Included are detailed descriptions of each viewing site and its wildlife, maps and access information, helpful viewing tips, and 93 color photographs featuring the flora and fauna of the Garden State. This guide was created through the National Watchable Wildlife Program, a unique partnership initiative coordinated by Defenders of Wildlife. The New Jersey Division of Fish, Game, and Wildlife,

Endangered and Nongame Species Program, provided major funding for the guide from the sale of New Jersey's Conserve Wildlife license plates and the state income tax "check-off for Wildlife." The division hopes that this guide will provide, in addition to enjoyment and satisfaction, a heightened appreciation for New Jersey's natural environment and its wildlife treasures.

This report provides a detailed snapshot of our nation's passion for wildlife and nature. It serves as a road map to guide efforts to reach more Americans to provide them with opportunities to hunt, fish, and enjoy America's wildlife and wild places.

The report outlines the details for compilation of information and surveys to different populations and provides highlights along with statistical

information represented in tables from the data collected. Click these resources for more products relating to this topic:

Hunting the First State

"Wild New Jersey brings the reader on a real-life safari through the Garden State's wildlife and natural wonders."-Tom Gilmore, President, New Jersey Audubon Society "Once

you read this book, don't be surprised if you find yourself going straight to the nearest outdoor adventure, whether it be boating and birding the Meadowlands, hiking the Appalachian Trail, or exploring the Pinelands."-Captain Bill Sheehan, Hackensack Riverkeeper "What is wonderful about this book is it shows we still have wild places left even in the middle of our state's most developed urban areas. This book captures why we must preserve what's left of nature in New Jersey-and it reads like page-turner you can't put down."-Jeff Tittel, Director, New Jersey Sierra Club "Full of exciting tales about New Jersey, from the crowded urban areas to the most remote places of the state."-Joanna Burger, author of A Naturalist Along the New Jersey Shore The fastest animal on earth dive-bombs him from the skies. A young black bear bounds up a mountain trail a few yards away. Poisonous snakes swirl at his feet. A thousands bats careen past his head in a pitch-black roost. Pods of dolphins swim right past him by the scores. Who? Experienced naturalist David Wheeler. Where? Inside the pages of Wild New Jersey, of course. Count on this to be the first nature book to paint the extraordinary picture of New Jersey's unlikely wilderness in all its glory.

Who Cares About Wildlife?

Who Cares About Wildlife? integrates social science theory in order to provide a conceptual structure for understanding and studying human interaction with wildlife. A thorough review of the current literature in conceptual areas, including norms, values, attitudes, emotions, wildlife value orientations, cultural change, and evolutionary forces/inherited tendencies is provided, and the importance of these areas in studying human-wildlife relationships is highlighted. No other book both considers

the human relationship with wildlife and provides a theoretical framework for understanding this relationship on the individual, as well as cultural level. Who Cares About Wildlife? will be valuable both to students and to practitioners in wildlife management and conservation, as well those interested in the human relationship with wildlife, natural resources, and the environment.
