The Flower Hunter Copyright Office, Library of Congress

The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels, are buried. The key to finding each can be found within the twelve full color paintings and verses of *The Secret*. Yet *The Secret* is much more than that. At long last, you can learn not only the whereabouts of the Fair People's treasure, but also the modern forms and hiding places of their descendants: the Toll Trolls, Maitre D'eamons, Elf Alphas, Tupperwerewolves, Freudian Sylphs, Culture Vultures, West Ghosts and other delightful creatures in the world around us. *The Secret* is a field guide to them all. Many "armchair treasure hunt" books have been published over the years, most notably *Masquerade* (1979) by British artist Kit Williams. *Masquerade* promised a jewel-encrusted golden hare to the first person to unravel the riddle that Williams cleverly hid in his art. In 1982, while everyone in Britain was still madly digging up hedgerows and pastures in search of the golden hare, *The Secret: A Treasure Hunt* was published in America. The previous year, author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of

students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum. Preiss was killed in an auto accident in the summer of 2005, but the hunt for his casques continues.

The Prostate Health Workbook Roaring Brook Press

This book explores the ways in which the body is sacred in Western medicine, as well as how this idea is played out in questions of life and death, of the autopsy and of the meanings attributed to illnesses and disease. Ritual and religious modifications to, and limitations on what may be done to the body raise cross cultural issues of great complexity philosophically and theologically, as well as sociologically - within medicine and for health care practitioners, but also, as a matter of primary concern for the patient. The book explores the ways in which medicine organises the moral and the immoral, the sacred and the profane; how it mediates cultural concepts of the sacred of the body, of blood and of life and death.

"This is a wonderful book, well-conceptualized, written with style

and wit, and impressive for its ambition, reach and achievement. R. Marie Griffith brings to the scene learning, theoretical subtlety, critical acumen, historical skill, and humane sensibility. She has emerged as one of the most sophisticated and insightful scholars of the Christian body in any period of Christian history."—Robert Orsi, Harvard University "Born Again Bodies is extraordinary. It uncovers an arena of knowledge never before looked at with this level of critical attention when examining American religious culture; Griffith's strength is that she looks across the 'evangelical' denominations. Her work is elegant and truly original."—Sander L. Gilman, author of *Difference and Pathology and Jewish Frontiers*
