What would you do on a day off from school? Go on an adventure, of course! Meet Charlie, an eight-year-old boy with a flare for using his imagination. Join him as he turns his snow day into a day filled with fun, excitement, and fantasy. Travel with Charlie to the Wild West, the Amazon jungle, and into outer space. Ride along for the thrills as he becomes a race car driver, a pirate, a cowboy, and even a superhero! With a little creativity (and a basement full of junk), there is no limit to where your imagination can take you!

Things Fall Apart Adams Media

Written for students without knowledge of linguistics and unfamiliar with "traditional" grammar, this text concentrates on providing a much needed foundation in Standard English in preparation for more advanced work in theoretical linguistics.

A Comprehensive Grammar Conran

Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

A World of Imagination Penguin

Boat Accident S.J. Hermann

A GRIPPING SUPERNATURAL THRILLER - Book 1 of the MORIUM TRILOGY If you had the powers to avenge yourself... would you? Bullied... Years of shame... Lexi and Nathan knew pain. MORIUM is the story of Alexandria and Nathan... and Stacy. Three teenagers who were victims of bullying all through high school. They kept their torment a secret from their family and tried to cope in their own way. They only had each other. Their friendship saw them through the seemingly endless years of suffering. But hope was in sight... they will be graduating soon. The vision of a new life away from the bullies and the constant humiliation, gave them something to look forward to. If only that day came sooner. One night, Lexi and Nathan saw an object fall from the sky and went to investigate. As they touched the rock, a strange power entered their bodies. Suddenly, they're not helpless anymore. They can get revenge for all the suffering and pain they had to endure. How will they use these powers? MORIUM discusses the moral dilemma of doing what's right against getting revenge. When your dignity has been shattered and your life has been a living hell... what is RIGHT?

English Language Assessment and the Chinese Learner Routledge

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

"The validation of language tests is widely discussed and expected, but only in recent years have researchers adopted a variety of innovative techniques for developing, assessing and validating specific tests of second or foreign language proficiency and their impact on education and society. Indeed, as the present volume clearly demonstrates, many different techniques for empirical analysis and types of evidence may be used to assess and interpret the validity of diverse aspects of language tests as well as the consequences they may have for language students, educators and society."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Validation in Language Testing Workman Publishing

Gitanjali, the book of poems for which Tagore was awarded the Nobel Prize for Literature in 1913, was in fact a collection of songs. Much of what Tagore experienced-joy and frustration, grief and devastation-was expressed through music, and during his lifetime, Tagore was most renowned for his songwriting. The distinction of his musical oeuvre lay in the near-perfect balance he achieved between the evocative lyrics, the matching melody and the rhythmic structure in which each song was bound. The Singer and His Song is a unique biography of Tagore with music as its leitmotif. It traces the musical journey of the poet with anecdotes and allusions, and includes translations of some of his most resonant songs. Written in elegant prose and accompanied by relevant photographs and paintings, this highly original book is a fitting tribute to Tagore's enduring musical legacy.

Millionaire by Thirty Christian Focus

The sequel to the award-winning and critically-acclaimed Those Days, First Light is a magnificent novel set at the turn of the twentieth century in a Bengal where the old and young India are jostling for space. Prominent among its many characters are Rabindranath Tagore or Robi, the young, dreamy poet, torn between his art and the love for his beautiful, ethereal sister-in-law, Kadambari Devi, and the handsome, dynamic Naren Datta, later to become Swami Vivekananda, who abandons his Brahmo Samaj leanings and surrenders himself completely to his Guru, Sri Ramakrishna. The story also touches upon the lives of the men and women rising to the call of nationalism; the doctors and scientists determined to pull their land out of the morass of superstition and blind beliefs, and the growing theatre movement of Bengal, with its brilliant actors and actresses who leave behind the squalor of their lives every night to deliver lines breathtaking in their beauty. Through all this runs the story of

Bharat and Bhumisuta - one an illegitimate prince, the other a slave who rises to become the finest actress of her age - who cling to their self-respect and love in a society which has little time for people like them. Grand in its scale and crackling with the energy of its prose, *First Light* is a rich and comprehensive portrait of Bengal, from its sleepy, slow-changing villages to the bustling city of Calcutta where the genteel and the grotesque live together. Equally, it is a chronicle of a whole nation waking up to a new, modern sensibility.

The Lives of the Most Eminent English Poets Cambridge University Press

'This volume addresses a very timely and important topic, and provides both broad and in-depth coverage of a number of large-scale English tests in China, including Hong Kong and Taiwan, and about the Chinese learner.' — Lyle F. Bachman, From the Foreword Building on current theoretical and practical frameworks for English language assessment and testing, this book presents a comprehensive, up-to-date, relevant picture of English language assessment for students in China (Mainland China, Hong Kong and Taiwan) and for Chinese learners of English around the world. Written by well-recognized international scholars in language testing, it covers: the history of tests and testing systems, issues and challenges, and current research in China both test-designers' and test-users' points of view on test development and test validation within a range of political, economical, social, and financial contexts in China theoretical/conceptual perspectives on the use of the English language assessment at different levels, including societal, university, and schools empirical research related specifically to test development, curricular innovation, and test validation Given the long history of objective testing and its extensive use in Chinese society, and considering the sheer number of students taking various tests in English in China and elsewhere, an understanding of the impact of English language testing is essential for anyone involved in testing and assessment issues in China and elsewhere in the world. This is a must-read volume for testing and assessment policy makers, curriculum designers, researchers, ESL/EFL materials writers, graduate students, and English language teachers/researchers at all levels.

Language in Social Life is a major series which highlights the importance of language to an understanding of issues of social and professional concern. It will be of practical relevance to all those wanting to understand how the ways we communicate both influence and are influenced by the structures and forces of contemporary social institutions. In all modern societies individuals are subject to tests, whether to enter educational programs, to pass from one level to the next or to grant certificates to practice. Yet, tests are powerful tools which are often introduced in undemocratic and unethical ways as disciplinary tools for carrying out various policy agendas. Tests can be detrimental to people's lives as they are capable of affecting and defining the knowledge and behaviour of those who are being tested. *The Power of Tests* applies a critical perspective of language tests by examining their uses and consequences in education and society and by viewing tests not as isolated events but rather as

embedded in social, educational and political contexts. The book is divided into four parts: the first part establishes the power of tests through echoing the voices of test takers, describing the features of the power of tests, and the temptations that tests offer to bureaucrats who use them for power and control. The second part reports on studies that provide empirical evidence about intentions and effects of a number of large scale language tests. The third part interprets the results by examining their consequences on education and society, arriving at a model of tests' use. The final section of the book offers strategies for controlling and minimising the misuses of tests by introducing the notion of Critical Language Testing which calls for the examination of the consequences and misuses of tests, monitoring of power and pointing to their unethical uses. It also provides a comprehensive discussion of the responsibilities of language testers, including a new Code of Ethics, as well as strategies for guarding and protecting the rights of test takers.

The Quickest Path to Early Financial Independence Lincoln Children's Books

"...profoundly moving..." -Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their grandad — the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.

A Practical English Grammar Oswaal Books and Learning Pvt Ltd

A new edition of a successful undergraduate textbook on contemporary international Standard English grammar, based on Huddleston and Pullum's earlier award-winning work, *The Cambridge Grammar of the English Language* (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. Intended for students in colleges or universities who have little or no background in grammar or linguistics, this teaching resource contains numerous exercises and online resources suitable for any course on the structure of English in either linguistics or English departments. A thoroughly modern undergraduate textbook, rewritten in an easy-to-read conversational style with a minimum of technical and theoretical terminology.
