The Human Development  
Report, now in its seventh  
edition, updates the unique  
Human Development  
Indicators comparing human  
development in most countries  
of the world, and the data tables

on all aspects of human  
development. The special focus  
of this edition is on the  
important link between  
economic growth and human  
development. The Report  
maintains that the link is not  
automatic but can be established  
through proper policy  
management, arguing the case  
for initiating and accelerating  
economic growth and at the  
same time accelerating and  
sustaining human development  
in different parts of the world.  
The Report also maintains that  
the quality of growth is as  
important as its quantity;  
otherwise, growth can be jobless,

voiceless, ruthless, rootless, and  
futureless. It identifies  
employment as an important  
instrument in translating the  
benefits of economic growth into  
people's lives. An indispensable  
resource for courses in  
international development, the  
Report ranks 174 countries  
according to the Human  
Development Index (HDI). It  
also gives the global ranking of  
more than 100 countries in terms  
of Gender-Related Development  
Index (GDI) and the Gender  
Empowerment Measure (GEM).  
The first index represents HDI,  
taking into account gender  
inequality in capabilities, and the

---

second represents female opportunities in selected economic and political areas. New to this edition is the Capability Poverty Measure (CPM), which is used as an alternative to the traditional income poverty measure. The Report concludes that the future challenge is how to forge and sustain the desired kind of linkage between economic growth and human development in a globalized world which represents both opportunities and threats for the nations of the world.

countries and explores means for accelerating agricultural growth and poverty reduction. In this volume, Mellor measures by household class the employment impact of alternative agricultural growth rates and land tenure systems, and impact on cereal consumption and food security. The book provides detailed analysis of each element of agricultural modernization, emphasizing the central role of government in accelerated growth in private sector dominated agriculture. The book differs from the bulk of current conventional wisdom in its placement of the non-poor small commercial farmer at the

center of growth, and explains how growth translates into poverty reduction. This new book is a follow up to Mellor's classic, prize-winning text, *The Economics of Agricultural Development*. Listed as a Best Books of 2017: Economics by Financial Times.

Yoga has a rich, 5,000-year history and on the grounds that it is a particularly multi-layered practice, which has in the past entwined with religion, theory and obviously work out,

nailing down a definite beginning has demonstrated troublesome. Yoga is basically a profound order that focuses on inconspicuous science that spotlights on accomplishing congruity between a person's brain and body. The word Yoga initially showed up in the most established holy messages, the Rig Veda and is gotten from the Sanskrit root "Yuj" which means join or join together. As per the Yogic sacred texts, the act of Yoga drives a person to the association of awareness with that of general Consciousness. It ultimately prompts an extraordinary amicability between the human psyche

Hindutva is the only binder which can galvanize the Indian nation towards progress and prosperity. In essence, nationalism is synergy. The effort of four Indians should yield the result equivalent to five or six of them. Most Christians and Muslims of India have a Hindu ancestry. Their collective memory has not necessarily forgotten their castes. It is not uncommon to find a Catholic claiming

himself to be a Brahmin and insisting on a Brahmin bride. Nor is it unusual to come across a Muslim who claims that he is a Rajput to indicate that he is not a convert from any other caste. The Bohras are forthright in their claim that all of them were converted from Brahmins.
