Compare Flash Power of Nikon iTTL Flash Models The idea is not so much about these specific flash units, but more about a way to compare any two camera speedlight flashes using Guide Number. Studio flash do not rely much on guide number, because they use all manner of lighting modifiers (umbrellas, softboxes, grids, snoots, etc).

Guide to Nikon TTL Flashes - Photo.net -
Articles

Buy any Nikon flash (Speedlight) made in the last 15 years with a TTL setting and it will work perfectly with any modern or old Nikon film camera. The only real difference between flashes is how far away you can get and still have enough light. Honest, all the other features are meaningless for practical photography.
