What is "urban"? How can it be described and contextualised? How is it used in theory and practice? Urban processes feature in key international policy and practice discourses. They are at the core of research agendas across traditional academic disciplines and emerging interdisciplinary fields. However, the concept of "the urban" remains highly contested, both as material reality and imaginary construct. The urban remains imprecisely defined. Defining the Urban is an indispensable guide for the urban transdisciplinary thinker and practitioner. Parts I and II focus on how "Academic Disciplines" and "Professional Practices," respectively, understand and engage with the urban. Included, among others, are Architecture, Ecology, Governance and Sociology. Part III, "Emerging Approaches," outlines how elements from theory and practice combine to form transdisciplinary tools and perspectives. Written by eminent experts in their respective fields, Defining the Urban provides a stepping stone for the development of a common language—a shared ontology—in the disjointed fields of urban research and practice. It is a comprehensive and accessible resource for anyone with an interest in understanding how urban scholars and practitioners can work together on this complex theme.

Munculnya pandemi Covid-19 membuat seluruh dunia mau tak mau harus mampu menghadapi tantangan, termasuk bagian pemasaran dan keuangan. Namun, hal ini tidak serta-merta terjadi begitu saja. Di Indonesia, masa penuh tantangan sudah dimulai sejak tahun 1998.

Tidak hanya kondisi ekonomi, namun sosial politik juga berhasil mengganggu pertumbuhan bisnis di negara ini. Tekanan mata uang asing yang sangat kuat membuat nilai tukar rupiah terdepresiasi tidak karuan. Belum lagi sektor swasta dengan potensi masalah cukup besar. Banyak di antara perusahaan tersebut yang memperoleh pinjaman dari luar negeri jangka pendek yang tidak dilindungi ancaman gejolak nilai tukar dolar. Tak sedikit pula perusahaan swasta berhasil meraup untung dengan memborong dolar Amerika, lalu menjual saat momennya pas. Krisis boleh saja terjadi, namun akan selalu ada peluang di balik momen ini. Seperti ungkapan Tiongkok yang menyebutkan bahwa selalu ada dua sisi di balik kondisi yang tengah berbahaya. Sisi pertama adalah bahaya. Sisi kedua adalah peluang. Misal, Martha Tilaar, mengeluarkan dua warna lipstik untuk menjawab Anxiety and Desire para perempuan

#### The Future of Digital Data, Heritage and Curation Heritage Capital Corporation

The Future of Digital Data, Heritage and Curation critiques digital cultural heritage concepts and their application to data, developing new theories, curatorial practices and a more-than-human museology for a contemporary and future world. Presenting a diverse range of case examples from around the globe, Cameron offers a critical and philosophical reflection on the ways in which digital cultural heritage is currently framed as societal data worth passing on to future generations in two distinct forms: digitally born and digitizations. Demonstrating that most perceptions of digital cultural heritage are distinctly western in nature, the book also examines the complicity of such heritage in climate change, and environmental destruction and injustice. Going further still, the book theorizes the future of digital data, heritage, curation and the notion of the human in the context of the profusion of new types of societal data and production processes driven by the intensification of data economies and through the emergence of new technologies. In so doing, the book makes a case for the development of new types of heritage that comprise AI, automated systems, biological entities, infrastructures, minerals and chemicals – all of which have their own forms of agency, intelligence and cognition. The Future of Digital Data, Heritage and Curation is essential reading for academics and students engaged in the study of museums, archives, libraries, galleries, archaeology, cultural heritage management, information management, curatorial studies and digital humanities.
