Old campers have an appeal that reaches back in time and can send your imagination soaring. Let's face it: they are cool. Who hasn't seen one parked on a boulevard with a "for sale" sign and pictured it bouncing along behind the family car, ready for adventure and fun? Unfortunately, campers are not quite homes, they are not quite cars, and they have their own unique systems and demands that make fixing and upgrading a challenge. Even if you have plenty of DIY experience, a camper speaks a foreign language. Consider Camper Rehab your Rosetta Stone for the language of Shasta, Dutchmen, or Airstream. This book is a top-to-bottom guide to getting a fifth-wheel, teardrop, or other camper trailer ready for the road and beyond. From basic troubleshooting to electrical and plumbing projects, replacing interior surfaces, and clever (sometimes "retro") decorating ideas, this book uses detailed illustrations, color photography, and a wealth of step-by-step, how-to information to get help you get your travel trailer into shape for your next big--or little--adventure. And in case you haven't pulled the trigger on that trailer you're eying on Craigslist just yet, Camper Rehab also walks you through the process of evaluating a potential purchase, identifying which issues are fixable and which are dealbreakers, as well as how to spot hidden problems. Written by accomplished DIY author Chris Peterson, whose light and approachable tone is coupled with the hardworking DIY information you need, Camper Rehab is a must-have for any camper owner or dreamer.

An award-winning scientist offers his
unorthodox approach to childrearing:

“ Parentology is brilliant, jaw-droppingly
funny, and full of wisdom...bound to change
your thinking about parenting and its
conventions ” (Amy Chua, author of Battle
Hymn of the Tiger Mother). If you ' re like
many parents, you might ask family and
friends for advice when faced with important
choices about how to raise your kids. You
might turn to parenting books or simply rely
on timeworn religious or cultural traditions.
But when Dalton Conley, a dual-doctorate
scientist and full-blown nerd, needed
childrearing advice, he turned to scientific
research to make the big decisions. In
Parentology, Conley hilariously reports the
results of those experiments, from bribing his
kids to do math (since studies show
conditional cash transfers improved
educational and health outcomes for kids) to
teaching them impulse control by giving
them weird names (because evidence shows
kids with unique names learn not to react
when their peers tease them) to getting a
vasectomy (because fewer kids in a family
mean smarter kids). Conley encourages
parents to draw on the latest data to rear
children, if only because that level of
engagement with kids will produce solid and
happy ones. Ultimately these experiments are
very loving, and the outcomes are
redemptive—even when Conley ' s sassy
kids show him the limits of his profession.
Parentology teaches you everything you need
to know about the latest literature on
parenting—with lessons that go down easy.
You ' ll be laughing and learning at the same
time.
