Volumes 12 and 13 of this highly acclaimed documentary edition cover the first Congress's second session, from January to August 1790. Among other important issues in this critical period, Congress debated Hamilton's report on the public credit, federal assumption of state Revolutionary War debts, and antislavery petitions from Pennsylvania Quakers. The editors once more have assembled the most complete and reliable text of the debates by examining a variety of sources: stenographer Thomas Lloyd's shorthand notes, his *Congressional Register*, and contemporary newspaper accounts.

In this new account of Franklin's early life, Pulitzer finalist Nick Bunker portrays him as a complex, driven young man who elbows his way to success. From his early career as a printer and journalist to his scientific work and his role as a founder of a new republic, Benjamin Franklin has always seemed the inevitable embodiment of American ingenuity. But in his youth he had to make his way through a harsh colonial world, where he fought many battles with his rivals, but also with his wayward emotions. Taking Franklin to the age of forty-one, when he made his first electrical discoveries, Bunker goes behind the legend to reveal the sources of his passion for knowledge. Always trying to balance virtue against ambition, Franklin emerges as a brilliant but flawed human being, made from the conflicts of an age of slavery as well as reason. With archival material from both sides of the Atlantic, we see Franklin in Boston, London, and Philadelphia as he develops his formula for greatness. A tale of science, politics, war, and religion, this is also a story about Franklin's forebears: the talented family of English craftsmen who produced America's favorite genius.

Lighthouses were built on the Hudson River in New York between 1826 to 1921 to help guide freight and passenger traffic. One of the most famous was the iconic Statue of Liberty. This fascinating history with photos will bring the time of traffic along the river alive. Set against the backdrop of purple mountains, lush hillsides, and tidal wetlands, the lighthouses of the Hudson River were built between 1826 and 1921 to improve navigational safety on a river teeming with freight and passenger traffic. Unlike the towering beacons of the seacoasts, these river lighthouses were architecturally diverse, ranging from short conical towers to elaborate Victorian houses. Operated by men and women who at times risked and lost their lives in service of safe navigation, these beacons have overseen more than a century of extraordinary technological and social change. Of the dozens of historic lighthouses and beacons that once dotted the Hudson River, just eight remain, including the iconic Statue of Liberty, New York Harbor's great monument to freedom and immigration, which served as an official lighthouse between 1886 and 1902. Hudson River Lighthouses invites readers to explore these unique icons and their fascinating stories.

Greetings from New Jersey is the first book to look back at the postcards that have played a part in New Jersey's travel industry. Helen-Chantal Pike organizes her book by the states six official tourism regions: Gateway, Skylands, the Delaware River, the Southern Shore, Greater Atlantic City, and the Shore. Through her section introductions and lengthy captions, she offers a lively history of each region in general and each postcard in particular. Her final chapter describes the history of postcard use from 1893, and details the different collectible genres of postcards. Loaded with full-color reproductions of vintage postcards, *Greetings from New Jersey* will interest all residents, visitors, and historians.

A groundbreaking and accessible field guide to the birds of Britain and Ireland. This guide is a celebration of the beauty of birds and the British and Irish countryside. Aimed at beginner and intermediate birders, yet suitable for all levels, this new volume in the groundbreaking Crossley ID Guide series is the most user-friendly guide to the birds of Britain and Ireland. Following *The Crossley ID Guides'* award-winning design, this book looks at all regularly occurring species in Britain and Ireland, and shows readers how to identify birds in their natural habitats using size, structure, shape, probability, and behavior—just like the experts do! Stunning images are accompanied by the colorful and compelling text of Dominic Couzens, one of Britain's leading nature writers. This unique book treats more than 300 species—all the regularly occurring birds likely to be encountered by observers—and the guide's attractive pages provide a real-life approach to bird identification. Beautiful, in-focus scenes present birds in various plumages and in lifelike poses set in identifiable British and Irish habitats. The plates also illustrate how a bird's appearance changes with distance. Organizing images in cohesive, easy-to-understand plates rather than as separate photographs, this book also sets itself apart by containing more images that demonstrate flight, behavior, habitat, and plumages than any other volume available. Not only is this field guide a reference book, it is also a spectacular teaching resource that makes it easy for nature enthusiasts to see and appreciate the big picture of bird identification. The most user-friendly guide to the birds of Britain and Ireland. A close look at more than 300 regularly occurring species. Award-winning Crossley ID Guide design. Lifelike images of birds from near to far. A celebration of the British and Irish countryside. A teaching and field guide and essential reference. Concise and compelling text by Dominic Couzens and Richard Crossley. *Documentary History of the First Federal Congress of the United States of America, March 4, 1789–March 3, 1791* Down the Shore Publishing

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Most books about B-movies are straight-forward genre guides, biographies or encyclopaedias. Not this one. In addition to chapters on film showmen, gimmicks and cult films, Land of a Thousand Balconies documents those incidents and unusual film happenings which author Jack Stevenson has -- over the past fifteen years -- been privy to in his various capacities as show organiser,

tour arranger, festival jury member and projectionist-for-hire. Land of a Thousand Balconies also focuses on movie theatres and renegade exhibition spaces, lamenting on the disappearing 'sense of place' that is such an integral part of the movie-going experience. Here the reader is invited to tour a diversity of venues -- from the notorious old grindhouses of San Francisco, the home-made store-front cinemas of Seattle and NY, through to the underground film clubs of Europe. This fascinating visual history features more than two hundred carefully selected photographs that together document the people, places, and events that have defined the city of Toms River and the surrounding area. Located on the banks of the river of the same name, Toms River was first settled in the early 1700s by loggers drawn to the dense forests on the river's banks. During the American Revolution, the village was a constant thorn in the side of the British, and it was attacked and burned to the ground in 1783. The arrival of the railroads in the late 1800s ushered in a new age of expansion which, spurred on by the construction of the Garden State Parkway in the decade after World War II, continues to this day.

New parents and parents of toddlers face unique challenges when it comes to planning outdoor trips. "Family-friendly trail" is often a misleading phrase, and doesn't take young children under the age of 5 into consideration, whose safety and comfort require a different perspective. The unpredictable nature of little ones leads many parents to put their adventure dreams on the back burner, missing out on years of meaningful experiences as a family. Hike it Baby presents 100 outdoor adventures across the U.S. that you can take with babies and toddlers (really!), along with everything you need to know about exploring the natural world. Sourced from real families using Hike it Baby's trail-tested system, this book helps moms and dads get out there in their comfort zone, yet feel like hardcore adventurers! Whether you've always wanted to hike part of the Appalachian Trail, splash around in gentle Northwest waterfalls, or scramble up rocks in the desert surrounded by Joshua Trees, this book shows you how to plan a truly memorable journey together.
