Clarence ' Kelly ' Johnson ' s
design for the Lockheed
Constellation, known
affectionately as the 'Connie',
produced one of the world ' s
most iconic airliners. Lockheed
had been working on the L-044
Excalibur, a four-engine,
pressurized airliner, since 1937.
In 1939, Trans World Airlines,
at the instigation of major
stockholder Howard Hughes,
requested a 40-passenger
transcontinental aircraft with a
range of 3,500 miles, well

beyond the capabilities of the
Excalibur design. TWA ' s
requirements led to the L-049
Constellation, designed by
Lockheed engineers including
Kelly Johnson and Hall Hibbard.
Between 1943 and 1958,
Lockheed built 856
Constellations in numerous
models at its Burbank,
California, factory – all with the
same distinctive and immediately
recognizable triple-tail design
and dolphin-shaped fuselage.
The Constellation was used as a
civil airliner and as a military and
civilian air transport, seeing
service in the Berlin and the
Biafran airlifts. Three of them

served as the presidential aircraft
for Dwight D. Eisenhower. After
the Second World War,
TWA ' s transatlantic service
began on 6 February 1946 with a
New York-Paris flight in a
Constellation. Then, on 17 June
1947, Pan Am opened the first-
ever scheduled round-the-world
service with their L-749 Clipper
America. In this revealing insight
into the Lockheed Constellation,
the renowned aviation historian
Graham M. Simons examines its
design, development and service,
both military and civil. In doing
so, he reveals the story of a
design which, as the first
pressurized airliner in

widespread use, helped to usher in affordable and comfortable air travel around the world.

The Life and Times of Chinua Achebe introduces readers to the life, literary works, and times of arguably the most widely-read African novelist of recent times, an icon, both in continental Africa and abroad. The book weaves together the story of Chinua Achebe, a young Igboman whose novel *Things Fall Apart* opened the eyes of the world to a more realistic image of Africa that was

warped by generations of European travelers, colonists, and writers. Whilst continuing to write further influential novels and essays, Achebe also taught other African writers to use their skills to help their national leaders to fight for their freedoms in the post-colonial era, as internal warfare compounded the damage caused by European powers during the colonial era. In this book Kalu Ogbaa, an esteemed expert on Achebe and his works, draws on extensive research and personal

interviews with the great man and his colleagues and friends, to tell the story of Achebe and his work. This intimate and powerful new biography will be essential reading for students and scholars of Chinua Achebe, and to anyone with an interest in the literature and post-colonial politics of Africa.

The performance of Nigeria has recently been vehemently criticized as not commensurate with her human and material potentialities. The hope that Nigeria is, by destiny, the African Giant appears to be fading. Some analysts, seeing this, have blamed it on the character defects of the leadership in Nigeria. They argue that because the leaders are predatory and corrupt, they have preoccupied themselves

with their interests, which are primitive accumulation and luxurious lifestyles. Meanwhile, the rest of the citizens are suffering. This book argues that such character defects may indeed exist in some of Nigerian leaders. However, these are not the main reasons for their dismal performance regarding the welfare of the citizens. The main problem is that Nigerian leaders seem to have largely lost control over the state and its policies,

which appear to have been captured by the dominant classes and groups local and international. Nigeria's main problem is, therefore, a structural one. Nonetheless, the book concludes as the security, economic, political, and social crises intensify Nigerian leaders, even if it is simply for self-preservation, will be forced by the objective conditions to move against the interests of these dominant classes and groups. It is only then that Nigeria can

realistically be restored to the possibility of becoming an African Giant.

Fighting to a finish is a true story of the author's experiences in a war between a Nigerian "Goliath" and a Biafran "David" where the David fought back with everything he had until he could fight no more. The author detailed his experiences as he led his men in the battle fields at Aba; Ogidi-Abagana; Afor Ugiri-Umuahia; Ngwa-Ntodino; Umuahia-through Imo River

to Umuezealla Owere. The story concluded with the dispersal of worn out Biafran soldiers and the author's 35-mile trek though highways and bush paths to his home. The book reveals that the author's survival without a scratch during the two year ordeal was due to a little bit of good judgement and a great deal of good luck.

Notes and Proceedings Nigeria matters. It is Africa ' s largest economy, and it is projected to become the third most populous country in the world by 2050, but its democratic aspirations are challenged by rising insecurity. John Campbell traces the fractured colonial history and contemporary ethnic conflicts and political corruption that define Nigeria today. It was not—and never had been—a

nation-state like those of Europe. It is still not quite a nation because Nigerians are not yet united by language, religion, culture, or a common national story. It is not quite a state because the government is weak and getting weaker, beset by Islamist terrorism, insurrection, intercommunal violence, and a countrywide crime wave. This deeply knowledgeable book is an antidote to those who would make the mistakes of Vietnam, Afghanistan, and Iraq—mistakes based on misunderstanding—in Nigeria. Up to now, such mistakes have largely been

avoided, but Nigeria will soon—and Campbell argues already does—require much greater attention by the West.
