Winner of the 2008 Griffin International Poetry Prize His long-awaited volume, a new selection of his later poems, spans ten major collections by one of America's most visionary and influential poets. Chosen by the author himself, the poems in Notes from the Air represent John Ashbery's best work from the past two decades, from the critically acclaimed April Galleons and Flow Chart to the 2005 National Book Award finalist Where Shall I Wander. While Ashbery has long been considered a powerful force in twentieth-century culture, Notes from the Air demonstrates clearly how important and relevant his writing continues to be, well into the twenty-first century. Many of the books from which these poems are drawn are regularly taught in university classrooms across the country, and critics and scholars vigorously debate his newest works as well as his classics. He has already published four major books since the turn of the new millennium, and, although 2007 marks his eightieth birthday, this legendary literary figure continues to write fresh, new, and vibrant poetry that remains as stimulating, provocative, and controversial as ever. Notes from the Air reveals, for the first time in one volume, the remarkable evolution of Ashbery's poetry from the mid-1980s into the new century, and offers an irresistible sampling of some of the finest work by this "national treasure."

personal."—New York Times How does one pay homage to A Tribe Called Quest? The seminal rap group brought jazz into the genre, resurrecting timeless rhythms to create masterpieces such as The Low End Theory and Midnight Marauders. Seventeen years after their last album, they resurrected themselves with an intense, socially conscious record, We Got It from Here . . . Thank You 4 Your Service, which arrived when fans needed it most, in the aftermath of the 2016 election. Poet and essayist Hanif Abdurraqib digs into the group's history and draws from his own experience to reflect on how its distinctive sound resonated among fans like himself. The result is as ambitious and genre-bending as the rap group itself. Abdurraqib traces the Tribe's creative career, from their early days as part of the Afrocentric rap collective known as the Native Tongues, through their first three classic albums, to their eventual breakup and long hiatus. Their work is placed in the context of the broader rap landscape of the 1990s, one upended by sampling laws that forced a reinvention in production methods, the East Coast–West Coast rivalry that threatened to destroy the genre, and some record labels' shift from focusing on groups to individual MCs. Throughout the narrative Abdurraqib connects the music and cultural history to their street-level impact. Whether he's remembering The Source magazine cover announcing the Tribe's 1998 breakup or writing personal letters to the group after bandmate Phife Dawg's death, Abdurraqib seeks the deeper truths of A Tribe Called Quest; truths that—like the low end, the bass—are not simply heard in the head, but felt in the chest.

McAuley's poems their need to be, their means of surviving the exigencies of the displaced spirit. Ancestors on both sides of his family were bards in Celtic Ireland. Although a naturalized United States citizen, McAuley has maintained his connections with his native land: the Irish times listed him among one hundred "significant Irish writers." Although the poet writes of the familial and the domestic, he is writing at the same time of journeys out and back, of losses and recoveries. McAuley is as much at ease with the solemnity of elegy as with the invective of political satire or the sensual metaphysics of the love-poem.

For more than sixty years, the poems of John Ashbery have served as signposts guiding us through the delights, woes, hypocrisies, and uncertainties of living in the modern world. With language harvested from everyday speech, fragments of pop culture, and objects and figures borrowed from art and literature, his work makes light out of darkness, playing with tone and style to show how even the seemingly frivolous stuff of existence can be employed to express the deepest levels of feeling. Commotion of the Birds, his twenty-seventh collection, once again showcases Ashbery's mastery of a staggering range of voices and his singular lyric agility: wry, frank, contemplative, resigned, bemused, and ecstatic. The poet in this new collection is at once removed from and immersed in the terrain of his examination. Disarmingly conversational, he invites the reader to join him in looking out onto the future with humor, curiosity, and insight. The lines of these poems achieve a low-humming, thrilling point of vibration, a jostling of feathers before flight.

Life is chaotic. But we can choose to live it differently. It doesn't always feel like it, but we do have the freedom to creatively change the everyday little things in our lives so that our path better aligns with our values and passions. The popular blogger and founder of the internationally recognized Simple Mom online community tells the story of her family's ongoing quest to live more simply, fully, and intentionally. Part memoir, part travelogue, part practical guide, Notes from a Blue Bike takes you from a hillside in Kosovo to a Turkish high-rise to the congested city of Austin to a small town in Oregon. It chronicles schooling quandaries and dinnertime dilemmas, as well as entrepreneurial adventures and family excursions via plane, train, automobile, and blue cruiser bike. Entertaining and compelling—but never shrill or dogmatic—Notes from a Blue Bike invites you to climb on your own bike, pay attention to who you are and what your family needs, and make some important choices. It's a risky ride, but it's worth it—living your life according to who you really are simply takes a little intention. It's never too late.

