The United States is abundantly rich in adults with "know how." By connecting mentors -- educated adults with expertise and knowledge -- with mentees -- teens and young adults who lack motivation, experience, and role models in their lives -- we can begin to close this gap dramatically. We can prepare the next generation for the jobs of tomorrow by adding real-world, project based experience to their

education. Teach to Work is a call to action for mentors currently sitting on the sidelines. Whether you are a banker, lawyer, architect, accountant, engineer, IT specialist, or artist, you have the experience and skillset to become an ambassador of talent, grit, and transferable skills. The book provides a step-by-step guide to help professionals share their knowledge with the next generation of workers through this intergenerational experience. Based on Alper's fifteen years of mentoring inner-city high-school students, Teach to Work proves how corporations,

professionals, and boomers can have a significant impact on the professional future of America's youth. Drawing from real-life stories and letters received from students, teachers, and fellow mentors describing pride of accomplishment, Alper helps professionals embark on this journey to transform lives, mentoring one student at a time. *The Young Entrepreneur's Guide to Starting and Running a Business* Prentice Hall

The Handbook of Research in Entrepreneurship Education is well worth reading and both editions are excellent volumes for all of us involved and interested in the debate on how to bring entrepreneurship education forward and whether to create a distinctive domain of entrepreneurship studies. Domingo Ribeiro Soriano, *Academy of Management Learning & Education* . . . a commendable source of reference for entrepreneurship education researchers and practitioners alike, and would make a worthy addition to a library's collection. David Douglas, *International Journal of Entrepreneurial Behaviour and Research* In this, the second volume of the *Handbook of Research in Entrepreneurship*

Education, leading international scholars highlight the unique characteristics and rich variety of research in entrepreneurship education. They adopt several different perspectives, focusing on key issues and significant developments in the field, and highlighting emergent new insights. The 35 contributors span 11 countries and three continents, demonstrating not only the richness but also the complexity of the field in terms of culture, geography and institutional, ethical and political systems. The *Handbook* is intended to collectively assist entrepreneurship educators in developing new programmes and pedagogical approaches that take into account the richness and diversity of these multiple perspectives. Highlighting the unique characteristics of research in entrepreneurship education, this *Handbook* will be of great interest to entrepreneurship researchers, academics and students wishing to understand the unique notions of entrepreneurship education and entrepreneurial learning, which are often quite distinct from current practical views. The companion volume, *Handbook of Research in Entrepreneurship Education, Volume 1: A General Perspective*, showcases the nature and benefits of the new wave in entrepreneurship education emerging as a result

of revised academic programmes developed to reflect new forms of entrepreneurship. [An Introduction to Community Development](#) SAGE Publications

One sunny afternoon in 1982, a young businessman experienced a terrifying mugging in New York City that shook him to his core. Tortured by nightmares about the teens who roughed him up, Steve Mariotti sought counseling. When his therapist suggested that he face his fears, Mariotti closed his small import-export business and became a teacher at the city's most notorious public school--Boys and Girls High in Bed-Stuy. Although his nightmares promptly ceased, Mariotti's out-of-control students rapidly drove him to despair. One day, Mariotti stepped out of the classroom so his students wouldn't see him cry. In a desperate move to save his job, he took off his watch and marched back in with an impromptu sales pitch for it. To his astonishment, his students were riveted. He was able to successfully lead a math lesson for the first time. Mariotti realized his students felt trapped in soul-crushing poverty. They saw zero connection between school and improving their lives. Whenever Mariotti connected their lessons to entrepreneurship, though, even his most disruptive students got excited about learning. School

administrators disapproved of Mariotti discussing money in the classroom, however. He was repeatedly fired before receiving one last-ditch assignment: an offsite program for special-ed students expelled from the public schools for violent crimes. The success Mariotti had with these forgotten children—including coverage in the Daily News, The New York Times, and World News Tonight—inspired him to found the nonprofit Network for Teaching Entrepreneurship to bring entrepreneurship education to low-income youth. By turns tragic and hilarious, *Goodbye Homeboy* shares Mariotti's flaws and missteps as he connects deeply with his troubled students, and woos the most influential people in the world into helping them—saving himself in the process. Today, Mariotti is widely recognized as the world's leading advocate for entrepreneurship education. More than one million young people from Chicago to China have graduated from NFTE programs, and NFTE counts Sean Combs, Chelsea Clinton, Diana Davis Spencer, and many more business, entertainment, and community leaders among its staunchest supporters. As *Goodbye Homeboy* powerfully illustrates, a spark of hope really can empower us to overcome life's greatest hardships.

named Wes Moore. Wes just

couldn't shake off the

unsettling coincidence, or the

inking that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world. **BONUS:** This edition contains a new afterword and a discussion guide.

Entrepreneurship: Beginning with the foundations of community development, An Introduction to Community Development offers a comprehensive and practical approach to planning for communities. Road-tested in the authors' own teaching, and through the training they provide for practicing planners, it enables students to begin making connections between academic study and practical know-how from both private and public sector contexts. *An Introduction to Community Development* shows how planners can utilize

local economic interests and integrate finance and marketing considerations into their strategy. Most importantly, the book is strongly focused on outcomes, encouraging students to ask: what is best practice when it comes to planning for communities, and how do we accurately measure the results of planning practice? This newly revised and updated edition includes: increased coverage of sustainability issues, discussion of localism and its relation to community development, quality of life, community well-being and public health considerations, and content on local food systems. Each chapter provides a range of reading materials for the student, supplemented with text boxes, a chapter outline, keywords, and reference lists, and new skills based exercises at the end of each chapter to help students turn their learning into action, making this the most user-friendly text for community development now available.

Cambridge IGCSE® Enterprise Coursebook UNESCO

Policies and practices promoting youth entrepreneurship in Organisation for Economic Cooperation Development (OECD) member countries were reviewed. Special attention was paid to the following issues: youth unemployment; contrasting employment situations and policy approaches in individual OECD countries; a definition of self-

employment; and the state of entrepreneurship and attitudes toward it in OECD countries. Emerging program approaches to youth entrepreneurship were examined. Special attention was paid to "best practice" examples and international youth business networks. The issues of teaching teachers, teaching entrepreneurship at all levels (primary, secondary, and tertiary), and entrepreneurship training were also discussed. It was concluded that although youth unemployment is a highly intractable problem affecting all OECD member countries, globalization and other factors are causing economic development strategies to become increasingly local and regional. It was further concluded that entrepreneurial activity is a complex process whose outcome depends on a number of factors that are either not economic or only tangentially economic. The following policy suggestions were offered: (1) the field must become more institutionalized; (2) more program evaluation is needed; (3) more cooperative connections with other schools are required; and (4) young entrepreneurs need

more networks and support groups among themselves. (Twelve figures/tables/boxes are included. The bibliography lists 31 references.) (MN)

This study of xenophobia and how it both exploits and excludes is an incisive commentary on a globalizing world and its consequences for ordinary people's lives. Using the examples of Sub-Saharan Africa's two most economically successful nations, it meticulously documents the fate of immigrants and the new politics of insiders and outsiders. As globalization becomes a palpable reality, citizenship, sociality and belonging are subjected to stresses to which few societies have devised a civil response beyond yet more controls.
