Please note: This is a companion version & not the original book. Sample Book Insights: #1 To beat Big Government Socialism, we must first win the argument that it is not working. The last two and a half years since the emergence of the coronavirus in Wuhan, China, have shown just how chaotic and out of touch big government can be. #2 The American school system has fallen behind both Chinese and Indian schools in preparing students for a competitive world. #3 Woke culture is a quasi-religious movement that brings passion and intolerance together to reshape the world. In its determination to impose its new words and ideas upon others, it is in the tradition of the French Revolution, the Russian Revolution, and Chinese Cultural Revolution. #4 However, there is an alliance between the Big Government Socialists and the woke fanatics that has support for gigantic bureaucracies. In return, the bureaucracies support new words and principles, and the imposition of woke values and language on Americans who refuse to voluntarily accept them.

**Defining Conservatism** Rodale

A New York Democratic senator shares his plan for recapturing middle-class voters and restoring the Democratic Party's majority, addressing issues of concern to middle-class families, including college funding, property taxes, and homeland security.

The foundation of the book—a ten-point Contract with the Earth—promotes ingenuity over rhetoric as the way forward.

**\$2.50 A Gallon** Center Street

New York Times bestselling author, former Speaker of the House, and Fox News political analyst and Republican presidential candidate Newt Gingrich has a plan for slashing gas prices and reducing our long-term dependence on foreign oil. Gingrich is famous for taking big, visionary ideas and boiling them down into practical solutions for the American people and in his new book,

**\$2.50 A Gallon: Why Obama Is Wrong and Cheap Gas Is Possible**, Gingrich tackles America's energy crisis. Dealing not only with spiraling gas prices, but with all aspects of energy policy, Gingrich shows how we can safely reap the benefits of America's own natural resources and technology in gas, oil, coal, wind, solar, biofuels and nuclear energy. Gingrich argues that the pinch Americans are feeling at the pump is not a blip in the economy but a looming crisis—affecting not only the price of gas, but the price of food, the strength of our economy, and our national security. To meet this crisis, Gingrich lays out a national strategy that will tap America's scientists, engineers, and entrepreneurs, and require Congress to unlock our oil reserves and remove all the impediments and disincentives that unnecessary government regulation has put in the way of American energy independence. The energy crisis is solvable, as Newt Gingrich's plan makes clear. His handbook, **\$2.50 A Gallon: Why Obama Is Wrong and Cheap Gas Is Possible**, is sure to become the talk of the presidential campaign season.

Is life really so complicated? Ask happy and successful people this question and you're likely to hear that, in its essence, life is really quite simple. In these pages, Newt Gingrich and his daughter Jackie Gingrich Cushman – with the help of prominent people they know and admire, such as Bill Clinton, Rush Limbaugh, Mary Matalin, and David Petraeus – show how, by following just five principles, you can live life to its fullest:

- Dream Big Like Walt Disney, who shared the magic kingdom of his imagination with millions, or like Jackie's sister, Kathy, who didn't let a severe case of rheumatoid arthritis stop her from completing a walking marathon, see where your dreams can take you.
- Work Hard As Jackie points out in her recollections of her dad's early political career, working hard can be a surprising source of energy, and adopting an attitude of cheerful persistence will help you reach your goal.
- Learn Every Day The key is to remember that learning is a reciprocal process. You can't be passive; you must be engaged. Come along on a visit to the acclaimed Ron Clark Academy in Atlanta to see how this principle works in action.
- Enjoy Life And what's the best way to do that? From the wisdom of the ancient philosophers to information from the latest scientific studies, the answer is the same: Be grateful for all your blessings and do something every day to show compassion and generosity to others.
- Be True to Yourself It sounds easy, but it's the hardest principle to live by. Discover what people from William Shakespeare to Henrik Ibsen to John P. Abizaid have had to say about this touchstone for an honest life. With these inspiring and memorable words of wisdom, Newt and Jackie have given us a book to treasure for a lifetime.

