Forget the 10,000 hour rule— what if it's possible to learn the

basics of any new skill in 20 hours or less? Take a moment

to consider how many things you want to learn to do. What's

on your list? What's holding you back from getting started?

Are you worried about the time and effort it takes to acquire

new skills—time you don't have and effort you can't spare?

Research suggests it takes 10,000 hours to develop a new

skill. In this nonstop world when will you ever find that much

time and energy? To make matters worse, the early hours of

practicing something new are always the most frustrating.

That's why it's difficult to learn how to speak a new

language, play an instrument, hit a golf ball, or shoot great

photos. It's so much easier to watch TV or surf the web . . .

In *The First 20 Hours*, Josh Kaufman offers a systematic

approach to rapid skill acquisition— how to learn any new skill

as quickly as possible. His method shows you how to

deconstruct complex skills, maximize productive practice,

and remove common learning barriers. By completing just 20

hours of focused, deliberate practice you'll go from knowing

absolutely nothing to performing noticeably well. Kaufman

personally field-tested the methods in this book. You'll have

a front row seat as he develops a personal yoga practice,

writes his own web-based computer programs, teaches

himself to touch type on a nonstandard keyboard, explores

the oldest and most complex board game in history, picks up

the ukulele, and learns how to windsurf. Here are a few of

the simple techniques he teaches: Define your target

performance level: Figure out what your desired level of skill

looks like, what you're trying to achieve, and what you'll be

able to do when you're done. The more specific, the better.

Deconstruct the skill: Most of the things we think of as skills

are actually bundles of smaller subskills. If you break down

the subcomponents, it's easier to figure out which ones are

most important and practice those first. Eliminate barriers to

practice: Removing common distractions and unnecessary

effort makes it much easier to sit down and focus on

deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Jay Shetty, social media superstar and host of the #1

podcast *On Purpose*, distills the timeless wisdom he

learned as a monk into practical steps anyone can take

every day to live a less anxious, more meaningful life.

When you think like a monk, you'll understand: -How to

overcome negativity -How to stop overthinking -Why

comparison kills love -How to use your fear -Why you

can't find happiness by looking for it -How to learn from

everyone you meet -Why you are not your thoughts

-How to find your purpose -Why kindness is crucial to

success -And much more... Shetty grew up in a family

where you could become one of three things—a doctor, a

lawyer, or a failure. His family was convinced he had

chosen option three: instead of attending his college

graduation ceremony, he headed to India to become a

monk, to meditate every day for four to eight hours, and

devote his life to helping others. After three years, one

of his teachers told him that he would have more impact

on the world if he left the monk's path to share his

experience and wisdom with others. Heavily in debt, and

with no recognizable skills on his resume, he moved

back home in north London with his parents. Shetty

reconnected with old school friends—many working for

some of the world's largest corporations—who were

experiencing tremendous stress, pressure, and

unhappiness, and they invited Shetty to coach them on

well-being, purpose, and mindfulness. Since then, Shetty

has become one of the world's most popular influencers.

In 2017, he was named in the *Forbes* magazine

30-under-30 for being a game-changer in the world of

media. In 2018, he had the #1 video on Facebook with

over 360 million views. His social media following totals

over 38 million, he has produced over 400 viral videos

which have amassed more than 8 billion views, and his

podcast, *On Purpose*, is consistently ranked the world's

#1 Health and Wellness podcast. In this inspiring,

empowering book, Shetty draws on his time as a monk

to show us how we can clear the roadblocks to our

potential and power. Combining ancient wisdom and his

own rich experiences in the ashram, *Think Like a Monk*

reveals how to overcome negative thoughts and habits,

and access the calm and purpose that lie within all of us.

He transforms abstract lessons into advice and

exercises we can all apply to reduce stress, improve

relationships, and give the gifts we find in ourselves to

the world. Shetty proves that everyone can—and

should—think like a monk.

Revised and Updated, Featuring a New Case Study How do successful companies create products people can't put down? Why do some products capture widespread attention while others flop? What makes us engage with certain products out of sheer habit? Is there a pattern underlying how technologies hook us? Nir Eyal answers these questions (and many more) by explaining the Hook Model—a four-step process embedded into the products of many successful companies to subtly encourage customer behavior. Through consecutive “hook cycles,” these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging. Hooked is based on Eyal's years of research, consulting, and practical experience. He wrote the book he wished had been available to him as a start-up founder—not abstract theory, but a how-to guide for building better products. Hooked is written for product managers, designers, marketers, start-up founders, and anyone who seeks to understand how products influence our behavior. Eyal provides readers with:

- Practical insights to create user habits that stick.
- Actionable steps for building products people love.
- Fascinating examples from the iPhone to Twitter, Pinterest to the Bible App, and many other habit-forming products.
