the swirling snowstorms of Spitsbergen, Palin has to cope with friendly locals, occasional gunfire and his own unruly digestive system before he can finally stand in Scott's shoes at the South Pole, in the Land of the Midnight Sun.
