The Good Grammar Workbook Lippincott Williams & Wilkins

Reinforce your understanding of radiographic positioning and anatomy with the *Workbook for Bontrager's Textbook of Radiographic*

Positioning and Related Anatomy, 10th Edition. This companion workbook offers learning opportunities to help you master and retain the information and skills found in Lampignano and Kendrick's main text. The workbook's wide variety of exercises includes situational questions, laboratory activities, self-evaluation tests, and image critique questions — the latter of which presents possible positioning and technical errors of an improperly positioned radiograph then ask what modifications need to be made to improve the image. It's the perfect way to get practice producing and critiquing radiographs before you move into the clinical setting. Situational questions describe clinical scenarios that requires students to think critically and apply positioning

concepts to specific clinical situations. Image critique questions describe an improperly positioned radiograph then ask what modifications need to be made to improve the image, preparing students to evaluate the quality of radiographs produced in the clinical setting. Self-tests at the end of chapters help assess learning with multiple choice, labeling, short answer, matching, and true/false questions. Answers are provided on the Evolve site. Wide variety of exercises include questions on anatomy, select pathology, positioning critique, and image evaluation. Answers at the end of the workbook provide immediate feedback. **NEW!** Updated content matches revisions to the textbook to promote a seamless learning and review experience. **NEW!** Critique

images included in workbook chapters to reinforce image evaluation skills and create a more seamless learning experience. **NEW and UPDATED!** Stronger focus on computed and digital radiography incorporates images from the newest equipment to prepare students for credentialing exams and clinical success. **UPDATED!** Incorporation of the latest ARRT competencies and ASRT curriculum guidelines prepare students for credentialing exams and clinical practice.

This book is designed as a guide for the practitioner interested in taking the Bio-medicine portion of the NCCAOM exam. The NCCAOM Bio-medicine module is

made up of 50 questions divided into three sections and this book

is modeled after this exam, containing questions from each of the three categories.

The book is divided into five tests containing 50 questions each. Each test includes an answer sheet, answer key and detailed explanations for most questions.

Practitioners not interested in taking the Bio-medicine portion of the NCCAOM exam may also find the information contained in this book useful in their everyday clinical practice.

This workbook uses an integrated approach to learning sectional anatomy and applying it to diagnostic imaging. It facilitates comprehension, learning, and retention of the material presented in Kelley's *Sectional Anatomy for Imaging Professionals*, 3rd Edition. In addition to fill-in-the-blank, matching, multiple-choice, true/false, puzzles, fill-in-the-table, and short-answer questions, this new edition includes 300 illustrations

from the main text for labeling practice. Three post tests cover neurologic, body, and extremity content, offering additional opportunities for readers to test their comprehension. Chapter objectives focus your attention on the important concepts you are expected to master by the end of the chapter. A variety of engaging exercises, such as matching, true/false, fill-in-the-blank, fill-in-the-table, and labeling aid your learning and retention. Memory

learning aids, such as mnemonics, help you memorize quickly so you can concentrate more on applications of concepts. Updated material corresponds with updates to the main text. More cross-reference images and anatomy maps have been added for additional guidance in labeling exercises. Additional exercises reinforce the relationship of specific structures to surrounding *Lexicon* *Preaching Workbook* Cambridge University Press Designed to be used
