Merely said, the Nissan Manual Transmission Fluid is universally compatible behind any devices to read.

05' Frontier MTF fluid question -

Nissanhelp.com Forums

Nissan Rec.'s that you use 80-90 gear oil for the tranny. This is because this fluid will work under any conditions. Depending on where you are (Geographically)at will tell you what kind of fluid you can substitute.

Thanks for the quick response FreddyR!

Changing manual transmission fluid | The Nissan Club

the 2004 nissan frontier with a manual transmission is recommended to take 75w90 gl4 manual trans gear oil. you can alternatively use nissan's own 75w85 oil, but do not use anything labeled gl5.

Nissan Altima Automatic Transmission Fluid | Advance Auto ...
So a Nissan manual transmission is supposed to shift better on a GL-4 oil that is not also GL-5 rated. Nissan may have some other reason for the GL-4 requirment. I read somewhere that their service departments were recently required to put only Nissan (non-synthetic) 75w-85 GL-4 oil in manual transmissions of under warranty vehicles.
Nissan OEM NS3 CVT transmission fluid 999MP-CVONS3 (7) Qts ...
Use of any other automatic transmission

fluid (such as Nissan Matic D / Nissan Matic J / Nissan CVT Fluid NS-2) will cause deterioration in driveability and transmission durability. If this new transmission is damaged by the use of any other A/T fluid type, it may not be covered by NISSAN warranty.

Backup Camera Certified Pre-Owned: No
Transmission: 6-Speed Manual Color:
Burgundy

Color: Healthy transmission fluid should be anywhere from clear red to light brown. If your fluid is dark brown, you should get your car in to get it changed. Black transmission fluid likely means there are issues with your transmission and you should get it serviced. Smell: Your fluid shouldn't give off too much of a smell. If you're detecting a burnt scent, this could be a sign that there's something wrong with your transmission.