The What Americans Really Want...Really: Revised Edition Monster Marketers

The presidency of Donald Trump marks a profound change in the trajectory of American government, politics, and culture. Like his administration, the movement that put him in office represents a phenomenon

that is worth studying. Donald Trump is unlike any president we've ever had. He is the only person ever elected to be commander in chief who has not first held public office or served as a general in the military. His principles grow out of five decades of business and celebrity success—not politics—so he behaves differently than do traditional politicians. In *UNDERSTANDING TRUMP*, Newt Gingrich shares what he learned from more than two years helping Trump and his team throughout the campaign, the election, and during the first months of the presidency. Mr. Gingrich provides unique insight into how the new president's past experiences have shaped his life and style of governing. This book also includes Mr. Gingrich's thorough analysis of how President Trump thinks and makes decisions, as well as the president's philosophy, doctrine, and political agenda going forward. Further, these pages hold a detailed discussion of Trump-style solutions for national security, education, health care, economic growth, government reform, and other important topics. Mr. Gingrich also identifies the forces in the Washington establishment, media, and bureaucracy that will oppose the president at every turn. Finally, *UNDERSTANDING TRUMP* explains the president's actions so far and lays out a vision for what Americans can do to help make President Trump's agenda a success. The president owes his position to the people who believed in him as a candidate, not to the elites in government and media who have expressed contempt for him since he began his campaign to become president. The very essence of Trump's mission is a willingness to enact policies and set goals that send our country in a bold new direction - one that may be "unreasonable" to Washington but is sensible to millions of Americans outside the Beltway. Only with the country's help will President Trump be able to overcome the entrenched interests in Washington and fulfill his promise to make America great again for all Americans.

A bold rallying cry for conservative environmental leadership from Newt Gingrich, New York Times bestselling author of *Trump and the American Future*. Appealing to America's core conservative readership and defying conventional thinking, former Speaker of the House Newt Gingrich and eminent conservationist Terry L. Maple posit that the values of conservative America are aligned with the principles of conservation and "entrepreneurial environmentalism." Saving the earth is not—and cannot be—a partisan issue. The authors outline a ten-point Contract with the Earth that promotes ingenuity over rhetoric, maintaining that the expansion of "green business," new technologies, and environmental economic incentives will be the defining opportunities for the leaders of the next generation. An inspiring call to action, *A Contract with the Earth* offers a vision of the future that is both hopeful and achievable.

The former Republican congressman and now host of MSNBC's "Scarborough Country" wittily presents *The Real Deal*—that Democrats and Republicans are indistinguishable: equally adept at pillaging and pork-barrelling your tax dollars—and he offers some solutions to the problem they get themselves elected as "Washington outsiders"—Barbarians at the Gate. Once inside, however, these Vandals and Visigoths swiftly shed their pelts, don their togas, and heartily set about the business-as-usual of Our Perpetual Imperial Congress—fiddling while your tax dollars burn. Meanwhile, a Republican president and self-proclaimed conservative, George W. Bush, while mooning over Mars, has grown the federal government by a staggering 10.5% (Bill Clinton exited office at a disgraceful 3.4%). Welcome to the Orwellian "Animal Farm"-world of U.S. politics, as only Joe Scarborough can explain it from his unique perspective inside "Scarborough Country." From his unseating of an entrenched Democratic congressman in 1994 as part of the Gingrich Revolution, to his leadership role in the overthrow of Gingrich himself, to his rise as one of

America's most respected and entertaining political and cultural commentators as host of MSNBC's top-rated "Scarborough Country," Joe Scarborough has consistently surprised friend and foe alike. Is he a conservative? Most certainly. Is he a Republican? Yes. Does that mean that the president, his oil-cabal cronies, and other false claimants to conservatism should get a pass? Certainly not. In *Rome Wasn't Burnt in a Day*, Scarborough recounts his own political awakening within the Imperial Congress; provides profound and shocking insight into what is really happening inside Washington today; and offers solutions to our present dilemma that will appeal to all intelligent readers—be they conservatives, liberals, libertarians, or folks just plain fed up with all the labels and all the lies.

Chapters: American Solutions for Winning the Future, Callista Gingrich, Candace Gingrich-Jones, Center for Health Transformation, Contract with America, Georgia's 6th congressional district election, 1974, Newt Gingrich presidential campaign, 2012, Nine Days that Changed the World, Political positions of Newt Gingrich, Republican Revolution, Tony Blankley. Excerpt: Newton Leroy "Newt" Gingrich (; born Newton Leroy McPherson; June 17, 1943) is an American politician, author, and political consultant. He represented Georgia's 6th congressional district as a Republican from 1979 until his resignation in 1999, and served as the 58th Speaker of the U.S. House of Representatives from 1995 to 1999. Gingrich was a candidate for the 2012 Republican Party presidential nomination. In the 1970s, Gingrich taught history and geography at the University of West Georgia. During this period he ran twice (1974 and 1976) for the United States House of Representatives before winning in November 1978. He served as House Minority Whip from 1989 to 1995. A co-author and architect of the "Contract with America," Gingrich was a major leader in the Republican victory in the 1994 congressional election. In 1995, Time named him "Man of the Year" for "his role in ending the four-decades-long Democratic majority in the House." While he was House speaker, the House enacted welfare reform, passed a capital gains tax cut in 1997, and in 1998 passed the first balanced budget since 1969. The poor showing by Republicans in the 1998 Congressional election and pressure from Republican colleagues caused Gingrich's

