River Rats, Inc.-CC Fox Chapel Publishing

Directly confronting the nature of contemporary architectural work, this book is the first to address a void at the heart of architectural discourse and thinking. For too long, architects have avoided questioning how the central aspects of architectural "practice" (professionalism, profit, technology, design, craft, and building) combine to characterize the work performed in the architectural office. Nor has there been a deeper evaluation of the unspoken and historically-determined myths that assign cultural, symbolic, and economic value to architectural labor. The Architect as Worker presents a range of essays exploring the issues central to architectural labor. These include questions about the nature of design work; immaterial and creative labor and how it gets categorized, spatialized, and monetized within architecture; the connection between parametrics and BIM and labor; theories of architectural work; architectural design as a cultural and economic condition; entrepreneurialism; and the possibility of ethical and rewarding architectural practice. The book is a call-to-arms, and its ultimate goal is to change the practice of architecture. It will strike a chord with architects, who will recognize the struggle of their profession; with students trying to understand the connections between work, value, and creative pleasure; and with academics and cultural theorists seeking to understand what grounds the discipline.

Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player and a hard money lender, Yanni learned reliable principles and the skills necessary for success.

Unstoppable covers many topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book Unstoppable, you can do just that.

Golden Books

Elvis Cole finds himself deep in the bayou of Louisiana searching for the estranged parents of a television star -- but something deadly is looking for him. L.A. private eye Elvis Cole is hired by popular television star Jodie Taylor to delve into her past and identify the biological parents who gave her up for adoption thirty-six years before. Cole's assignment is to find out their biological history and report back. It seems all too clear cut. But when he gets to Louisiana and begins his search, he finds that there's something much darker going on. Other people are also looking for Taylor's parents, and some are ending up dead. And when Cole realizes that his employer knew more than she was telling, Voodoo River becomes a twisting tale of identity, secrets, and murder.

Standard Catalog of Imported Cars, 1946-1990 McGraw Hill Professional

This book provides a wealth of detailed information that collectors, investors, and restorers of imported cars will not find in any other book. This massive volume spans the marques of imported vehicles. The list includes such familiar names as Alfa Romeo, Aston Martin, Bentley, Citroen, Jaguar, Lamborghini, Porsche, Rolls-Royce, Saab, and Volkswagon. Also in these pages, you'll find details on such lesser-known yet no less intriguing marques as Abarth, DAF, Frazer Nash, Humber, Iso, Nardi, Panhard, Peerless, Sabra and Skoda. The book also highlights model changes and corporate histories and provides value information on the most popular models of imported cars.

The Story of the Boeing Company Haynes Publishing

There has been much opinion and little fact written on the subject of lock picking. It is the purpose of this book to clarify the facts about this delicate process, and at the same time to train you in proper procedure. Reading this book is certainly enough to get you started picking simple locks, but remember: a great deal of time and patience are needed to become a truly proficient locksmith. In this volume, you will learn the fundamental theories of lock picking in addition to proper terminology, the importance of tool design (i.e. how to select and use the right tool for a given job), the effects of tolerances, and finally the techniques most commonly used by locksmiths to successfully pick the vast majority of standard pin and wafer tumbler locks. Lock picking is a useful, engaging, and satisfying skill; with this book and a little determination, you'll be off to a great start.

Cover art by Junko Mizuno.

Ship Automation Bloomsbury Publishing

In the early years of the 20th century William Edward Boeing summed up his new company ' s mission: "To let no new improvement in flying and flying equipment pass us by." And sure enough, in the century since, nothing and no one has outflown Boeing. The Story of the Boeing Company, plane-maker to the world, unfolds on a fittingly grand scale in this book that is at once the history of one company and the story of an industry. Aviation author Bill Yenne follows Boeing from its modest beginnings in 1916 as Pacific Aero Products, with a single two-seater floatplane, to its present lofty position as the largest aerospace company in the world. Lavishly illustrated, it showcases historic aircraft that made the company ' s name—the B-17s and B-29s of World War II to the 707 jetliner that revolutionized commercial flight; and the mammoth 747 to the B-52 Superfortress that still soldiers on over 50 years after its debut. All the moves and mergers are chronicled. 2nd ed.
