A page-turning tale of murder, subversion and vice in which a female medical student in Victorian Edinburgh is drawn into a murder investigation when she recognizes one of the corpses in her anatomy lecture. Sarah Gilchrist has fled London and a troubled past to join the University of Edinburgh's medical school in 1892, the first year it admits women. She is determined to become a doctor despite the misgivings of her family and society, but Sarah quickly finds plenty of barriers at school itself: professors who refuse to teach their new pupils, male students determined to force out their female counterparts, and—perhaps worst of all—her female peers who will do anything to avoid being associated with a fallen woman. Desperate for a proper education, Sarah turns to one of the city's ramshackle charitable hospitals for additional training. The St Giles' Infirmary for Women ministers to the

downtrodden and drunk, the thieves and whores with nowhere else to go. In this environment, alongside a group of smart and tough teachers, Sarah gets quite an education. But when Lucy, one of Sarah's patients, turns up in the university dissecting room as a battered corpse, Sarah finds herself drawn into a murky underworld of bribery, brothels, and body snatchers. Painfully aware of just how little separates her own life from that of her former patient's, Sarah is determined to find out what happened to Lucy and bring those responsible for her death to justice. But as she searches for answers in Edinburgh's dank alleyways, bawdy houses and fight clubs, Sarah comes closer and closer to uncovering one of Edinburgh's most lucrative trades, and, in doing so, puts her own life at risk... An irresistible read with a fantastic heroine, beautifully drawn setting, fascinating insights into what it was like to study medicine as a woman at that time, *The Wages of Sin* is a stunning debut that heralds a striking new voice in historical fiction.

This book investigates the normalisation of blame-shifting within ideological discourse as a broad feature of history, working from Churchill's truism that history is written by the victors. To that end, it explores historical episodes of political persecution carried out under cover of moral panic, highlighting the process of 'Othering' common to each and theorising a historical model of panic-driven scapegoating from the results. Building this model from case studies in witch

panic, communist panic and terrorist panic respectively, *The Oldest Trick in the Book* builds an argument that features common to each case study reflect broader historical patterning consistent with Churchill's maxim. On this basis it argues that the periodic construction of bogeymen or 'folk demons' is a useful device for enabling the kind of victim-playing and victim-blaming critical to protecting elite privilege during periods of crisis and that in being a recurring theme historically, panic-driven scapegoating retains great ongoing value to the privileged and powerful, and thus conspicuously remains an ongoing feature of world politics.

"The Cathedral (French: La Cathédrale) (1898) is a novel by the French writer Joris-Karl Huysmans. It is the third of Huysmans' books to feature the character Durtal, a thinly disguised portrait of the author. He had already featured the character of Durtal in *Là-bas* and *En route*, which recounted his conversion to Catholicism. *La Cathédrale* continues the story. After his retreat at a Trappist monastery, Durtal moves to the city of Chartres, renowned for its cathedral. Huysmans describes the building in great detail" -- Wikipedia.

Sometimes there's one a week or three in a day, but I need them. She's the only one who keeps me on track, talks me down, and accepts everything I am. We only had three rules.
