**POCKET GUIDE 6** PERMITTED CABLE ROUTE ZONES © Pocket Guide 6 rev 2 03/08 Always check for concealed cables, or gas or water pipes before drilling holes or driving a nail or screw etc. into a wall or partition. A cable/pipe detector should help to identify the presence of concealed cables or pipes.

### **PUBLICATIONS AND POCKET GUIDES - Homepage NICEIC**

Information on sizing of protective conductors by selection is given in NICEIC and ELECSA Pocket Guide 14. A protective conductor must always be sized by calculation where the line conductor has been sized by considerations of short-circuit current or where the earth fault current is expected to be less than the short-circuit current.
