It's for someone supposedly "red on the outside, white on the inside." In APPLE (SKIN TO THE CORE), Eric Gansworth tells his story, the story of his family—of Onondaga among Tuscaroras—of Native folks everywhere. From the horrible legacy of the government boarding schools, to a boy watching his siblings leave and return and leave again, to a young man fighting to be an

artist who balances multiple worlds. Eric shatters that slur and reclaims it in verse and prose and imagery that truly lives up to the word heartbreaking. **What If You Had An Animal Nose?**

Time Inc. Books  
From the #1 New York Times bestselling author of *It Ends With Us* comes the beginning of Sky and Dean's passionate love story - where well-kept secrets threaten to open wounds of a dark past. Would you rather know a truth that makes you feel hopeless, or keep believing the lies?

Beloved and bestselling author Colleen Hoover returns with the spellbinding story of two young people with devastating pasts who embark on a passionate, intriguing journey to discover the lessons of life, love, trust - and above all, the healing power that only truth can bring. Sky, a senior in high school, meets Dean Holder, a guy with a promiscuous reputation that rivals her own. From their very first

encounter, he terrifies and captivates her. Something about him sparks memories of her deeply troubled past, a time she's tried so hard to bury. Though Sky is determined to stay far away from him, his unwavering pursuit and enigmatic smile break down her defenses and the intensity of the bond between them grows. But the mysterious Holder has been keeping secrets of his own, and once they are revealed, Sky is changed forever and her ability to trust may be a

---

casualty of the truth. Only by courageously facing the stark revelations can Sky and Holder hope to heal their emotional scars and find a way to live and love without boundaries. Hopeless is a novel that will leave you breathless, entranced, and remembering your own first love.

The flower patch has always been the same. Purples hang with other Purples. Blues hang with Blues. Talls hang with Talls. Shorts hang with Shorts. But when Purple moves into the Blue Patch, Blue just isn't sure how he feels about that!

Fortunately, Blue's Mom is around to point out how much Blue and his friends can learn from the wind, the rain, and the bees, who treat all flowers the same. Will Blue start to see things from a different lens? Find out in award-winning author Julia Cook's timely and important tale teaching the skill of valuing the differences of others.

*Charlie and the Chocolate Factory* Orca Book Publishers China fragments, a new Cold War with Russia, Mexcio challenges U.S., the new great powers Turkey, Poland and Japan. The Next 100 Years is a fascinating, eye-opening and often shocking look at what lies ahead for the U.S. and the world from one of our most incisive futurists. In his

provocative book, George Friedman turns his eye on the future –offering a lucid, highly readable forecast of the changes we can expect around the world during the twenty-first century. He explains where and why future wars will erupt (and how they will be fought), which nations will gain and lose economic and political power, and how new technologies

and cultural trends will alter the way we live in the new century. The Next 100 Years draws on a fascinating exploration of history and geopolitical patterns dating back hundreds of years. Friedman shows that we are now, for the first time in half a millennium, at the dawn of a new era—with changes in store, including: •

---

The U.S.-Jihadist war will conclude—replaced by a second full-blown cold war with Russia. • China will undergo a major extended internal crisis, and Mexico will emerge as an important world power. • A new global war will unfold toward the middle of the century between the United States and an unexpected coalition from Eastern Europe, Eurasia, and the Far East; but armies will be much smaller and wars will be less deadly. • Technology will focus on space—both for major military uses and for a dramatic new energy resource that will have radical environmental implications. • The United States will experience a Golden Age in the second half of the century. Written with the keen insight and thoughtful analysis that has made George Friedman a renowned expert in geopolitics and forecasting, *The Next 100 Years* presents a fascinating picture of what lies ahead. Scholastic Inc.  
If you could have any animal's front teeth, whose would you choose?  
WHAT IF YOU HAD ANIMAL TEETH? takes children on a fun, informative, and imaginative journey as they explore what it would be like if their own front teeth were

---

replaced by those of a different animal. Featuring a dozen animals (beaver, great white shark, narwhal, elephant, rattlesnake, naked mole rat, hippopotamus, crocodile, and more), this book explores how different teeth are especially adapted for an animal's survival. At the end of the book,

children will discover why their own teeth are just right for them. And they'll also get a friendly reminder to take good care of their teeth, because they're the only teeth they'll ever have. Each spread features a photograph of the animal using its specialized teeth on the left and a humorous

illustrated image of a child using that animal's teeth on the right.
