Bobby's a classic urban teenager. He's restless. He's impulsive. But the thing that makes him different is this: He's going to be a father. His girlfriend, Nia, is pregnant, and their lives are about to change forever. Instead of spending time with friends, they'll be spending time with doctors, and next, diapers. They have options: keeping the baby, adoption. They want to do the right thing. If only it was clear what the right thing was.

Most books give you general ideas as to what you can do to eliminate your mortgage debt but this book shows you how it's done with real examples and solutions. You will see how payments amortize, how much interest goes towards payments, and how much interest you will pay over the life of the loan when presented with different solutions. Why is paying off your mortgage important? Having a 30 year mortgage can be a blessing and a headache at the same time. Most people finance their first home while in their 30's which means they will finish paying off their mortgage in their 60's if not later. When you finally pay it off, you will have eliminated one of your largest monthly payments and you can now start saving a lot more than before. Guess what? You are around retirement age or coming close to it so what will happen to your income? Taking proactive steps towards paying off your mortgage sooner will change your life.

Fair Lending Scholastic Inc.

Every year billions of dollars are loaned for commercial real estate - from towering office buildings to multifamily housing, from hotels and hospitals to factories and shopping malls. Unfortunately, there currently exists no set of standard guidelines for underwriting these large variety of properties. Essentially, ten different underwriters could give ten different numbers for the value of a given piece of commercial real estate. The Handbook of First Mortgage Underwriting is the first comprehensive set of underwriting guidelines for commercial property. This handbook provides very detailed, step-by-step guidelines for a full and accurate underwriter report. The author provides numerous forms and checklists for everything an underwriter needs: Complete site inspection reports; Cash flow underwriting process and analysis; Borrower credit analysis; Borrower financial analysis; Detailed data collection forms; In addition, there is an entire chapter dedicated to third party reports. The book details what third party reports should contain, how they should be conducted, and how they should be used by the underwriter. Third party reports include: appraisals, property condition assessments
