The Blue Book of Grammar and Punctuation Cengage Learning

Designed for those preparing to write in the current multimedia environment, MediaWriting explores: the linkages between print, broadcast, and public relations styles outlines the nature of good writing synthesizes and integrates professional skills and concepts Complete with interesting real-world examples and exercises, this textbook gives students progressive writing activities amid an environment for developing research and interviewing skills. Starting from a basis in writing news

and features for print media, it moves on to writing for broadcast news media, then introduces students to public relations writing in print, broadcast, and digital media, as well as for news media and advertising venues. Rather than emphasizing the differences among the three writing styles, this book synthesizes and integrates the three concepts, weaving in basic principles of Internet writing and reporting. This book provides beginning newswriting students with a primer for developing the skills needed for work in the media industry. As such, it is a hands-on writing text for students preparing in all professional areas of communication--journalism, broadcasting, media, and public relations.

The instant #1 New York Times bestseller. “ This is the book Trump fears most. ” - Axios “ Will be a primary source about the most vexing president in American history for years to come. ” - Joe Klein, The New York Times "A uniquely illuminating portrait." - Sean Wilentz, The Washington Post “ [A] monumental look at Donald Trump and his presidency. ” — David Shribman, Los Angeles Times From the Pulitzer-Prize-winning New York Times reporter who has defined Donald J. Trump's presidency like no other journalist, Confidence Man is a magnificent and disturbing reckoning that chronicles his life and its meaning from his rise in New York City to his tortured post-presidency. Few journalists working today have covered Donald Trump more extensively than Maggie Haberman. And few understand him and his motivations better. Now, demonstrating her majestic command of this story, Haberman reveals in full the depth of her understanding of the 45th president himself, and of what the Trump phenomenon means. Interviews with hundreds of sources and numerous interviews over the years with Trump himself portray a complicated and often contradictory historical figure. Capable of kindness but relying on casual cruelty as it suits his purposes. Pugnacious. Insecure. Lonely. Vindictive. Menacing. Smarter than his critics contend and colder and more calculating than his allies believe. A man who embedded himself in popular culture, galvanizing support for a run for high office that he began preliminary spadework for 30 years ago, to ultimately become a

president who pushed American democracy to the brink. The through-line of Trump ’ s life and his presidency is the enduring question of what is in it for him or what he needs to say to survive short increments of time in the pursuit of his own interests. Confidence Man is also, inevitably, about the world that produced such a singular character, giving rise to his career and becoming his first stage. It is also about a series of relentlessly transactional relationships. The ones that shaped him most were with girlfriends and wives, with Roy Cohn, with George Steinbrenner, with Mike Tyson and Don King and Roger Stone, with city and state politicians like Robert Morgenthau and Rudy Giuliani, with business partners, with prosecutors, with the media, and with the employees who toiled inside what they commonly called amongst themselves the “ Trump Disorganization. ” That world informed the one that Trump tried to recreate while in the White House. All of Trump ’ s behavior as President had echoes in what came before. In this revelatory and newsmaking book, Haberman brings together the events of his life into a single mesmerizing work. It is the definitive account of one of the most norms-shattering and consequential eras in American political history.

The Basics of Media Writing: A Strategic Approach helps readers develop the essential writing skills and professional habits needed to succeed in 21st-century media careers. This research-driven, strategy-based media writing textbook digs deeply into how media professionals think and write in journalism, public relations, advertising, and other forms of strategic communication. Authors Scott A. Kuehn and Andrew Lingwall have created two comprehensive writing models to help students overcome their problems in finding and developing story topics by giving them "starting points" to

begin writing. The Professional Strategy Triangle model shows students how to think critically about the audience, the situation, and the message before starting a news story or persuasive piece and the FAJA four-point model asks students a series of questions about their story type (Fact, Analysis, Judgment, or Action) to guide them to the right angle or organizational structure for their message. Rooted in classical rhetorical methods, this step-by-step technique enables readers to strategically approach each writing task, no matter the format.

NEWS REPORTING AND WRITING 10TH ED + CRISIS COVERA Routledge

News gathering is a large, complicated and often messy task that has traditionally been viewed by journalists as irretrievably idiosyncratic, best learned through trial and error. Advanced Reporting takes the opposite approach, focusing on reporting as a process of triangulation based on three essential activities: analyzing documents, making observations and conducting interviews. In this readable book, veteran journalism professor Miles Maguire shows how the best reporters use these three tools in a way that allows them to cross-check and authenticate facts, to reduce or eliminate unsupportable allegations and to take readers and viewers to a deeper level of insight and understanding. This book will help to prepare students for a profession marked by increasing complexity and competition. To succeed in this environment, journalists must learn to make the most of digital media to intensify the impact of their work. At the same time, reporters must contend with a host of sophisticated public relations techniques while engaging with news audiences that no longer just consume journalism, but also collaborate in its creation. Discussion questions and exercises help students put theory into practice.

NEWS REPORT WRIT 10E & VIDEOCENTRAL Open Road Media

In July 1997, twenty-five of America's most influential journalists sat down to try and discover what had happened to their profession in the years between Watergate and Whitewater. What they knew was that the public no longer trusted the press as it once had. They were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country. But, more than anything, they were aware that readers, listeners, and viewers — the people who use the news — were turning away from it in droves. There were many reasons for the public's growing lack of trust. On television, there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news. There were the "docudramas," television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had "really" happened. At newspapers and magazines, celebrity was replacing news, newsroom budgets were being slashed, and editors were pushing journalists for more "edge" and "attitude" in place of reporting. And, on the radio, powerful talk personalities led their listeners from sensation to sensation, from fact to fantasy, while deriding traditional journalism. Fact was blending with fiction, news with entertainment, journalism with rumor. Calling themselves the Committee of Concerned

Journalists, the twenty-five determined to find how the news had found itself in this state. Drawn from the committee's years of intensive research, dozens of surveys of readers, listeners, viewers, editors, and journalists, and more than one hundred intensive interviews with journalists and editors, *The Elements of Journalism* is the first book ever to spell out — both for those who create and those who consume the news — the principles and responsibilities of journalism. Written by Bill Kovach and Tom Rosenstiel, two of the nation's preeminent press critics, this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news. By offering in turn each of the principles that should govern reporting, Kovach and Rosenstiel show how some of the most common conceptions about the press, such as neutrality, fairness, and balance, are actually modern misconceptions. They also spell out how the news should be gathered, written, and reported even as they demonstrate why the First Amendment is on the brink of becoming a commercial right rather than something any American citizen can enjoy. *The Elements of Journalism* is already igniting a national dialogue on issues vital to us all. This book will be the starting point for discussions by journalists and members of the public about the nature of journalism and the access that we all enjoy to information for years to come.

Write Here is designed to teach students essential reading and writing skills, using media examples to help explain academic concepts and

provide opportunities for practice. It is adaptable; because it covers the basics of reading, writing, and the modes of writing, it is appropriate to use in developmental composition classrooms. However, it also covers such topics as logical fallacies, rhetoric, timed writing, academic writing, source integration, and MLA/APA documentation, making it appropriate for a first-year or “stretch” composition course. Many beginning writing students are underprepared and feel that writing just “isn’t for them.” The authors hope to dispel that myth by using media examples and a conversational tone to introduce and teach the material. Write Here provides examples that are interesting to students, while allowing them to connect to the subject matter on a more personal level—additionally, the process of analyzing the media helps students sharpen their reading, writing, and critical thinking skills.
