Essays on the principles of morality, and on the private and political rights and obligations of mankind ... With a preface by the Rev. G. Bush Agate Publishing
Past compunction, expressly un beholden, these twenty-four single-subject essays train focus on a startling miscellany of topics - Foot Washing, Dossiers, Br'er Rabbit, Housesitting, Man Roulette, the Locus Amoenus - that begin to unpack the essayist himself and his life's rotating concerns: sex and sexuality, poetry and poetics, subject positions in American labor (not excluding academia), and his upbringing in working-class, Primitive Baptist, central-piedmont North Carolina. In Proxies an original constraint, a "total suppression of recourse to authoritative sources," engineers Brian Blanchfield's disarming mode of independent intellection. The "repeatable experiment" to draw only from what he knows, estimates, remembers, and misremembers about the subject at hand often opens onto an unusually candid assessment of self and situation. The project's driving impulse, courting error, peculiar in an era of crowd-sourced Wiki-knowledge, is at least as old as the one Montaigne had when, putting all the books back on the shelf, he asked, "What do I know?"

Besides exploring what it is that makes great art great, Working the Room ventures into more personal territory with extensive autobiographical pieces - 'On Being an Only Child', 'Sacked' and 'Reader's Block', among other gems. Dyer's breadth of vision and generosity of spirit combine to form a manual for ways of being in - and seeing - the world today.

When Donald Barthelme died at the age of 54, he was perhaps the most imitated (if not emulated) practitioner of American literature. Caustic, slyly observant, transgressive, verbally scintillating, Barthelme's essays, stories, and novels redefined a generation of American letters and remain unparalleled for the way they capture our national pastimes and obsessions, but most of all for the way they capture the strangeness of life. Not-Knowing amounts to the posthumous manifesto of one of our premier literary modernists. Here are Barthelme's thoughts on writing (his own and others); his observations on art, architecture, film, and city life; interviews, including two never previously published; and meditations on everything from Superman III to the art of rendering "Melancholy Baby" on jazz banjolele. This is a rich and eclectic selection of work by the man Robert Coover has called "one of the great citizens of contemporary world letters." "From the Trade Paperback edition.

This book was written in honour of Professor Kalyan K. Sanyal, who was an excellent educator and renowned scholar in the field of international economics. One of his research papers co-authored with Ronald Jones, entitled "The Theory of Trade in Middle Products" and published in American Economic Review in 1982, was a seminal work in the field of international trade theory. This paper would go on to inspire many subsequent significant works by researchers across the globe on trade in intermediate goods. The larger impact of any paper, beyond the number of citations, lies in terms of the passion it sparks among younger researchers to pursue new questions. Measured by this yardstick, Sanyal's contribution in trade theory will undoubtedly be regarded as historic. After completing his Ph.D. at the University of Rochester he joined the Department of Economics at Calcutta University in the early 1980s and taught trade theory there for almost three decades. His insights, articulation and brilliance in teaching international economics have influenced and shaped the intellectual development of many of his students. After his sudden passing in February 2012, his students and colleagues organized a symposium in his honour at the Department of Economics, Jadavpur University from April 19 to 20, 2012. This book, a small tribute to his intellect and contribution, has been a follow-up on that endeavour, and a collective effort of many people including his teachers, friends, colleagues and students. In a nutshell it discusses intermediation of various kinds with significant implications for market integration through trade and finance. That trade can generate many non-trade-service sector links has recently emerged as a topic of growing concern and can trace its

lineage back to the idea of the middle product, a recurring concept in Prof. Sanyal's work.

This is the bourgeois life of a Hallmark Channel dream. She goes on bad dates with new friends, spends weeks in Los Angeles taking meetings with "tv executives slash amateur astrologers" while being a "cheese fry-eating slightly damp Midwest person," "with neck pain and no cartilage in [her] knees," who still hides past due bills under her pillow. A beautifully written suite of personal essays on the value of not knowing. Moments of clarity are rare and fleeting; how can we become comfortable outside of them, in the more general condition of uncertainty within which we make our lives? Written by English professor Emily Ogden while her children were small, On Not Knowing forays into this rich, ambivalent space. Each of her sharply observed essays invites the reader to think with her about questions she can't set aside: not knowing how to give birth, to listen, to hold it together, to love. Unapologetically capacious in her range of reference and idiosyncratic in the canon she draws on, Ogden moves nimbly among the registers of experience, from the operation of a breast pump to the art of herding cattle; from one-night stands to the stories of Edgar Allan Poe; from kayaking near a whale to a psychoanalytic meditation on drowning. Committed to the accumulation of knowledge, Ogden nonetheless finds that knowingness for her can be a way of getting stuck, a way of not really living. Rather than the defensiveness of willful ignorance, On Not Knowing celebrates the defenselessness of not knowing yet—possibly of not knowing ever. Ultimately, this book shows how resisting the temptation of knowingness and embracing the position of not knowing becomes a form of love.

