Butkus, 29 Lake Ave., High Bridge, NJ 08829-1701 and send your e-mail address so I can thank you. Most other places would charge you \$7.50 for a electronic copy

or \$18.00 for a hard to read Xerox copy. This will help me to continue to host this site, Nikon FE Manual Film Cameras for sale | eBay The Nikon FE was released around 1978, roughly a year after the Nikon FM debuted. The Nikon FE shares many similarities with its mechanical sibling so accessories can be used with either models. Both cameras replace the popular mechanical Nikkormats as well as the all-electronic Nikkormat EL series in their respective categories. *Nikon FE - Ken*

Rockwell

The Nikon FE works, and even provides auto exposure, with every Nikon SLR lens ever made. The FE has a uniquely wide range of compatibility because it has a flip-down aperture coupling pin for use with both AI and non-AI lenses. Nikon did it this way because the FE came out at the beginning of the AI era, so everyone had both a bag of non-AI lenses and newly

purchased AI lenses they expected to use on the FE. Nikon FE-2 Instruction Manual Transparent green needle shows position of shutter-speed dial, including AUTO and manual settings. Finder Screens top. The FE takes the standard K screen, as well as the E or B screens. Trick: You can use the K2, E2 and B2 screens

from the newer FE2, and get a brighter finder! You have to dial in +1/2 stop of exposure compensation, since more light goes to your eyes and to the meter. *All Nikon user manuals for Nikon cameras and speedlights* Nikon FE Instruction Manual 48 pages. Related Manuals for Nikon FE2. Digital Camera

FE features a metal-bladed, vertical travel focal plane shutter that has a shutter range of 8s to 1/1000s, and the Bulb mode. Most of the circuitry is mechanical, however certain aspects of the camera are dependent on some electronics.

A manual, also referred to as a user manual, or simply "instructions" is a technical document

designed to assist in the use of Nikon FE by users. Manuals are usually written by a technical writer, but in a language understandable to all users of Nikon FE. A complete Nikon manual, should contain several basic components.

The Nikon FE2 is an Al-type (Automatic Maximum Aperture Indexing) camera

which performs full-aperture metering with Al-type lenses such as Al-Nikkor and Nikon Series E lenses. The aperture rings of these lenses are fitted with meter coupling ridges (see illustration 1). Almost all lenses now manufactured by Nikon are the Al-type.

Nikon FE Users Guide - Ken Rockwell

The Nikon FE body is very light, and very compact. Next to my D850 with macro lens

(my negative film scanning setup), the FE with the 50mm looks tiny. The FE is very well built, and has a reputation for being very reliable. I have been pairing the FE with a Nikkor 50mm 1:2 (f/2) AI lens.
