On Mount Washington, it ' s lack of preparation, not the mountain, that kills. The weather is highly changeable with wind gusts of 140 mph and -35 degree temps. Then there are the avalanches and icefalls. Combine this with inexperienced hikers in t-shirts and flip flops and things can get ugly fast. Death on Mount Washington describes the circumstances behind the tragic tales of those who have lost their lives on the mountain. No one--not even the most experienced mountaineer or pilot--is safe from the mountain's mercurial weather conditions. Learn from the mistakes of others in the comfort and safety of your armchair and remember to respect Mount Washington on your next ski trip.

Sooner or later every Asian American must deal with the question, "Where do you come

from?" It is probably the most familiar is least aggressive form of racism. It is a tip off to the persistent notion that people of Asian ancestry are not real Americans, that "Orientals" never really stop being loyal to a foreign homeland, no matter how long they or their family have been in this country. Confronting the cultural stereotypes that have been attached to Asian Americans over the last 150 years, Robert G. Lee seizes the label "Oriental" and asks where it came from.

Mount Washington: Narratives and Perspectives Penguin

The #1 international bestseller on climate change that's been endorsed by policy makers, scientists, writers and energy executives around the world. Tim Flannery's *The Weather Makers* contributed in bringing the topic of global warming to worldwide prominence. For the first time, a scientist provided an accessible and comprehensive account of the history, current status, and future impact of

climate change, writing what has been acclaimed by reviewers everywhere as the definitive book on global warming. With one out of every five living things on this planet committed to extinction by the levels of greenhouse gases that will accumulate in the next few decades, we are reaching a global climatic tipping point. *The Weather Makers* is both an urgent warning and a call to arms, outlining the history of climate change, how it will unfold over the next century, and what we can do to prevent a cataclysmic future. Originally somewhat of a global warming skeptic, Tim Flannery spent several years researching the topic and offers a connect-the-dots approach for a reading public who has received patchy or misleading information on the subject. Pulling on his expertise as a scientist to discuss climate change from a historical perspective, Flannery also explains how climate change is interconnected across the planet. This edition includes a new afterword by the author. "An authoritative, scientifically accurate book on global warming that sparkles with life, clarity, and intelligence." —The Washington Post

On a mountain somewhere above treeline, in some of the coldest and worst winter conditions imaginable, two men lie unconscious in the snow as explosive winds batter the nearby summits. In *The Last Traverse: Tragedy and Resilience in the Winter Whites*, Ty Gagne masterfully lays out the events that led up to an epic and legendary

rescue attempt in severe and dangerous winter conditions in the White Mountains of New Hampshire. More than a cautionary tale, it is a tribute to all the volunteers and professionals who willingly put themselves in harm's way to save lives. This is a must read for anyone who hikes the Whites. "In his first book, *Where You'll Find Me: Risk, Decisions, and the last Climb of Kate Matrosova*, Ty Gagne established his credentials as a writer of well-researched and objective analysis of mountain accidents. Moreover, *Where You'll Find Me* reads like a novel, a book I couldn't put down. In his latest book, *The Last Traverse*, Gagne takes the combination of analysis and storytelling to a new level in a tale of survival and tragedy in the White Mountains."

-Mark Synnott, author of *The Impossible Climb: Alex Honnold, El Capitan, and the Climbing Life* and *The Third Pole: Mystery, Obsession, and Death on Mount Everest*

The transition from President Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as #1 internationally bestselling author Bob Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa interviewed more than 200 people at the center of the turmoil, resulting in more than 6,000 pages of transcripts—and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White

House, the 2020 campaign, and the Pentagon and Congress, with eyewitness accounts of what really happened. Intimate scenes are supplemented with never-before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making *Peril* an unparalleled history. It is also the first inside look at Biden's presidency as he began his presidency facing the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president.

Taking us behind the scenes with today's foremost researchers and pioneers, bestselling author Joel Garreau shows that we are at a turning point in history. At this moment we are engineering the next stage of human evolution. Through advances in genetic, robotic,

information, and nanotechnologies, we are altering our minds, our memories, our metabolisms, our personalities, our progeny – and perhaps our very souls. Radical Evolution reveals that the powers of our comic-book superheroes already exist, or are in development in hospitals, labs, and research facilities around the country – from the revved-up reflexes and speed of Spider-Man and Superman, to the enhanced mental acuity and memory capabilities of an advanced species. Over the next fifteen years, Garreau makes clear in this New York Times Book Club premiere selection, these enhancements will become part of our everyday lives. Where will they lead us? To heaven – where technology's promise to make us smarter, vanquish illness, and extend our lives is the answer to our prayers? Or, as some argue, to hell – where unrestrained technology brings about the ultimate destruction of our species?

Peril at the Exposition Llewellyn Worldwide
When Trish Herr became pregnant with her first daughter, Alex, she and her husband, Hugh, vowed to instill a bond with nature in their children. By the time Alex was five, her over-the-top energy levels led Trish to believe that her very young daughter might be capable of hiking adult-sized mountains. In *Up*, Trish recounts their always exhilarating--and sometimes harrowing--adventures climbing all forty-eight of New Hampshire's highest mountains. Readers will delight in the expansive views and fresh air that only peakbaggers are afforded, and will laugh out loud as Trish urges herself to "mother up" when she and Alex meet an ornery--and alarmingly bold--spruce grouse on the trail. This is, at heart, a resonant, emotionally honest account of a mother's determination to foster independence and fearlessness in her daughter, to teach her "that small doesn't necessarily mean weak; that girls can be strong; and that big, bold things are possible."

"Death in the White Mountains is about the hikers, climbers, and back-country skiers who have died in the White Mountains of New Hampshire and Maine. The goal in writing this book has been to find out why there has been such an appalling loss of life ... My purpose has not been to blame the victims but to find out what their stories can teach us. It is hoped that by discovering the fatal errors that led to these deaths, the number of mountain tragedies can be reduced."--Introduction.

"Genius! Highly entertaining and brilliantly deranged."—Maxim Spam is the plague of the electronic age, comprising 90% of all e-mails and illegally netting millions of dollars each year. Into this frustrating wave of directed marketing steps the brave figure of Bob Servant, a former window cleaner and cheeseburger magnate with a love of wine, women, and song—as well as a devious sense of fair play. In collusion with his "editor" Neil Forsyth, Bob gives spammers a taste of their own medicine. This wickedly funny and original book features the anarchic exchanges between Bob and the hapless spam merchants who unwittingly flood his inbox. As they offer him African fortunes, Russian brides, and get-rich-quick scams, he turns the tables by offering them some outlandish schemes of his own.

Upping the ante with the skill of a seasoned pro, Bob demands legal asylum, shoulders to cry on, and gold lions that speak—and almost gets his way. The result is page after page of wacky and hilarious e-mail exchanges—and a cathartic release for anyone whose inbox has been deluged with unwanted e-mail. 22 b/w photographs.

The Last Traverse Minotaur Books
Mount Katahdin, in Baxter State Park, is Maine's highest mountain. It is also the northern terminus of the Appalachian Trail. Tucked away in the remote North Woods, it is an adventure seeker's paradise. Hiking, climbing, backpacking, snowshoeing, back-country skiing, and ice-climbing are among the activities pursued there; and there has been a similar range in the ways people have met their demise on the mountain and in the park. Randi Minetor gathers the stories of these fatalities, from falls to exposure to cardiac arrest; and presents dozens of misadventures, including hunting accidents, lightning strikes, and even more than one suspicious death. It's a fascinating addition to the North Woods canon.
