Biologists worldwide now speak the scientific language of molecular biology and use the same molecular tools. Interest is growing in the molecular biology of abiotic stress tolerance and modes of installing better tolerant mechanisms in crop plants. Current studies make plants capable of sustaining their yields even under stressful conditions. Further, this information may form the basis for its application in biotechnology and bioinformatics.

The manager of a top investment fund discusses how individuals can make a killing in the market through research and investment techniques that confound conventional market wisdom.

Gaelic Scotland in the Colonial Imagination Rosenfeld Media

Data Mining: Concepts and Techniques provides the concepts and techniques in processing gathered data or information, which will be used in various applications. Specifically, it explains data mining and the tools used in discovering knowledge from the collected data. This book is referred as the knowledge discovery from data (KDD). It focuses on the feasibility, usefulness, effectiveness, and scalability of techniques of large data sets. After describing data mining, this edition explains the methods of knowing, preprocessing, processing, and warehousing data. It then presents information about data warehouses, online analytical processing (OLAP), and data cube technology. Then, the methods involved in mining frequent patterns, associations, and correlations for large data sets are described. The book details the methods for data classification and introduces the concepts and methods for data clustering. The remaining chapters discuss the outlier detection and the trends, applications, and research frontiers in data mining. This book is intended for Computer

Science students, application developers, business professionals, and researchers who seek information on data mining. Presents dozens of algorithms and implementation examples, all in pseudo-code and suitable for use in real-world, large-scale data mining projects. Addresses advanced topics such as mining object-relational databases, spatial databases, multimedia databases, time-series databases, text databases, the World Wide Web, and applications in several fields. Provides a comprehensive, practical look at the concepts and techniques you need to get the most out of your data.

A History of American Literature Since 1870 Larry d Hothem

A rebel pilot and a rogue archaeologist delve into the darkest shadows of the galaxy side by side, as Luke Skywalker reluctantly teams up with Doctor Aphra! The not-so-good Doctor will make Luke an offer he can't afford to pass up...one that leads him to a very rare gathering at the heart of the infamous Screaming Citadel! Will Luke find what he's looking for? Can Aphra be trusted? Or will they both wind up victims of the Citadel's queen? And as this unlikely duo steps right into the lair of one of the most powerful, reclusive and dangerous women in the galaxy, can Han and Leia be far behind them?

"The Guide to GPS Positioning is a self-contained introduction to the Global Positioning System, designed to be used in any of the following three ways: as a self-study guide, as lecture notes for formal post-secondary education courses, or as hand-out material to support short-course and seminar presentations on GPS." -- Introduction.

Principles of International Law, 7th Edition Marvel

Finally! A comprehensive volume on the management of

corporate acquisitions that summarizes contemporary research, and that moves what we know about acquisition management a step further. The book encompasses innovative works from several countries, related to a variety of issues; managerial motives, the role of acquisitions in competitive strategy, as well as organizational and political processes. Unlike several other works on acquisitions, this book emphasizes the most critical issue faced by managers today; how to manage successfully already acquired companies and operations. Both researchers, managers and students of strategy and organization will find this book an important supplement.

Principles of International Law is a clear, succinct and accessible guide to the cardinal concepts of public international law by covering its structure, systematic requirements and major substantive topics. Each chapter contains a clear statement of objectives, a list of key instruments and authorities, a lucid statement of the law, original analysis and commentary, extracts from treaties and other legal instruments, and helpful case summaries and extracts. Problem questions with suggested responses, further discussion questions and an appendix of basic documents are included. The volume provides clear guidance to scholars, legal practitioners and students of law or international relations seeking to improve their knowledge and to extend their understanding of this important subject. The seventh edition is updated and revised to incorporate the most recent developments in international law across a wide range of areas. Recent decisions of the International Court of Justice, the International Criminal Court and other international and domestic tribunals have been added. The extended coverage includes: * the role of natural law in the juridical foundations of modern international law and human rights * a refinement of what constitutes State practice (usus) * the ILC's Guide to Provisional Application of Treaties * matters relevant to the interpretation of treaties * incorporation of customary international law into Australia's common law * the ICJ's Chagos advisory opinion on self-determination * effective control of State organs placed at an international organisation's disposal * the ICJ's judgments in Armed Activities in the Territory of the Congo (Congo v Uganda) and Jadhav (India v Pakistan) on State responsibility * juridical origins and foundations of peremptory norms of general international law (jus cogens) * the ICJ's disposal of preliminary objections on non-exhaustion of local remedies in Ukraine v Russia * the ILC's Draft Articles on the Prevention and Punishment of Crimes Against Humanity in respect of alleged offenders of crimes against humanity who are present in a State's territory * the judgment of the UK Supreme Court in Bancoult, on the loss of inviolability of a diplomatic mission's documents and official correspondence * the ICJ's judgment in Equatorial Guinea v France on designating a property with the status of "premises of the [diplomatic] mission" * non-existence of proprietary rights for individuals in respect of terra nullius * the ICJ's decision on jurisdiction and admissibility in Obligations Concerning Negotiations (Marshall Islands v India) * a refinement of proof in proceedings before the ICJ * application of the Torture Convention to cover conduct persons acting in an official capacity on behalf of an entity exercising de facto governmental control over a population * the ILC's Draft Articles on Crimes Against Humanity * clarification of command responsibility by the ICC in Prosecutor v Bemba * the UN Human Rights Committee's General Comments No 36 on the

right to life and No 37 on the right of peaceful assembly * the judgment of ITLOS in Norstar (Panama v Italy) on exclusivity of flag State prescriptive jurisdiction over vessels on the high seas * delimitation of maritime boundaries by acquiescence Features * Clear, accessible discussion of international law key principles * Covers all key topics * Extensive pedagogic features enhance learning outcomes * Includes selected primary source documents Related Titles * Hall, Law of Contract in Hong Kong: Cases and Commentary, 6th ed, 2019 * Pert, Quick Reference Card: International Law, 2nd ed, 2022 * Triggs, International Law: Contemporary Principles and Practices, 2nd ed, 2011 * Tully, Lewis & Quirico, LexisNexis Study Guide International Law, 2015

