Syphon Filter Brady

Maybe it was the recent Atari 2600 milestone anniversary that fueled nostalgia for the golden days of computer and console gaming. Every Game Boy must ponder his roots from time to time. But whatever is driving the current retro gaming craze, one thing is certain: classic games are back for a big second act, and they're being played in both old and new ways. Whether you've just been attacked by Space Invaders for the first time or you've been a Pong junkie since puberty, Chris Kohler's *Retro Gaming Hacks* is the indispensable new guide to playing and hacking classic games. Kohler has compiled tons of how-to information on retro gaming that used to take days or weeks of web surfing to track down and sort through, and he presents it in the popular and highly readable Hacks style. *Retro Gaming Hacks* serves up 85

hard-nosed hacks for reviving the classic games. Want to game on an original system?

Kohler shows you how to hack ancient hardware, and includes a primer for home-brewing classic software. Rather adapt today's equipment to run retro games? Kohler provides emulation techniques, complete with instructions for hacking a classic joystick that's compatible with a contemporary computer. This book also teaches readers to revive old machines for the original gaming experience: hook up an Apple II or a Commodore 64, for example, and play it like you played before. A video game journalist and author of *Power Up: How Japanese Video Games Gave the World an Extra Life*, Kohler has taught the history of video games at Tufts University. In *Retro Gaming Hacks*, he locates the convergence of classic games and contemporary software,

revealing not only how to retrofit classic games for today's systems, but how to find the golden oldies hidden in contemporary programs as well. Whether you're looking to recreate the magic of a Robotron marathon or simply crave a little handheld Donkey Kong, Retro Gaming Hacks shows you how to set the way-back dial.

Through a satirical fiction, The African Rebels, Doctor Assemien describes the current reality in the African countries. As seemingly a true witness of one of those tragedies destroying the continent, the author tells his story to denounce the African people flaws,

especially their political, economic, social and cultural wrong doings and faults. In his country plunged into mourning by a tribal war, a journalist masters his fear to enter the universe of the rebels and discovers sadly a reality that leads him to denounce all the ugly facts that contribute to the instability in Africa: bad leadership of the presidents, violence, coups, armed rebellions...But more, his criticism does not spare the dirty hands of the Western imperialism that creates any war whenever and wherever seems necessary to their benefits. Finally, the author's story also invites everyone to think about the possibility to build a better

world. A good dream that carries Toissin, the hero, and that he tries to make become true, as he is the divine messenger assigned to the realization of that mission.

"Nanna Verhoeff's new book is a must for anybody interested in visual culture and media theory. It offers a rich and stimulating theoretical account of the central dimension of our contemporary

existence--interfacing and navigating both data and physical world through a variety of screens (game consoles, mobile phones, car interfaces, GPS devices, etc.). In the process of exploring these new screen practices, Verhoeff offers fresh perspectives on many of the key questions in media and new media studies as well as a number of new original theoretical concepts. As the first theoretical manual for the society of mobile screens, this book will become an essential reference for all future investigations of our mobile screen condition.--Lev Manovich."--Publisher's description.