North in the World presents 121 poems by Rolf Jacobsen (1907-1994), one of Norway's greatest modern poets. Garnering the highest praise of critics, Jacobsen won many of Norway's and Sweden's most prestigious literary awards, including the Swedish Academy's Dobloug Prize and the Grand Nordic Prize, also known as the "Little Nobel." But he

also has earned a wide popular audience, because ordinary readers can understand and enjoy the way he explores the complex counterpoint of nature and technology, progress and self-destruction, daily life and cosmic wonder. Drawing from all twelve of his books, and including one poem collected posthumously, North in the World offers award-winning English translations of Jacobsen's poems, accompanied by the original Norwegian texts. The translator, the American poet Roger Greenwald, worked with Jacobsen himself to correct errors that had crept into the Norwegian texts over the years. An in-depth introduction by Greenwald highlights the main features of Jacobsen's poetry, and extensive endnotes, as well as indexes to titles and first lines in both languages, enhance the usefulness of the book for general readers and scholars alike. The result is the definitive bilingual edition of Jacobsen's marvelous poetry.

By integrating her contemporary photography with historical periods and various settings from around the world, Forman creates a world of illusion; upon closer inspection, what appears ordinary suggests an underlying tension and an aura of mystery. Expressed in the diffused colors of twilight and chiaroscuro, her images blur the boundaries between photography, late Renaissance painting, and film noir. Forman's photo-paintings explore those liminal and in-between moments - of coming and leaving, innocence and confidence, shadow and light, night and day, absence and connection, loss and longing, and not quite the past and not yet the future. Portals, both real and metaphorical, frequent her layered, complex and often dark dreamlike images. Her work is recognized for imbuing each image with strong, harmonious compositions and for her explosive use of color, light and shadow. As a cinematographer writes a narrative with movement and sound, Forman writes with still images, where the images have no power except through their position and relationship. It is these relationships that elicit emotions of desire, vulnerability, and a desperate longing for connection. Between Two Notes will feature over 100 images, interspersed with comments from a diverse group of admirers.

Back in print, Carr's powerful poems seek out and face violence and its counterforces. Julie Carr obsessively researches instances of intimate terrorism, looking everywhere from Walt Whitman and Emily Dickinson to lists of phobias and weapon-store catalogs. She searches for what can be learned from the statistics, the statements by and about rapists and killers, the websites of hate groups, and the capacity for cruelty that lies within all of us. 100 Notes on Violence is a diary, a document, and a dream log of the violence that grips America and devastates so many. But Carr also offers a layered and lyric tribute to violence's counterforces: love, commonality, and care. Her unflinching "notes" provoke our minds and burrow into our emotions, leading us to confront our fears and our own complicity.

A Map to the Door of No Return is a timely book that explores the relevance and nature of identity and belonging in a culturally diverse and rapidly changing world. It is an insightful, sensitive and poetic book of discovery. Drawing on cartography, travels, narratives of childhood in the Caribbean, journeys across the Canadian landscape, African ancestry, histories, politics, philosophies and literature, Dionne Brand sketches the shifting borders of home and nation, the connection to place in Canada and the world beyond. The title, A Map to the Door of No Return, refers to both a place in imagination and a point in history—the Middle Passage. The quest for identity and place has profound meaning and resonance in an age of heterogenous identities. In this exquisitely written and thought-provoking new work, Dionne Brand creates a map of her own art.

Post Now in paperback, the bold, genre-defying book that asked: What if Mary Shelley had not invented Frankenstein's monster at all but had met him when she was a girl of eight, sitting by her mother's grave, and he came to her unbidden? In a riveting mix of fact and poetic license, Laurie R. King gives us the "monster" in his own words: recalling how he was "made" and how Victor Frankenstein abandoned him; pondering the tragic tale of the Shelleys and the intertwining of his life with Mary's (whose fictionalized letters salt the narrative, along with those of her nineteenth-century intimates); taking notes on all aspects of human striving--from Gertrude Stein to robotics to the Northern explorers whose lonely quest mirrors his own--as he tries to understand the strange race that made yet shuns him, and to find his own freedom of mind.

