[MOBI] Nikon Ittl Flash Guide
Buy any Nikon flash (Speedlight) made in the last 15 years with a TTL setting and it will work perfectly with any modern or old Nikon film camera. The only real difference between flashes is how far away you can get

and still have enough light. Honest, all the other features are meaningless for practical photography.

Powerful flash performance with a guide no. of 68 (m). This is a dedicated flash that works in both the automatic and manual modes. Included accessories: Flash stand with tripod mount, a slip-on hard flash diffuser, and a high quality protective pouch with battery holder and belt strap loop. Compatible with rear-curtain sync.
