Evolution--or the broader topic of origins--has enormous relevance to how we understand the Christian faith and how we interpret Scripture. *Four Views on Creation, Evolution, and Intelligent Design* presents the current "state of the conversation" about origins among evangelicals representing four key positions: Young Earth Creationism - Ken Ham (Answers in Genesis) Old Earth (Progressive) Creationism - Hugh Ross (Reasons to Believe) Evolutionary Creation - Deborah B. Haarsma (BioLogos) Intelligent Design - Stephen C. Meyer (The Discovery Institute) The contributors offer their best defense of their position addressing questions such as: What is your position on origins - understood broadly to include the physical universe, life, and human beings in particular? What do you take to be the most persuasive arguments in defense of your position? How do you demarcate and correlate evidence about origins from current science and from divine revelation? What hinges on answering these questions correctly? This book allows each contributor to not only present the case for his or her view, but also to critique and respond to the critiques of the other contributors, allowing you to compare their beliefs in an open forum setting to see where they overlap and where they differ.

It is a rarely discussed fact of history that the premise of Darwinian evolution has been deeply rooted in the worst racist ideology since its inception. This significant book gives a thorough account of the effects of evolution on the history of the United States, including slavery and the Civil rights movement, and goes beyond to show the global harvest of death and tragedy that still finds its roots in Darwin's destructive writings. The tragic legacy of Darwin's controversial speculations on evolution has led to terrible consequences taken to the deadliest extremes. *One Race One Blood* reveals the origins of these horrors, as well as the truth revealed in Scripture that God created only one race. You will discover: • Nazi Germany used evolutionary concepts to justify the extermination of "unfit" people groups such as Jews, Gypsies, and Slavs • The origins of people groups, the genetics of skin color, and the biblical truths on "interracial" marriage • Eye-opening discussion on racism and its roots in the hearts and minds of millions still today. Within these compelling pages, Dr. A. Charles Ware, president of Crossroads Bible College, and Ken Ham, president of Answers in Genesis examine the historical roots of racism that have permeated evolutionary thought, and the Bible's response to this disturbing issue. This is a crucial and timely study that profoundly addresses the Christian worldview regarding "race" from a compassionate and uniquely compelling perspective.

Discover how many evangelical leaders, willingly or unwittingly, are undermining the authority of God's Word by compromising the Bible in Genesis Learn how allowing for an old/universe of billions of years unlocks a door of compromise Heed the wake-up call to the Church to return to the authority of God's Word, beginning in Genesis. Today, most Bible colleges, seminaries, K-12 Christian schools, and now even parts of the homeschool movement do not accept the first eleven chapters of Genesis as literal history. They try to fit the supposed billions of years into Genesis, and some teach evolution as fact. Our churches are largely following suit. Ken Ham, international speaker and author on biblical authority, examines how compromise starting in Genesis, particularly in regard to the six days of creation and the earth's age, have filtered down from the Bible colleges and seminaries to pastors—and finally to parents and their children. This erosive legacy is seen in generations of young people leaving the Church—2/3 of them. Get the facts, discover God's truth, and help bring a new reformation to the Church by helping to call it back to the authority of God's Word.

The collapse of the Christian worldview in America and the West is happening, to the utter shock of Christians. Why?

They ' ve been blind to the enemy ' s stealth attack on biblical history and authority, which has led multiple generations to abandon God ' s Word as their foundation. When our culture asks the questions dealt with in this book — and our kids parrot these questions and ideas heard from schools, libraries, movies, books, music, YouTube, social media, etc. — it must be remembered they ' re not innocent, unintentional questions. They stem fundamentally from a rejection of biblical authority. *Quick Answers to Social Issues* provides answers for some of the toughest questions of the day regarding: Marriage and sexuality from God ' s Word Response to the LGBTQ+ community Animal rights and the green movement The biblical response to racism It ' s imperative that Christians be ready to give answers to today ' s questions! Thus, the passion and purpose of this book is to equip you with clear, concise biblical answers to effectively stand on God ' s Word and boldly proclaim the gospel of Jesus Christ on the frontlines of today ' s battle!

