Known to many as "the butterflies of the bird world," wood warblers allure even the most experienced and discriminating birders. Their annual migrations to and from nesting areas in the United States and Canada draw thousands of birders to places such as High Island, Texas; Crane Creek, Ohio; and Point Pelee, Ontario, where warblers stop to rest and feed during the long journey. There birders have a chance to see and photograph these colorful, elusive songbirds whose quick, darting flight among high branches and thick cover makes them some of the most challenging birds to observe and identify. In this entertaining, beautifully illustrated book, Bob Thornton recounts his and Vera Thornton's cross-continent adventures in finding and photographing all 52 species of wood warblers that nest in the United States. In addition to describing where and how they photographed each species, Thornton tells marvelous stories of the colorful characters they encountered along the way. He also touches on the current human threats to wood warblers that come from loss of habitat.

Anger. We all experience it, some more than others. When is it righteous, and when is it not? How can we control our anger and not get caught in a maze of rage when things don't go our way? David Powlison takes a close look at anger to help us to understand what it is and why we have it. He exposes three common misconceptions that leave us powerless to

overcome anger. Using the illustration of a traffic jam, he probes the assumptions and cravings of the heart behind a typical angry response. In place of the false premises and futile consequences of ungodly anger, Powlison guides us to biblical truths and outcomes that honor God and teach us how to live.
