About the Nissan VG30E Engine The VG engine family consists of

V6 piston engines designed and produced by Nissan for several

vehicles in the Nissan lineup. The VG series started in 1983

becoming Japan's first mass produced V6 engine. VG engines

displace between 2.0 L and 3.3 L and feature an iron block and

aluminum heads.

Nissan VG30DETT - Engine Specs

Many standard DOHC Nissan engines featured Variable Valve

Timing, such as the VG30DETT, and as such do not use the "V"

designation. "V" designation is only if the engine has variable valve

lift. A good example of an engine where not all of the feature

designation spots are used is the L28ET engine. The two features

listed are electronic port fuel injection designated with the "E" and

the ...