Christians throughout history have believed that God reveals himself both through Scripture and nature. The metaphor of God ' s Two Books is often used to represent these two divine revelations. The Book of God ' s Words is the Bible. Scripture reveals inerrant spiritual truths. These include, the God of Christianity is the Creator of the heavens and the earth, the creation is very good, and only humans are created in the Image of God (Gen. 1:1, 27, 31). The Book of God ' s Works is the physical world. Nature declares God ' s glory, eternal power, and divine nature (Ps. 19:1; Rom. 1:20). Through the gift of science, our Creator has blessed us with the ability to explore and

understand the structure, operation, and origin of his creation. Together God's Two Books offer us a complementary divine revelation of who created the world and how he created it. A majority of Americans view science and religion as being in conflict, according to the Pew Research Center. Christians and non-Christians alike share this view, yet if this perceived conflict misrepresents the relationship between modern science and Christian faith, then it is both unhelpful and unnecessary today. In *Evolution: Scripture and Nature Say Yes*, theologian and scientist Denis O. Lamoureux reviews several options for embracing biblical Christianity and findings of science, including biological evolution. Holding to a high view of Scripture alongside an expert appreciation for scientific discovery, Lamoureux further outlines a way to understand passages referring to the natural world in the Bible and also demonstrates how modern science can point toward God. Lamoureux shares his own story along the way, recounting struggles many readers will relate to on his journey toward PhDs in both theology and biology and a fruitful relationship between the two. Topics in this book include: A biblical model of intelligent design in nature based on Psalm 19 and Romans 1. Examination of the ancient science in Scripture, such as a flat earth and 3-tier universe. Comparison of different Christian views on origins—young earth creation, progressive creation (old earth creation), and evolutionary creation. Criticisms of the atheistic interpretation of evolution held by Richard Dawkins and his belief that intelligent design is merely an illusion. Galileo's peaceful relationship between Scripture and nature, including his view that "the intention of the Holy Spirit [in the Bible] is to teach us how one goes to heaven, and not how heaven goes." Darwin's religious beliefs and evidence of the impact that intelligent design had on him throughout his life, along with his claim, "It seems to me absurd to doubt that a man may be an ardent Theist [personal God] and an evolutionist." Believers wanting to honor God's Two Books—Scripture and Nature—faithfully and without conflict will find an excellent introduction in *Evolution: Scripture and Nature Say Yes*.

Powerful evidence for the existence of a personal God! Information is the cornerstone of life, yet it is something people don't often think about. In his fascinating new book, *In the Beginning Was Information*, Dr. Werner Gitt helps the reader see how the very presence of information reveals a Designer: Do we take for granted the presence of information that organizes every part of the human body, from hair color to the way internal organs work? What is the origin of all our complicated data? How is it that information in our ordered universe is organized and processed? Gitt explains the necessity of information - and more importantly, the need for an Organizer and Originator of that information. The huge amount of information present in just a small amount of DNA alone refutes the possibility of a non-intelligent beginning for life. It all points to a Being who not only organizes biological data, but also cares for the creation.

Fourteen theological scholars address key topics related to the age of the earth, which is the crucial issue of debate in the church today regarding origins. Bringing to bear rigorous biblical, theological, and historical arguments in favor of a six-day creation, the global Flood, and a young earth, they also provide much-needed critiques of a number of contemporary old-earth interpretations of the book of Genesis. This fresh defense of the literal history of Genesis 1-11 nicely complements other studies which focus more on the scientific evidence of young-earth creationism. As such, this book can serve as a versatile supplement to other works, but is also designed to be used as a standalone text for seminary and Bible college professors and students, pastors, missionaries, and others who want in-depth apologetic resources. Creation in Six Days offers an exegetical, literary, and theological defense of the traditional interpretation of the Genesis account of six-day creation. Jordan's account is primarily designed to answer any approach to the text of Genesis, such as the increasingly popular Framework Hypothesis, that pits the text's literary features against its historical and narrative sense. Beyond his exegetical critique of several prominent positions, Jordan offers a constructive reading of the early parts of Genesis and also seeks to uncover the assumptions which attract people to the Framework Interpretation and similar views. The explanation, he says, lies in the acceptance of many of the questionable assumptions of modern science on the part of most Christians today, coupled with the pervasiveness of a gnostic or nonhistorical attitude toward the Christian faith.
