A sisters' secret. A mysterious phenomenon. A murder that ties it all together. An emotional, suspenseful novel about the bond between sisters and the secrets we hold to keep our family safe, *The Sisters of Blue Mountain* by Karen Katchur is a thrilling mystery that hurtles towards an unexpected ending that will leave readers speechless. The small town of Mountain Springs, Pennsylvania thrives on the snow geese migration. Each year, the birds flock to the dam, and the tourists follow, filling up Linnet's Bed and Breakfast. But one morning Linnet wakes up to discover hundreds of dead geese by the B&B and her life is thrown into the media frenzy when her father—a former ornithology professor—is asked to study the case. As the tourists cancel their plans and Linnet's father's health grows increasingly worse, the last thing she expects is to see her estranged sister, Myna, on her doorstep. Myna has never stayed in one place for long after running from Mountain Springs. Although she and Linnet were close growing up, a family secret broke their bond, and Myna's return has brought back memories both sisters have tried to keep buried. When a reporter arrives in town who may have a connection to the sisters' past, Linnet and Myna are forced to confront the event that tore them apart. But when a young professor who was assisting their father on the case turns up dead—and their father becomes the primary suspect—Linnet and Myna realize that their secret won't stay hidden for long...

Digital convergence is redefining industries, and putting information, knowledge and collaboration at the heart of strategic leadership and management. In the face of such change it is those leaders who can 'orchestrate' a complex network of employees, customers and suppliers in a single ongoing learning experience that will succeed. Exploring

four learning roles for customers (information acquirer; explorer; performer; inventor) and orchestrators (conductor; architect; auctioneer; promoter), Business Orchestration provides a strategic view of how to harness digital convergence by mobilizing and integrating the resources of other companies to create business value.

The cell phone is the fastest-selling consumer electronic in the world. On a global basis, over 800 million cellular telephones are sold yearly. More camera-equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile, multipurpose mobile devices, including 3G Internet-enabled cell phones and PDAs. Meanwhile, wireless networking and wireless Internet access are developing and expanding on a global basis at a rapid rate. Booming technologies include such 802.11 standards as Wi-Fi and WiMax, as well as Ultra Wide Band (UWB) and Bluetooth. Telematics, intelligent transportation systems (ITS) and satellite radio will soon create an entertainment, navigation and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory and logistics at all levels, from manufacturing to shipping to retailing. These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers. Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac 2008 covers such sectors. Our coverage includes business trends analysis and industry statistics. We also include a wireless and cellular business glossary and a listing of industry contacts, such as industry associations and government agencies. Next, we profile hundreds of leading companies. Our 350 company profiles include complete business descriptions and up to 27 executives by name and title.
