23 iconic movie lines that weren't in the script

The Indus script (also known as the Harappan script) is a corpus of symbols produced by the Indus Valley Civilization. Most inscriptions containing these symbols are extremely short, making it difficult to judge whether or not these symbols constituted a script used to record a language, or even symbolise a writing system. In spite of many attempts, the 'script' has not yet been deciphered, but

So even though oFld was not explicitly defined in the script when the "if" condition (event.value == 3) was false, Acrobat saved its previous value and then let us use it in the "else" code block. This forgiving behavior masked a problem with our code and got us into trouble when the PDF was opened at a later time.

So I was all set to delve into it with Dr. today and have her tell me, "Oh you're being silly, you look healthy as a horse," and give me my script and send me on my way. She called me back to her office, as she always does, and I headed for my usual spot, took a seat on the couch where I have lost my shit more than once and looked at the doctor and noticed she was bald.

**Why doesn't my script
work? - Acrobat forum**

Not in the Script is the
definition of a pleasant
surprise. Honestly, I'm not all
that crazy about Hollywood
stories. Most of the time I
have trouble accepting how
realistic and genuine they are
and so second guess
everything I'm reading. Amy
Finnegan's book, though,
completely charmed me.
