Northwest of Manhattan where the New York-New Jersey boundary crosses the tree-covered ridges and hollows ridges and hollows of the Ramapo Mountains there is a group of about 1,500 racially mixed people who have long been referred to by journalists and historians as the "Jackson Whites." In a study combining tee disciplines of anthropology, sociology, folklore, and history, David Cohen found that the old stories about these people were legends, not history. He found no reliable evidence that their ancestors were Tuscarora Indians, Hessian deserters from the British army, escaped slaves, and British and West Indian prostitutes imported

by a sea captain named Jackson for the pleasure of British soldiers occupying Manhattan during the War for Independence. David Cohen lived among the Ramapo Mountain People for a year, conducting genealogical research into church records, deeds, wills, and inventories in county courthouses and libraries. He established that their ancestors included free black landowners in New York City and mulattoes with some Dutch ancestry who were among the first pioneers to settle in the Hackensack River Valley of New Jersey. In describing his findings and his experiences, Professor Cohen shows how their racially mixed ancestry, their special family and kinship system, and their intergroup attitudes and folkways distinguish and socially isolate these people as a separate racial group today, despite modern communications and transportation and their proximity to New York City.

resembling heroic, perpetual underdog Frank "Triggaltheron" Trigg is the last man standing against Armageddon. As the favorite nephew of the Devil, Frank has led a troubled life, but he'd always had his uncle's influence to fall back on. Now, with God and Lucifer coming to terms and leaving existence to fend for itself, his once exalted status of Anti-Christ-to-be does little to endear him to the hordes of angels and demons running amok in the Godless world. With help from the members of DRAC, an organization of wizards, psychics, telepaths, and low-end supernatural beings, Frank must thwart the pro-

Armageddon forces and rescue an angel in whose life rests the fate of humanity. Better luck next time, humanity.

Every Last Drop Sarah Crichton Books

Captain America. Wolverine. Spider-Man. There's nobody you'd want to have your back more than this trio of mighty Avengers. So who better for Moon Knight to call upon to lend a hand? The trouble is, they're all in Moon Knight's head -- the latest splinters of Marc Spector's shattered psyche! And as Spector battles his own mind to find balance in his new home of Los Angeles, a powerful criminal mastermind makes his deadly move -- trafficking Ultron's temporarily inert robot body! Can Moon Knight get his act together in time to take on this deadly threat -- or is he way out of his league? Brian Michael Bendis and Alex Maleev, who wowed readers with DAREDEVIL, reunite to deliver a unique take on another fan-favorite Marvel vigilante! **COLLECTING: Moon Knight** (2011) 1-12

The Seventh Marvel Skinner founded his career in "asset protection" on fear. To touch anyone under his protection was to invite destruction. A savagely effective methodology, until Skinner's CIA handlers began to

fear him as much as his enemies did and banished him to the hinterlands of the intelligence community. Now, an ornate and evolving cyber-terrorist attack is about to end that long exile. His asset is Jae, a roboticist with a gift for seeing the underlying systems violently shaping a new era of global guerrilla warfare. At the root of it all is a young boy, the innocent seed of a plot grown in the slums of Mumbai. Brought to flower, that plot will tip the balance of world power in a perilous new direction. A combination of Le Carre spycraft with Stephenson techno-philosophy from the novelist hailed by the Washington Post as "the voice of twenty-first century crime fiction," SKINNER is Charlie Huston's masterpiece--a new kind of thriller for a new kind of world.

Not everyone is thrilled that Marc Spector is using his

alter ego Moon Knight as fodder for a television show...especially Marc's ex Marlene! Then, Moon Knight throws down with the Kingpin of Los Angeles! And the Battle for LA's soul claims a life -- one that will be felt throughout the Marvel Universe, all the way to Avengers Tower!

Pre-Incident Indicators of Terrorist Incidents DIANE Publishing

In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdo?an. Since 2002, Erdo?an has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdo?an the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner Cagaptay will look at Erdo?an's roots in Turkish history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked

to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey.

“There was no such thing as the Scientific Revolution, and this is a book about it.” With this provocative and apparently paradoxical claim, Steven Shapin begins his bold, vibrant

exploration of the origins of the modern scientific worldview, now updated with a new bibliographic essay featuring the latest scholarship. “An excellent book.”—Anthony Gottlieb, New York Times Book Review

“Timely and highly readable. . . .

