A collection of six unforgettable stories from Nobel laureate Gao Xingjian. Dealing with Gao's trademark themes of relationships, family, the political scene in China and exploration of the self, these stories are by turns moving, beautiful and thought-provoking. With the exception of 'In an Instant', all the stories were written in China in the early 1980s and published in Chinese in a collection called Gei wo laoye mai yugan (Buying a Fishing Rod for My Grandfather) by Lianhe Press in taipei 1989. 'In an Instant' was written in Paris in October 1990 but not published until 1996 in the collection Zhoumo sichongzhou, after Soul Mountain had been published in early 1990. this is the perfect first taste of the work of Gao Xingjian - short, sweet and highly accessible - something for those who have heard about the author but are unsure where to start.

Guide book for Nikon Coolpix B700 digital camera

Nikon Coolpix B500 Learning the Essentials Conceptual Kings

This book is a complete guide to the operation and features of the Nikon Coolpix P520 compact digital camera. The book explains all shooting modes, menus, functions, and controls of this superzoom camera in clear language, accompanied by more than 300 full-color illustrations and sample photographs. This user's guide shows beginning and intermediate photographers not only how to capture still images and videos with the Coolpix P520, but when and why to use the camera's many

shooting options to get the results they want. The book does not assume specialized knowledge by the reader as it explains topics such as autofocus, manual focus, depth of field, aperture priority, shutter priority, HDR (High Dynamic Range) photography, ISO, memory cards, and flash modes. The book includes a detailed discussion of techniques for using the camera's phenomenal zoom lens, with a maximum focal length of 1000mm, to full advantage. The book also discusses the camera's features for using its built-in GPS tracking to map locations of images and to identify landmarks and other points of interest that can be recorded along with photographs. The book includes examples of the images that can be taken using the many creative settings of the camera, including the Picture Control settings, which let the photographer alter the color processing of images; the Scene and Special Effects shooting modes, with settings that are optimized for various subjects, including landscapes, portraits, pets, sunsets, and action shots; and the camera's strong set of features for continuous (burst) shooting and interval shooting. In addition, the book goes beyond the realm of everyday photography, and provides introductions to more advanced topics such as infrared photography, street photography, and macro photography. The book also includes a full discussion of the video recording abilities of the Coolpix P520, which can shoot high-definition (HD) video with stereo sound, and which has special settings for recording short clips of high-speed video at rates up to 4 times normal speed. In addition, the book provides a detailed explanation of procedures for playing back images and videos in the camera and for using the camera's Filter Effects option to add special effects to images after they have been captured. In three appendices, the book provides information about accessories that can be used with the Coolpix P520, including cases, external flash units, and the Nikon Wireless Mobile Adapter, which lets the user transfer images wirelessly from the camera to a smartphone. The appendices also include a list of useful web sites and other resources for further information, as well as a section with "quick tips" that help the user take advantage of the camera's features in the most efficient ways possible.

Photographer's Guide to the Nikon Coolpix P520 Conceptual Kings

This book chronicles artist Sanford Wurmfeld's now legendary color class, which he seeded, developed, and taught at Hunter College in New York City for more than two decades. The "Color Seminar" was geared to both artists and art historians alike, and Wurmfeld taught it each semester for twenty-five years, with his last class taking place in the spring of 2012, the year he retired. All told, more than 500 individuals participated in his elective course, and its extensive and continuing impact on contemporary art discourse, and on abstract painting in particular, cannot be overstated. From studios to classrooms, former students, now established artists in their own right, have been teaching their own interpretations of this course for years now in visual arts and curatorial programs across the country. Wurmfeld's new book begins with a discussion of afterimages and related experiments concerning the nature of color experience. It then works its way through theoretical ideas about color and the phenomenology of perception, finally ending with a discussion of color as content in 20th and 21st century abstraction -- what Wurmfeld terms presentational art -- with its emphasis on artists crafting the viewer experience through an active analysis of color. The book concludes with an exhaustive bibliography of additional resources for readers to continue their own self-directed research into color history and experience.