"Global gaming networks are heterogenous collectives of localized practices, not unified commercial products. Shifting the analysis of digital games to local specificities that build and perform the global and general, Gaming Rhythms employs ethnographic work conducted in Venezuela and Australia to account for the material experiences of actual game players. This book explores the materiality of digital play across diverse locations and argues that the dynamic relation between the everyday life of the player and the experience of digital game play can only be understood by examining play-practices in their specific situations." -- Website.

As a growth hacker you know how to growth hack. You know how to discover bottlenecks, measure impact and run experiments. But do you know as a consultant: - The five principles to handle any and every client you come across? - How to create internal fans within a company to ensure your contract gets renewed? - How to rid yourself of the confining label of Marketing and have a broader impact? If the answer to any of these questions is 'no', then this book is for you. Growing Happy Clients takes you a step further than the 'Happily Ever After' of every growth hacking book on growth processes. You've got your client, you've got your skills, but now you need the abilities to deal with messy situations and internal challenges. To ensure that you get the hours and tools you need to guide your client to success. In Growing Happy Clients, we take you from kickoff to project reflection, teaching you all the 'soft skills' that separate a successful growth hacker from the rest. Whether you're a growth hacker or marketer freelancer, part of an agency or in-house, you will finish this growth hacking book as a better, more confident growth

consultant, and ready to grow your happy clients. Who is this book for Freelance growth hackers and marketers Growth Hacking or Marketing consultants working at an agency or in-house Internal growth hackers or marketers hoping to implement growth hacking within an organisation About the Authors Daphne Tideman and Ward van Gasteren have over ten years of combined experience in working with the fastest growing scale-ups and the biggest Fortune 500 corporates. Daphne was the first employee at what became a leading growth hacking agency. Ward was one of the first certified growth hackers in Europe and has consulted with 70+ companies as a freelance consultant. Quotes about Growing Happy Clients "????? - Must-read for all digital consultants. This book is a must-read. Not only for growth hacking consultants, but for all consultants working in the digital space. The book contains great advice, practical examples and lots of resources. It covers a project with a client from beginning to end in a very comprehensive manner. Highly recommended!" "I've thoroughly enjoyed reading Growing Happy Clients – I can't help to think it's going to be massively beneficial for those starting with growth hacking and additionally for those that think they know what growth hacking is but actually haven't got a clue ." - Abi Hough, 20+ years of growth and optimization experience "I work as a marketer and even though I am not a consultant Growing Happy Clients helped me change the way we approach growth both in terms of project management and working together with different departments." - Fleurine T, Marketer at Goboony

Persian Literature Xist Publishing

Can Scotland be considered an English colony? Is its experience and literature comparable to that of overseas postcolonial countries? Or are such comparisons no more than patriotic victimology to mask Scottish complicity in the British Empire and justify nationalism? These questions have been heatedly debated in recent years, especially in the run-up to the 2014 referendum on independence, and remain topical amid continuing campaigns for more autonomy and calls for a post-Brexit "indyref2." Gaelic Scotland in the Colonial Imagination offers a general introduction to the emerging field of postcolonial Scottish studies, assessing both its potential and limitations in order to promote further interdisciplinary dialogue. Accessible to readers from various backgrounds, the book combines overviews of theoretical, social, and cultural contexts with detailed case studies of literary and nonliterary texts. The main focus is on internal divisions between the anglophone Lowlands and traditionally Gaelic Highlands, which also play a crucial role in Scottish–English relations. Silke Stroh shows how the image of Scotland's Gaelic margins changed under the influence of two simultaneous developments: the emergence of the modern nation-state and the rise of overseas colonialism.

Camp Fires of Napoleon Handbook of Human Performance Technology

Trailers are a fact of life in the horse world. Sooner or later, everyone who owns a horse will have to deal with a horse trailer in order to haul to shows, races, hunts, and perhaps even to veterinary clinics. Up to now, when horse owners wanted information on trailers they had to rely on magazine articles or word-of-mouth recommendations. Not anymore. The Complete Guide to Buying, Maintaining, and Servicing a Horse Trailer is the first and only book for both owners and buyers of horse trailers. It's a resource that gives prospective buyers, faced with hundreds of models to choose from, the means to make the right choice. It's a manual that gives current owners information on maintaining and caring for their trailers. Foremost, they will learn from lifelong horsewoman Neva Scheve and Thomas G. Scheve, both respected industry insiders, that the safety and comfort of the horse should always be the primary concern. This authoritative book, with more than 175 illustrations, addresses a

number of important topics, including how to: * Determine whether to buy a new or a used trailer. * Ask the right questions of the dealer or owner. * Weigh the options and select the best model for your needs. * Evaluate tow vehicles and hitches. * Master pre-trip preparations. * Care for your current trailer. * Load, drive, and use a trailer safely. * Deal with typical exterior, interior, electrical and mechanical problems. * Assess the work of repairmen if the job is more than you can handle. ""Complete"" is not just an idle word: this book has an appendix that gives the names and addresses of the major trailer manufacturers to contact for literature. In all, the Scheves have given horse owners everything they need to make an informed purchasing decision that will benefit themselves and their horses.
