The One Garrett County Press The winner of the Man Booker Prize, this "expertly written, perfectly constructed" bestseller (The Guardian) is now a Starz miniseries. It is 1866, and Walter Moody has come to stake his claim in New Zealand's booming gold rush. On the stormy night of his arrival, he stumbles across a tense gathering of 12 local men who

have met in secret to discuss a series of unexplained events: a wealthy man has vanished, a prostitute has tried to end her life, and an enormous cache of gold has been discovered in the home of a luckless drunk. Moody is soon drawn into a network of fates and fortunes that is as complex and exquisitely ornate as the night sky. Richly evoking a mid-nineteenth-century world of shipping, banking, and gold rush boom and bust, *The Luminaries* is at once a fiendishly clever ghost story, a gripping page-turner, and a thrilling novelistic achievement. It richly confirms that Eleanor Catton is one of the brightest stars in the international literary firmament. *The Space Between the Stars* Farrar, Straus and Giroux In Nazi-occupied Denmark, ten-year-old Annemarie Johansen is called upon for a selfless act of bravery to help save her best friend from a terrible fate. Winner of the Newbery Medal, newly reissued in the Essential Modern Classics range. "They plan to arrest all the Danish Jews. They plan to take them away. And we have been told that they may come tonight." It is 1943 and life in Copenhagen is becoming complicated for Annemarie. There are food shortages and

curfews, and soldiers on every corner. But it is even worse for her Jewish best friend, Ellen, as the Nazis continue their brutal campaign. With Ellen's life in danger, Annemarie must summon all her courage to help stage a daring escape. Inspired by true events of the Second World War, this gripping novel brings the past vividly to life for today's readers.

Before everything changed,
Hannah Rosenthal lived a

charmed life. But now the streets of Berlin are draped in ominous flags; her family's fine possessions are hauled away; and they are no longer welcome in the places they once considered home. A glimmer of hope appears in the shape of the *St. Louis*, a transatlantic ocean liner promising Jews safe passage to Cuba. At first, the liner feels like a luxury, but as they travel, the circumstances of war change, and the ship that was to be their salvation seems likely to become their doom. New York, 2014. On her twelfth birthday, Anna Rosen receives a mysterious package from an unknown relative in Cuba, her great-aunt Hannah. Its contents inspire Anna and her mother to travel to Havana to learn the truth about their family's mysterious and tragic past. Weaving dual time frames, and based on a true story, *The German Girl* is a beautifully written and deeply poignant story about generations of exiles seeking a place to call home. From an economist who warned of the global financial crisis, a new warning about the continuing peril to the world economy Raghuram Rajan was one of the few

economists who warned of the global financial crisis before it hit. Now, as the world struggles to recover, it's tempting to blame what happened on just a few greedy bankers who took irrational risks and left the rest of us to foot the bill. In *Fault Lines*, Rajan argues that serious flaws in the economy are also to blame, and warns that a potentially more devastating crisis awaits us if they aren't fixed. Rajan shows how the individual choices that collectively brought about the economic meltdown—made by bankers, government officials, and ordinary homeowners—were rational responses to a flawed global financial order in which the incentives to take on risk are incredibly out of step with the dangers those risks pose. He traces the deepening fault lines in a world overly dependent on the indebted American consumer to power global economic growth and stave off global downturns. He exposes a system where America's growing inequality and thin social safety net create tremendous political pressure to encourage easy credit and keep job creation robust, no matter what the consequences to the economy's long-term health; and where the U.S. financial sector, with its skewed incentives, is the critical but unstable link between an overstimulated America and

an underconsuming world. In *Fault Lines*, Rajan demonstrates how unequal access to education and health care in the United States puts us all in deeper financial peril, even as the economic choices of countries like Germany, Japan, and China place an undue burden on America to get its policies right. He outlines the hard choices we need to make to ensure a more stable world economy and restore lasting prosperity.

