So I was all set to delve into it with Dr. today and have her tell me, "Oh you're being silly, you look healthy as a horse," and give me my script and send me on my way. She called me back to her office, as she always does, and I headed for my usual spot, took a seat on the couch where I have lost my shit more than once and looked at the doctor and noticed she was bald.

23 iconic movie lines that weren't in the script ...if using bash constructs in a shell script, the first line of the script should be: `#!/bin/bash` (and not `#!/bin/sh`, `ksh`, etc) — michael Sep 12 '14 at 1:23

When using double square brackets in bash, you do not need to quote the variables.

So even though `ofId` was not explicitly defined in the script when the "if" condition (`event.value == 3`) was false, Acrobat saved its previous value and then let us use it in the "else" code block. This forgiving behavior masked a problem with our code and got us into trouble when the PDF was opened at a later time.