A book which every scientist curious about our predecessors should read.”—Trevor Pinch, New Scientist “Shapin’s account is informed, nuanced, and

articulated with clarity. . . . This is not to attack or devalue science but to reveal its richness as the human endeavor that it most surely is. . . . Shapin’s book is an impressive achievement.”—David C. Lindberg, Science “It’s hard to believe that there could be a more accessible, informed or concise account. . . . The Scientific Revolution should be a set text in all the disciplines. And in all the indisciplines, too.”—Adam Phillips, London Review of Books

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns

of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Hank Thompson is living off the map in Mexico with a bagful of cash that the Russian mafia wants back and many, many secrets. So when a Russian backpacker shows up in town asking questions, Hank tries to play it cool. But he knows the jig is up when the backpacker mentions the money . . . and the family Hank left behind. Suddenly Hank’s in a desperate race to get to his parents in California before anyone can harm them. Along the way he’ll face Federales and Border Patrol, mafiosi and vigilantes, extortionists and drug dealers, and a couple of psychotic surf bums with an ax to grind. From the golden beaches of the Yucatán to the seedy strip clubs of Vegas, Charlie Huston opens a

door to the squalid underworld of crime and corruption—and invites the reader to live it in the extreme. *Gravity Falls: Journal 3 Special Edition* McFarland

Soundgarden has hammered together the strands of so many different elements - seventies metal, hard rock, punk, goth-into an alloy that's stronger and harder than any of its constituents, and one which by its very nature stands a little bit beyond definition. Is it metal? Is it punk? Does it really matter? It is Soundgarden, playing their music. You get it or you don't. Soundgarden is, without doubt, the real thing. Where will they go now? They've taken metal to places it has never been before. They've melded it with punk in a manner so natural that the seams don't show. Badmotorfinger held the real glimmer of identity; Superunknown brought it into the light. Soundgarden isn't just the Next Big Metal Thing...they're the Next Big Thing.

"Huston writes dialogue so combustible it could fuel a bus and characters crazy enough to take it on the road."—*The New York Times Book Review*
Reluctant hitman Henry Thompson has fallen on hard times. His grip on life is disintegrating, his pistol hand shaking, his body pinned to his living room couch by painkillers—and his boss, Russian mobster David Dolokhov, isn't happy about any of it. So Henry is surprised when he's handed a

new assignment: keep tabs on a minor league baseball star named Miguel Arenas. Henry has no pity for the slugger and the wicked gambling problem that got him in trouble, but he can't help liking the guy. After all, Henry used to be just like him: a natural-born ball player with a bright future. But hell, that was long ago.

Before Henry did some guy a favor and ended up running for his life. Before his girlfriend and buddies got gunned down by someone on his tail. Before he agreed to buy his parents' safety with a life of violence. And when Miguel gets drafted by the Mets and is sent to the Brooklyn Cyclones, Henry must head back to New York, back to the place where all his problems began—and where Henry might find a real reason to keep living, a reason that may just cost him his life. Praise for *A Dangerous Man* "Among the new voices in twenty-first-century crime fiction, Charlie Huston . . . is where it's at."—*The Washington Post* "Huston reminds me of all my favorite writers—Pete Dexter, Robert Stone, Crumley. If there is such a thing as compassionate noir, Charlie has found it. He's a true marvel."—Ken Bruen, author of *The Guards* "Charlie Huston is the real deal."—Peter Straub

Investigator Yashim travels to Venice in the latest installment of the Edgar® Award-winning author Jason Goodwin's captivating historical mystery

series Jason Goodwin's first Yashim mystery, *The Janissary Tree*, brought home the Edgar® Award for Best Novel. His follow-up, *The Snake Stone*, more than lived up to expectations and was hailed by Marilyn Stasio in *The New York Times Book Review* as "a magic carpet ride to the most exotic place on earth." Now, in *The Bellini Card*, Jason Goodwin takes us back into his "intelligent, gorgeous and evocative" (*The Independent on Sunday*) world, as dazzling as a hall of mirrors and utterly compelling. Istanbul, 1840: the new sultan, Abdülmecid, has heard a rumor that Bellini's vanished masterpiece, a portrait of Mehmet the Conqueror, may have resurfaced in Venice. Yashim, our eunuch detective, is promptly asked to investigate, but -- aware that the sultan's advisers are against any extravagant repurchase of the painting -- decides to deploy his disempowered Polish ambassador friend, Palewski, to visit Venice in his stead. Palewski arrives in disguise in down-and-out Venice, where a killer is at large as dealers, faded aristocrats, and other unknown factions seek to uncover the whereabouts of the missing Bellini. But is it the Bellini itself that endangers all, or something associated with its original loss? And why is it that all the killer's victims are somehow tied to the alluring Contessa d'Aspi d'Istria? Will the Austrians unmask Palewski, or will the killer find him first? Only Yashim can uncover the truth behind the manifold mysteries.