A Fabricated Mexican Simon and Schuster Fans of *Harriet the Spy* and *Mean Girls* will cheer when they meet Charlie C. Cooper, reformed bully, gifted hacker, slightly misguided fashionista, and so-called middle child! This debut tween novel stars the hilariously fresh Charlie Cooper as she tries to ditch her middle-child reputation and make cool friends at her new school in Los Angeles. But being cool isn't as easy as it looks—especially when her dandruff-ridden psychologist tasks Charlie with finding the biggest loser in school and becoming her friend. In public. As Charlie says, "Just kill me now, please."

Saxon, *The Federal Writers' Project of the Works Progress Administration* produced this delightfully detailed portrait of New Orleans. Containing recipes, photographs and folklore, it is consistently hailed as one of the best books produced about the city. Remarkably, many of the sites and attractions the WPA chronicled in 1938 are still around today.

In a breathtakingly vivid and emotionally gripping debut novel, one woman must confront the emptiness in the universe—and in her own heart—when a devastating virus reduces most of humanity to dust and memories. All Jamie Allenby ever wanted was space. Even though she wasn't forced to emigrate from Earth, she willingly left the overpopulated, claustrophobic planet. And when a long relationship devolved into silence and suffocating sadness, she found work on a frontier world on the edges of civilization. Then the virus hit... Now Jamie finds herself dreadfully alone, with all that's left of the dead. Until a garbled message from Earth gives her hope that someone from her past might still be alive. Soon Jamie finds other survivors, and their ragtag group will travel through the vast reaches of space, drawn to the

promise of a new beginning on Earth. But their dream will pit them against those desperately clinging to the old ways. And Jamie's own journey home will help her close the distance between who she has become and who she is meant to be...

Fans of classic frontier survival stories, as well as readers of dystopian literature, will enjoy this futuristic story where water is worth more than gold. New York Times bestselling author Michael Grant says *Not a Drop to Drink* is a debut "not to be missed." With evocative, spare language and incredible drama, danger, and romance, Mindy McGinnis depicts one girl's journey in a frontierlike world not so different from our own. Teenage Lynn has been taught to defend her pond against every threat: drought, a snowless winter, coyotes, and most important, people looking for a drink. She makes sure anyone who comes near the pond leaves thirsty—or doesn't leave at all. Confident in her own abilities, Lynn has no use for the world beyond the nearby fields and forest. But when strangers appear, the mysterious footprints by the pond, nighttime threats, and gunshots make it all too clear Lynn has exactly what they want, and they won't stop until they get it. . . . For more in this gritty world, join Lynn on an epic journey to find home in the companion novel, *In a Handful of Dust*.

In the Retro Hugo Award – nominated novel that inspired the Syfy miniseries, alien invaders bring peace to Earth—at a grave price: “A first-rate tour de force” (The New York Times). In the near future, enormous silver spaceships appear without warning over mankind’s largest cities. They belong to the Overlords, an alien race far superior to humanity in technological development. Their purpose is to dominate Earth. Their demands, however, are surprisingly benevolent: end war, poverty, and cruelty. Their presence, rather than signaling the end of

humanity, ushers in a golden age . . . or so it seems. Without conflict, human culture and progress stagnate. As the years pass, it becomes clear that the Overlords have a hidden agenda for the evolution of the human race that may not be as benevolent as it seems.

“The bighearted, wildly charming, painfully real love story I’ve been waiting for.” —Becky Albertalli, New York Times bestselling author of *Simon vs. the Homo Sapiens Agenda*
From William C. Morris Award Finalist S.K. Ali comes a “heartfelt and powerful” (Kirkus Reviews, starred review) romance that’s *The Sun Is Also a Star* meets *Anna and the French Kiss*, following two Muslim teens who meet during a spring break trip. A marvel: something you find amazing. Even ordinary-amazing. Like potatoes—because they make French fries happen. Like the perfect fries Adam and his mom used to make together. An oddity: whatever gives you pause.

