The Sunshine State has an exceptionally stormy past. Vulnerable to storms that arise in the Atlantic, Caribbean, and Gulf of Mexico, Florida has been hit by far more hurricanes than any other state. In many ways, hurricanes have helped shape Florida's history. Early efforts by the French, Spanish, and English to claim the territory as their own were often thwarted by hurricanes. More recently, storms have affected such massive projects as Henry Flagler's Overseas Railroad and efforts to manage water in South Florida. In this book, Jay Barnes offers a fascinating and informative look at Florida's hurricane history. Drawing on meteorological research, news reports, first-person accounts, maps, and historical

photographs, he traces all of the notable hurricanes that have affected the state over the last four-and-a-half centuries, from the great storms of the early colonial period to the devastating hurricanes of 2004 and 2005--Charley, Frances, Ivan, Jeanne, Dennis, Katrina, and Wilma. In addition to providing a comprehensive chronology of more than one hundred individual storms, Florida's Hurricane History includes information on the basics of hurricane dynamics, formation, naming, and forecasting. It explores the origins of the U.S. Weather Bureau and government efforts to study and track hurricanes in Florida, home of the National Hurricane Center. But the book does more than examine how hurricanes have shaped Florida's past; it also looks toward the future, discussing the serious threat that hurricanes continue to pose to both lives and property in the state. Filled with more than 200 photographs and maps, the book also features a foreword by Steve Lyons, tropical weather expert for the Weather Channel. It will serve as both an essential reference on hurricanes in Florida and a remarkable source of the stories--of tragedy and destruction, rescue and survival--that foster our fascination with these powerful storms.

The beloved Newbery Honor book by the author of *The Fourteenth Goldfish*, about a spirited heroine growing up with trying circumstances, a sense of adventure, and tremendous heart. It isn't easy being a pioneer in the state of Washington in 1899. It's particularly hard when you are the only girl ever born in the new settlement. With seven older brothers and a love of adventure, May Amelia Jackson just can't seem to abide her family's insistence that she behave like a Proper Young Lady. She's sure she could do better if only there were at least one other girl living along the banks of the Nasel River. And now that Mama's going to have a baby, maybe there's hope. Inspired by the diaries of her great-aunt, the real May Amelia, three-time Newbery Honor-winning author Jennifer Holm gives a beautifully crafted tale of one young girl whose unique spirit captures the courage, humour, passion and depth of the American pioneer experience.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

The Jamestown Project Workman Publishing Based on the premise that students can learn a great deal by reading and writing a newspaper, this book was created by preservice instructors to teach upper elementary students (grades 3-5) newspaper concepts, journalism, and how to write newspaper articles. It shows how to use newspaper concepts to help students integrate knowledge from multiple disciplines as they write about current events and the lives

of others in an unbiased and accurate way. Based on the Newspaper in Education program--a cooperative venture between newspaper publishers and schools that offers newspaper activities to teach reading and content skills and strategies--the book takes the concept further and incorporates a focus on writing. The result of these lessons is an actual newspaper that students can publish for their classroom or school. Following an Introduction, the book's seven chapters are as follows: (1) Background Information for Teachers; (2) Teaching Journalism Basics; (3) Interviewing, Writing Quotes, and Using Figurative Language; (4) Elements and Organizational Structure of News Stories; (5) Writing Different Types of Newspaper Stories; (6) The Final Steps: Revision, Editing, Layout, and Publication; and (7) Student Evaluation of Concept Units. Contains 12 references.

Appendixes provide student worksheets, two sample articles, a layout and design sheet, a glossary of newspaper terms, a stylebook, and a listing of additional resources. (SR)

Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities

Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Using clear, readable prose, conceptual artist and poet Kenneth Goldsmith's manifesto shows how our time on the internet is not really wasted but is quite productive and creative as he puts the experience in its proper theoretical and philosophical context. Kenneth Goldsmith wants you to rethink the internet. Many people feel guilty after spending hours watching cat videos or clicking link after link after link. But Goldsmith sees that "wasted" time differently. Unlike old media, the internet demands active engagement—and it's actually making us more social, more creative, even more productive. When Goldsmith, a renowned conceptual artist and poet,

introduced a class at the University of Pennsylvania called "Wasting Time on the Internet", he nearly broke the internet. The New Yorker, the Atlantic, the Washington Post, Slate, Vice, Time, CNN, the Telegraph, and many more, ran articles expressing their shock, dismay, and, ultimately, their curiosity. Goldsmith's ideas struck a nerve, because they are brilliantly subversive—and endlessly shareable. In *Wasting Time on the Internet*, Goldsmith expands upon his provocative insights, contending that our digital lives are remaking human experience. When we're "wasting time," we're actually creating a culture of collaboration. We're reading and writing more—and quite differently. And we're turning concepts of authority and authenticity upside-down. The internet puts us in a state between deep focus and subconscious flow, a state that Goldsmith argues is ideal for creativity. Where that creativity takes us will be one of the stories of the twenty-first century. Wide-ranging, counterintuitive, engrossing, unpredictable—like the internet itself—*Wasting Time on the Internet* is the manifesto you didn't know you needed.

Learn what it means to be a journalist in this fun, fast-paced new middle grade series

about a club of kid reporters by an award-winning author. Nellie Murrow -- the daughter of two (former) newspaper reporters -- was named after one of the fiercest journalists who ever lived. When she moves to sleepy Bear Creek, Maine, rumors of vandalism and attacks at the only park in town are keeping her saddled to the house. Some townspeople say the attacks are gang recruitments. Others blame a vagrant spotted on the hiking trails around town. But when Nellie thinks like a reporter, none of those explanations make sense. Something is happening at the park, but what? All of the fake online news and rumors are clouding the truth. Nellie wants to break the story -- and break free from the front yard -- but she can't do it alone. She needs a whole club if she's going to start the Cub Report, the town's first independent newspaper. Creating a newspaper from scratch is going to be tough; but for Nellie, making friends is even harder. Starred Kirkus Review