"Utterly delightful" essays from the creator of the HBO's Bored to Death reveal intimate details of his life as a famously neurotic New York writer (Brendan Halpin, Los Angeles Times). Jonathan Ames has drawn comparisons across the literary spectrum, from David Sedaris to F. Scott Fitzgerald to P.G. Wodehouse, and his books, as well as his abilities as a performer, have made him a favorite on the Late Show with David Letterman. Whether he's chasing deranged cockroaches around his apartment, kissing a beautiful actress on the set of an avant-garde film, finding himself stuck perilously on top of a fence in the middle of the night in Memphis, or provoking fights with huge German men, Jonathan Ames has an uncanny knack for getting himself into outlandish situations. In I Love You More Than You Know, Ames once again turns his own adventures, neuroses, joys, heartaches, and insights into profound and hilarious tales. Alive with love and tenderness for his son, his parents, his great-aunt—and even strangers in bars—Ames looks beneath the surface of our world to find the beauty in the perverse, the sweetness in loneliness, and the humor in pain in essays that are "both poignant and silly—an irresistible mix" (John Dicker, Philadelphia Weekly).

with the darkest elements America can manifest, while discovering light and humor in unexpected corners. As an adult, Lauren Hough has had many identities: an airman in the U.S. Air Force, a cable guy, a bouncer at a gay club. As a child, however, she had none. Growing up as a member of the infamous cult The Children of God, Hough had her own self robbed from her. The cult took her all over the globe--to Germany, Japan, Texas, Chile—but it wasn't until she finally left for good that Lauren understood she could have a life beyond "The Family." Along the way, she's loaded up her car and started over, trading one life for the next. She's taken pilgrimages to the sights of her youth, been kept in solitary confinement, dated a lot of women, dabbled in drugs, and eventually found herself as what she always wanted to be: a writer. Here, as she sweeps through the underbelly of America—relying on friends, family, and strangers alike—she begins to excavate a new identity even as her past continues to trail her and color her world, relationships, and perceptions of self. At once razor-sharp, profoundly brave, and often very, very funny, the essays in *Leaving Isn't the Hardest Thing* interrogate our notions of ecstasy, queerness, and what it means to live freely. Each piece is a reckoning: of survival, identity, and how to reclaim one's past when carving out a future. A VINTAGE ORIGINAL

Too Much and Not the Mood Random House

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. On April 11, 1931, Virginia Woolf ended her entry in *A Writer's Diary* with the words "too much and not the mood." She was describing how tired she was of correcting her own writing, of the "cramming in and the cutting out" to please other readers, wondering if she had anything at all that was truly worth saying. The character of that sentiment, the attitude of it, inspired Durga Chew-Bose to write and collect her own work. The result is a lyrical and piercingly insightful collection of essays and her own brand of essay-meets-prose poetry about identity and culture. Inspired by Maggie Nelson's *Bluets*, Lydia Davis's short prose, and Vivian Gornick's exploration of interior life, Chew-Bose captures the inner restlessness that keeps her always on the brink of creative expression. *Too Much and Not the Mood* is a beautiful and surprising exploration of what it means to be a first-generation, creative young woman working today.

The left hand has traditionally represented the powers of intuition, feeling, and spontaneity. In this classic book, Jerome Bruner inquires into the part these qualities play in determining how we know what we do know; how we can help others to know--that is, to teach; and how our conception of reality affects our actions and is modified by them. The striking and subtle discussions contained in *On Knowing* take on the core issues concerning man's sense of self: creativity, the search for identity, the nature of aesthetic knowledge, myth, the learning process, and modern-day attitudes toward social controls, Freud, and fate. In this revised, expanded edition, Bruner comments on his personal efforts to maintain an intuitively and rationally balanced understanding of human nature, taking into account the odd historical circumstances which have hindered academic psychology's attempts in the past to know man. Writing with wit, imagination, and deep sympathy for the human condition, Jerome Bruner speaks here to the part of man's mind that can never be completely satisfied by the right-handed virtues of order, rationality, and discipline.

Writing with elegance and clarity, Wendell Berry is a compassionate and compelling voice for our time of political and cultural distrust and division, whether expounding the joys and wisdom of nonindustrial agriculture, relishing the pleasure of eating food produced locally by people you know, or giving voice to a righteous contempt for hollow innovation.
