IUCN's Protected Areas Management Categories, which classify protected areas according to their management objectives, are today accepted as the benchmark for defining, recording, and classifying protected areas. They are recognized by international bodies such as the United Nations as well as many national governments. As a result, they are increasingly being incorporated into government legislation. These

guidelines provide as much clarity as possible regarding the meaning and application of the Categories. They describe the definition of the Categories and discuss application in particular biomes and management approaches.

The Official DVSA Theory Test for Car Drivers Sybex

The engaging and accessible volume offers invaluable insights and novel perspectives on what is perhaps the most iconic of all Islamic

art forms: the handwoven carpet. With a history stretching back to the fourteenth century and a geographic reach spanning Europe to Eurasia, Mongolia to the Middle East, Islamic carpets boast a degree of innovation and technical skill to rival the world's most exalted works of art. Beauty and brilliance emerge in equal measure from carpets of all forms be they colossal silk rugs exchanged as gifts by sultans and kings or small and sturdy textiles woven for use in nomadic encampments. Some sixty superlatives examples from the Metropolitan Museum's collection—from Persia, India, Turkey, North Africa, and

across the Islamic world—are presented here in lavish detail, with concise and approachable texts that position each work in historical and cultural context. Beginning with a discussion of materials and techniques, *How to Read Islamic Carpets* offers a comprehensive introduction to this captivating art form, and reveals the lasting influence of carpet-weaving traditions in lands far beyond the Islamic world.