New York Times bestselling author, superstar comedian, and Hollywood box office star Kevin Hart turns his immense talent to the written word in this "hilarious but also heartfelt" (Elle) memoir on survival, success, and the importance of believing in yourself. The question you're probably asking yourself right now is: What does Kevin Hart have that a book also has? According to the three people who have seen Kevin Hart and a book in the same room, the answer is clear: A book is compact. Kevin Hart is compact. A book has a spine that holds it together. Kevin Hart has a spine that holds him together. A book has a beginning. Kevin Hart's life uniquely qualifies him to write this book by also having a beginning. It begins in North Philadelphia. He was born an accident, unwanted by his parents. His father was a drug addict who was in and out of jail. His brother was a crack dealer and petty thief. And his mother was overwhelmingly strict, beating him with belts, frying pans, and his own toys. The odds, in short, were stacked against our young hero. But Kevin Hart, like Ernest Hemingway, J.K. Rowling, and Chocolate Droppa before him, was able to defy the odds and turn it around. In his literary debut, he takes us on a journey through what his life was, what it is today, and how he's overcome each challenge to become the man he is today. And that man happens to be the biggest comedian in the world, with tours that sell out football stadiums and films that have collectively grossed over \$3.5 billion. He achieved this not just through hard work, determination, and talent. "Hart is an incredibly magnetic storyteller, on the page as he is onstage, and that's what shines through [in this] genial, entertaining guide to a life in comedy" (Kirkus Reviews).

#1 NEW YORK TIMES BEST SELLER • In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical—and accessible—plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide to certain environmental disaster. In this book, he not only explains why we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the areas in which technology is already helping to reduce emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete, practical plan for achieving the goal of zero emissions—suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach.

"Wilson's collection is romantic yet world-weary, bereaved yet fortified—a kindred reflection of the heart in the modern world." Publishers Weekly Fieldnotes on Ordinary Love is a collection whose poems approach family, politics, and romance, often through the lens of space: the vagaries of a relationship full of wonder and coldness, separation and exploration. There is the sense of the speaker as a cartographer of familiar spaces, of land he has never left or relationships that have stayed with him for years, and always with the newness of an alien or stranger. Acutely attuned to the heritage of Greco-Roman myth, Wilson writes through characters such as the Basilisk and the Minotaur, emphasizing the intense loneliness these characters experience from their uniqueness. For the racially ambiguous speaker of these poems, who is both black and not black, who has lived

For 65 million years dinosaurs ruled the Earth—until a deadly asteroid forced their extinction. But what accounts for the incredible longevity of dinosaurs? A renowned scientist now provides a startling explanation that is rewriting the history of the Age of Dinosaurs. Dinosaurs were pretty amazing creatures—real-life monsters that have the power to fascinate us. And their fiery Hollywood ending only serves to make the story that much more dramatic. But fossil evidence demonstrates that dinosaurs survived several mass extinctions, and were seemingly unaffected by catastrophes that decimated most other life on Earth. What could explain their uncanny ability to endure through the ages? Biologist and earth scientist Peter Ward now accounts for the remarkable indestructibility of dinosaurs by connecting their unusual respiration system with their ability to adapt to Earth's changing environment—a system that was ultimately bequeathed to their descendants, birds. By tracing the evolutionary path back through time and carefully connecting the dots from birds to dinosaurs, Ward describes the unique form of breathing shared by these two distant relatives and demonstrates how this simple but remarkable characteristic provides the elusive explanation to a question that has thus far stumped scientists. Nothing short of revolutionary in its bold presentation of an astonishing theory, *Out of Thin Air* is a story of science at the edge of discovery. Ward is an outstanding guide to the process of scientific detection. Audacious and innovative in his thinking, meticulous and thoroughly detailed in his research, only a scientist of his caliber is capable of telling this surprising story.

A provocative essay collection that finds the Nobel laureate taking on the decline of intellectual life. In the past, culture was a kind of vital consciousness that constantly rejuvenated and revived everyday reality. Now it is largely a mechanism of distraction and entertainment. *Notes on the Death of Culture* is an examination and indictment of this transformation—penned by none other than Mario Vargas Llosa, who is not only one of our finest novelists but one of the keenest social critics at work today. Taking his cues from T. S. Eliot—whose essay "Notes Toward a Definition of Culture" is a touchstone precisely because the culture Eliot aimed to describe has since vanished—Vargas Llosa traces a decline whose ill effects have only just begun to be felt. He mourns, in particular, the figure of the intellectual: for most of the twentieth century, men and women of letters drove political, aesthetic, and moral conversations; today they have all but disappeared from public debate. But Vargas Llosa stubbornly refuses to fade into the background. He is not content to merely sign a petition; he will not bite his tongue. A necessary gadfly, the Nobel laureate Vargas Llosa, here vividly translated by John King, provides a tough but essential critique of our time and culture.
