The watch may need to be reset if the screen freezes on a certain function. To soft reset the watch, hold the "UP" button and select this option on your watch. Note: this does not reset the time and date completely. If that fails to work, further action may need to be taken by plugging the watch into any computer with a USB outlet.

It is a Nike watch, TT just supplied the GPS chip, so my analogy is apt, it is like expecting the maker of a part for your car (to continue your analogy) to provide support for the entire car. Once the chip is in the device it is Nike's system that it is running on and Nike needs to support it. It is one part of the watch, not the entire device.
