Presenting the thoroughly revised, fully illustrated edition of The Nikon Compendium, updated by the technical editor of Nikon Owner magazine to include all the new Nikon cameras, lenses, and accessories. This is what Nikon enthusiasts have eagerly awaited: the most complete Nikon reference book ever. At almost double the length of the original, the guide describes virtually every Nikon camera ever produced, right up to the wide variety of popular digital models. It aids identification, offers user-friendly tips, explains what system fits with which camera, and discusses what limitations occur when equipment from one generation is married to items from another. Professional and amateur photographers, as well as enthusiasts, collectors, and retailers will want this on their bookshelves.

Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online. Pages: 40. Chapters: Nikon F, Nikon F2, Nikkormat, Nikon FA, Nikon FG, Nikon FE, Nikon FM10, Nikon FM2, Nikon FM3A, Nikon F3, Nikon EM, Nikon FE2, Nikon F6, Nikon F5, Nikon F90, Nikon F-501, Nikon F4, Nikon F-601M, Nikon F-801, Nikon F80, Nikon F60, Nikkorex, Nikon F100, Nikon F65, Nikon F-301, Nikon F70, Nikon FG-20, Nikon F75, Nikon F55, Nikon F50, Nikon F-401. Excerpt: The Nikon F2 is a professional level, interchangeable lens, 35 mm film, single-lens reflex (SLR) camera. It was manufactured by the Japanese optics company Nippon Kogaku K. K. (Nikon Corporation since 1988) in Japan from September 1971 to June 1980. It used a horizontal-travel focal plane shutter with titanium shutter curtains and a speed range of 1 to 1/2000th second (up to 10 seconds using the self timer) plus Bulb and Time, and flash X-sync of 1/80th second. It had dimensions (with DE-1 head, see below) of 98 mm height, 152.5 mm width, 65 mm depth and 730 g weight. It was available in two colors: black with chrome trim and all black. The F2 is the second member of the long line of Nikon F-series professional level 35 mm SLRs that began with the Nikon F (manufactured 1959-1974) and followed each other in a sort of dynastic succession as the top-of-the-line Nikon camera. The other members were the F3 (1980-2001), F4 (1988-1996), F5 (1996-2005) and F6 (2004-present). The F-series do not share any major components, All Nikon professional F-series SLRs are full system cameras. This means that each camera body serves as only a modular hub. The Nikon F2 is an all-metal, mechanically (springs, gears, levers) controlled, manual focus SLR with manual exposure control. It was completely operable without batteries. The F2 was the replacement for Nikon F. It did introduce many new features (a faster 1/2000th second maximum shutter speed, a swing open back for easier...

Cet ouvrage unique en son genre a pour ambition pragmatique de vous aider à "passer au reflex numérique". Le Guide des reflex 2008 est un véritable guide d'achat où le marché de l'occasion n'est pas oublié. Grâce à la

dernière génération de reflex, il est possible à tous les amateurs de réussir leurs photos à coup sûr, voire, d'égaliser le travail des professionnels, à condition de choisir un matériel adapté et d'acquiescer un minimum de principes techniques. La technique n'est tant plus un obstacle, c'est au tour de votre imagination de prendre le pouvoir et pour cela, les quelque 330 images réalisées par l'auteur constituent une véritable source d'inspiration et de conseils. Dans la première partie, l'auteur analyse méthodiquement les gammes des fabricants. Il décrypte leurs philosophies et pointe les modèles les plus intéressants de chaque marque. Dans la seconde partie, vous apprendrez à mieux régler votre appareil afin de développer votre créativité. L'auteur revient sur les principes fondamentaux de la photo, ces quelques notions de base qui restent incontournables et qui font la différence entre amateurs et professionnels. Dans la troisième partie, la question cruciale du stockage, des sauvegardes et du traitement des images RAW et JPEG est abordée. Les différents logiciels à votre disposition sont également passés en revue afin de vous aider à faire votre choix.

The N75 (also called the F75 in Canada and elsewhere) is Nikon's new, powerful, compact single-lens reflex (SLR) camera; and if you want to learn how to make the most of its capabilities, this well-illustrated Magic Lantern Guide provides all the necessary facts and fundamentals. Find out how to take advantage of features such as the 25-segment 3D Matrix Metering System, subject specific Vari-Program modes, and 5-area autofocus. The helpful advice also covers choosing and using accessory lenses and Nikon's innovative Multi-Sensor flash system. From the button functions to the exposure basics, every facet of the camera comes into clear focus.

Marine Mammal Species of India HarperCollins

Autofocus changed the way photos are taken, making it easier to capture and keep the subject in sharp focus. Since autofocus was first introduced, it has become much more complicated, offering different focus modes, focus types, and focus points. What started out as a way to simplify the photo-making process has turned into a complicated endeavor with numerous choices and settings. A Photographer's Guide to Focus and Autofocus: From Snapshots to Great Shots is here to answer all your questions about the focusing system in today's cameras and their various autofocus modes. Photographer Alan Hess covers the simple basics of focus: manual focus versus autofocus, the best focus modes to use, and how focus works in both DSLRs and mirrorless cameras. Then he discusses more advanced topics, including autofocus sensor types, back-button autofocus, and focus for DSLR video. There is much more to autofocus, and focus in general, than just pushing the shutter release button and hoping the image is sharp and in focus. With this book, you'll learn how to get the right focus in your images, no matter what the occasion. Follow along with your friendly and knowledgeable guide, and you will: Learn the top ten things to know about focus, including how to use the focus controls on the camera, how to pick the autofocus point, and when to use pre-focus in your images Address common autofocus issues such as dealing with low contrast or low light, or shooting through

obstacles like glass or a fence Develop troubleshooting techniques for what to do when the autofocus doesn't work properly Work with both manual focus and autofocus and learn tricks to achieve better focus in video And once you've got the shot, show it off!
