The first book to present medical evidence that mineral springs can prevent and cure disease--and to tell you which spas are most effective • Lists more than 200 of the best hot springs and mineral springs in the world and the health conditions best treated at each, with a special emphasis on springs in the U.S. and Canada • Reviews additional healing techniques that best complement bathing in and drinking medicinal waters--such as acupuncture, homeopathy, fasting programs, and fitness training • Includes photos of everything from famous spas to little-known hot springs The Fountain of Youth does exist! Author Nathaniel Altman shows that "taking the waters" is a powerful healing tool that rejuvenates the body and prevents a host of illnesses. Until now, it's been the best-kept secret for promoting and maintaining health and vitality. The use of natural mineral spring water for the prevention and cure of disease dates back 5000 years to the Bronze Age. Hot springs reached their heyday in the United States in the latter part of the 19th century and were well attended until the early 1940s. Balneotherapy--using natural mineral spring water for the prevention and cure of disease--continued to thrive elsewhere in the world and is making a big comeback in the United States. It is an accepted form of mainstream medicine in Europe and Japan, where an abundance of medical evidence shows that in addition to relieving stress, certain mineral waters can help the body heal itself from heart, liver, and kidney problems, skin diseases, asthma, digestive disorders, arthritis, and a host of other health problems. *English Mechanic and Mirror of Science* Pink Elephant Press

A Heart to Call Home

After an indifferent divorce, Reed Peterson traded in her high-profile career in the city for an opportunity to try her hand at running a business of her own. Rogan Douglas agrees to take on the job of getting Reed’s property up-to-snuff so she can re-open the once grand-now dilapidated-cottage motel in town. Struggling to raise his five kids on his own after the accidental death of his wife, Rogan didn’t realize the job would cost him so much. Like his sanity. And his heart.

Reed and Rogan are venturing down different paths in life, but can they resist the powerful attraction that threatens the way they see themselves? Their futures? And is it possible for two people with such different personalities and values to find a way to call each other’s heart their home?

On top of everything else that happened, it only served to convince her that her life was a total failure, and that she had nothing left to look forward to other than a lifetime of pain and isolation. Amy Fontaine is a successful businesswoman and photographer. She is also Selene's best friend and has been since before High School. She's not the type to let Selene retreat from life and succumb to self-pity, not if she has anything to say in that matter. Maybe that's why Amy was the last person Selene wanted to see when she returned to Healing Springs. Fortunately for Selene, her friends and family were having none of it. They would find a way to reach Selene and show her that she still had worth...and in Amy's case...that she was still worthy of love.