It is not between the Left and the Right, but between the past and the future. America is on the edge of a breakout. In fact, we are poised for one of the most spectacular leaps in human well-being in history. Pioneers of the future—innovators and entrepreneurs—are achieving breakthroughs in medicine, transportation, energy, education, and other fields that will make the world a dramatically different and better place. Unless the “ prison guards ” of the past stop them. Every American must choose a side. Will you be a champion of the future or a prisoner of the past? Every potential breakthrough has to get past a host of individuals and institutions whose power and comfort depend on the status quo. These prison guards of the past will strangle every innovation that threatens to change the way things have always been done—if we let them.

The 2020 election will be a decisive choice for America. Will the American people choose four more years of President Trump's focus on economic growth, a foreign and trade policy of putting American interests first, dismantling the deep state, and dramatically reforming the bureaucracies? Or do they reject Trumpism and elect a radical extremist Democrat dedicated to bigger government, globalism, and anti-American values? Not since the election of 1964 has the choice in an election been so stark. Re-electing Trump by Newt Gingrich will lay out the stakes of the 2020 election and provide a clarion call for all Americans on why it is vital to return President Trump to the White House for a second term. Featuring insights gleaned from the lifetime of experience and access only Newt Gingrich can bring, Re-electing Trump will be crucial reading for every citizen who wants to continue to make America great again.

A group of prominent political leaders and thinkers offers a pathway to cut through the gridlock and make our government work. Every year the President stands before Congress and the American people to deliver a State of the Union Address. What was once an opportunity for honest reflection on accomplishments and goals has become more of a laundry list than a speech—a grab bag of policy ideas, partisan rhetoric, and a healthy dose of wishful thinking. Meanwhile, the gridlock in Washington means that virtually nothing in that speech will amount to anything but talk. Governor Jon Huntsman and Senator Joe Manchin, two of the most respected and straightforward political leaders in America, have a simple solution for Washington's gridlock. It begins with getting our leaders together at the table to agree to goals not just for their party but for the whole country. In this book, Huntsman and Manchin are joined by experts and politicians from both sides of the aisle, including thought leaders from business, economics, and academia. Contributors include two former White House Chiefs of Staff; former OMB Director Alice Rivlin; Glenn Hubbard, Dean of Columbia Business School; nine members of Congress committed to solving Washington's endemic problems; and more contributors from every walk of life. These contributors are all making a loud call for a new process of running the United States of America. “ Politics doesn ’ t have to be a zero-sum game—we are going to share the future, and so we need to find ways to work together...a timely book. ” —President Bill Clinton “ President Clinton and I disagreed on many things, but we did agree on two very large goals—balanced budgets and welfare reform. These shared goals allowed us to focus energy on bridging the gap between the parties...By proposing four large goals around which to rally the country, No Labels: A Shared Vision for a Stronger America lays the groundwork for a return to meaningful bipartisan accomplishment in Washington. ” —Newt Gingrich

The message of this extraordinary election [in November 2010] is clear enough: the American citizenry has rejected

the secular dogma, socialist policies, and machine-driven politics that comprise the Obama agenda. Now, the question is whether President Obama and his Democratic Party will accept the will of the people and change the destructive course upon which they have set this country. . . . [F]irst and foremost, Republicans must fight to dislodge the secular-socialist machine whose methods and goals are described in this book. This machine has driven America so deeply into debt, and has so fundamentally changed the relationship between the American citizenry and our government, that our children ’ s future is now imperiled. We cannot assume that after the 2010 election, the machine will simply accept the will of the people. After all, the very purpose of a political machine is to thwart the will of the people.

Hyperpartisanship is as old as American democracy. But now, acrimony is not confined to a moment; it's a permanent state of affairs and has seeped into every part of the political process. Identifying the overriding problems that have led Congress—and the United States—to the brink of institutional collapse, It's Even Worse Than It Looks profoundly altered the debate about why America's government has become so dysfunctional. Through a new preface and afterword, Thomas Mann and Norman Ornstein bring the story forward, examining the 2012 presidential campaign and exploring the prospects of a less dysfunctional government. As provocative and controversial as ever, It's Even Worse Than It Looks will continue to set the terms of our political debate in the years to come.
