Potential Causes to Your Nissan's Check Engine Light Being On

Your Nissan Juke ' s service engine soon light is there to let you know that some sort of problem has been detected with the vehicle. Any vehicles made in 1996 or newer use OBDII codes, which can easily be retrieved from a good code scanner. A flashing service engine soon light is telling you that something needs immediate attention.

Service Engine Soon Light [How to fix it?] Meaning & Causes

The best way to determine why the check engine light in your Nissan came on is to stop by an authorized service center. However, if it's a steady, unblinking light, we do recommend checking the gas cap--especially if you've just filled up. A loose gas cap can cause the check engine light to turn on, as will a gas cap with a crack in it.

[How to clear check engine light on Nissan. FREE and EASY](#)

If the 'Service Engine Soon' light comes on, it means that there is a minor problem with the electronics or the engine of your car. Some manufacturers use them as a check engine light for minor problems. It could also mean that it is time for a scheduled service, such as oil or spark plug replacement.

[How to Turn Off a Check Engine Light on a Nissan | It ...](#)

Another possible culprit triggering the "service engine soon" light is misfiring spark plugs. Spark plugs on older vehicles (before 1996) needed to be changed every 40,000 to 50,000 kilometers; on more modern vehicles spark plugs can go to 150,000 km before needing to be changed. Faulty spark plugs can cause your engine to misfire.

Engine Light Is On: 2011-2017 Nissan Juke - What to Do ...

The service engine soon light is often mistaken for the check engine light. The check engine light is a light to

warn you to a possible issue with your exhaust system or emissions system. The service engine soon light can come on for minor issues like a loose gas cap, or for more major problems such as possible engine failure. Your Service Engine Soon Light Should Not Cause You to Panic. The light does say service engine soon, but you may not necessarily have to make any major repairs soon.

Nissan Check Engine Light Guide | Big Nissan

A flashing check engine light is your Nissan Maxima ' s way of saying " I have a serious problem, don ' t ignore me " . Most of the time, that serious problem is a misfire. This flashing light should not be ignored. When your engine is misfiring, it is dumping raw fuel into the exhaust.

Nissan Juke: Service Engine Soon Light Diagnosis ...

Nissan cars have become more technologically advanced in recent years. ECU (Engine Control Unit) computers are now an integral part of Nissan car design. The ECU constantly monitors and governs many functions, including the electrical and safety systems of the car, and engine management. When this unit detects a problem, the SES (Service Engine Soon) light on the dashboard turns on to indicate that there's an issue that needs attention.

How to Reset the ECU (Service Engine Soon Light) on a ...

You're on your regular commute when suddenly an orange colored light pops up on the dashboard of your Nissan. This light is known as the Malfunction Indicator Light or Check Engine Light and illuminates when there is an issue with your vehicle. This can be unsettling and you may wonder how serious the problem is.

Under normal operation, your Nissan check engine light should come on when you insert the key in the ignition. After 5 seconds or once you start the engine, the light should turn off as long as no fault codes are present. If the check engine light stays on, the problem can be something as simple as a loose gas cap or a faulty oxygen sensor.
