NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY CHICAGO TRIBUNE • A thrilling adventure of danger and deep-sea diving, historic mystery and suspense, by the author of Shadow Divers Finding and identifying a pirate ship is the hardest thing to do under the sea. But two men—John Chatterton and John Mattera—are willing to risk everything to find the Golden Fleece, the ship of the infamous pirate Joseph Bannister. At large during the Golden Age of Piracy in the seventeenth century, Bannister should have been immortalized in the lore of the sea—his exploits more notorious than Blackbeard's, more daring than Kidd's. But his story, and his ship, have been lost to time. If Chatterton and Mattera succeed, they will make history—it will be just the second time ever that a pirate ship has been discovered and positively identified.

Soon, however, they realize that cutting-edge technology and a willingness to lose everything aren't enough to track down Bannister's ship. They must travel the globe in search of historic documents and accounts of the great pirate's exploits, face down dangerous rivals, battle the tides of nations and governments and experts. But it's only when they learn to think and act like pirates—like Bannister—that they become able to go where no pirate hunters have gone before. Fast-paced and filled with suspense, fascinating characters, history, and adventure, *Pirate Hunters* is an unputdownable story that goes deep to discover truths and souls long believed lost. Named 2001 Historian of the Year by the Alaska Historical Society  
The Yupiit in southwestern Alaska are members of the larger family of Inuit cultures. Including more than 20,000 individuals in seventy villages, the Yupiit continue to engage in traditional hunting activities, carefully following

the seasonal shifts in the environment they know so well. During the twentieth century, especially after the construction of the trans-Alaska oil pipeline, the Yup'ik people witnessed and experienced explosive cultural changes. Anthropologist Ann Fienup-Riordan explores how these subarctic hunters engage in a "hunt" for history, to make connections within their own communities and between them and the larger world. She turns to the Yupiit themselves, joining her essays with eloquent narratives by individual Yupiit, which illuminate their hunting traditions in their own words. To highlight the ongoing process of cultural negotiation, Fienup-Riordan provides vivid examples: How the Yupiit use metaphor to teach both themselves and others about their past and present lives; how they maintain their cultural identity, even while moving away from native villages; and how they worked with museums in the "Lower 48" on an exhibition of Yup'ik ceremonial masks. Ann Fienup-Riordan has published many books on Yup'ik history and oral tradition, including *Eskimo Essays: Yup'ik Lives and How*

*We See Them, The Living Tradition of Yup'ik Masks and Boundaries and Passages*. She has lived with and written about the Yupiit for twenty-five years.

This book explores the ways in which the body is sacred in Western medicine, as well as how this idea is played out in questions of life and death, of the autopsy and of the meanings attributed to illnesses and disease. Ritual and religious modifications to, and limitations on what may be done to the body raise cross cultural issues of great complexity philosophically and theologically, as well as sociologically - within medicine and for health care practitioners, but also, as a matter of primary concern for the patient. The book explores the ways in which

medicine organises the moral and the immoral, the sacred and the profane; how it mediates cultural concepts of the sacred of the body, of blood and of life and death.