Like the fact that there are hateful people in the world. Like Zayneb’s teacher, who won’t stop reminding the class how “bad” Muslims are. But Zayneb, the only Muslim in class, isn’t bad. She’s angry. When she gets suspended for confronting her teacher, and he begins investigating her activist friends, Zayneb heads to her aunt’s house in Doha, Qatar, for an early start to spring break. Fueled by the guilt of getting her friends in trouble, she resolves to try out a newer, “nicer” version of herself in a place where no one knows her. Then her path crosses with Adam’s. Since he got diagnosed with multiple sclerosis in November, Adam’s stopped going to classes, intent, instead, on perfecting the making of things. Intent on keeping the memory of his mom alive for his little sister. Adam’s also intent on keeping his diagnosis a secret from his grieving father. Alone, Adam and Zayneb are playing roles for others, keeping their real thoughts locked away in their journals. Until a marvel and an oddity occurs... Marvel: Adam and Zayneb meeting. Oddity: Adam and Zayneb meeting.

Stars Go Blue

Simon and Schuster

Rick Rivera's first novel charts the sometimes hilarious, sometimes bitter-sweet saga of growing up in two cultures with the American Dream as a guiding light. In a series of poignant vignettes, the reader follows Ricky Coronado's search for identity—a search made more difficult by the specter of his father's suicide and the pressures placed upon him by his strong-willed

mother. The narrator is a quiet but mischievous boy who retells the antics of his close-knit and often eccentric family. The amusing adventures of the clan include his stepfather's proposal to his mother, visits to the psychiatrist and the comic misconstruction of Catholic catechism by well-meaning nuns. In his journey of self-discovery that harkens to the pioneer work of Oscar Zeta Acosta's *Brown Buffalo* adventures, Ricky comes to the same solution that generations of hyphenated Americans have reached: the painful but rewarding creation of a new self that combines elements of both ethnic realities.

Welcome to Gil's All Night Diner, where zombie attacks are a regular occurrence and you never know what might be lurking in the freezer . . .

Duke and Earl are just passing through Rockwood county in their pick-up truck when they stop at the Diner for a quick bite to eat. They aren't planning to stick around—until Loretta, the eatery's owner, offers them \$100 to take care of her zombie problem. Given that

Duke is a werewolf and Earl's a vampire, this looks right up their alley. But the shambling dead are just the tip of a particularly spiky iceberg. Seems someone's out to drive Loretta from the Diner, and more than willing to raise a little Hell on Earth if that's what it takes. Before Duke and Earl get to the bottom of the Diner's troubles, they'll run into such otherworldly complications as undead cattle, an amorous ghost, a jailbait sorceress, and the terrifying occult power of pig-latin. And maybe--just maybe--the End of the World, too. Gory, sexy, and flat-out hilarious, Gil's All Fright Diner will tickle your funnybone--before ripping it out of its socket! Things My Son Needs to Know about the World

Catapult

One night in October when he was ten years old, Tyler Dupree stood in his back yard and watched the stars go out. They all flared into brilliance at once, then disappeared, replaced by a flat, empty black barrier. He and his best friends, Jason and Diane Lawton, had seen what became known as the Big Blackout. It would shape their

lives. The effect is worldwide. The sun is now a featureless disk - a heat source, rather than an astronomical object. The moon is gone, but tides remain. Not only have the world's artificial satellites fallen out of orbit, their recovered remains are pitted and aged, as though they'd been in space far longer than their known lifespans. As Tyler, Jason, and Diane grow up, space probe reveals a bizarre truth: The barrier is artificial, generated by huge alien artifacts. Time is passing faster outside the barrier than inside - more than a hundred million years per day on Earth. At this rate, the death throes of the sun are only about forty years in our future. Jason, now a promising young scientist, devotes his life to working against this slow-moving apocalypse. Diane throws herself into hedonism, marrying a sinister cult leader who's forged a new religion out of the fears of the masses. Earth sends terraforming machines to Mars to let the onrush of time do its work, turning the planet green. Next they send humans...and immediately get back an emissary with thousands of years of stories to tell about the settling of Mars. Then Earth's probes reveal that an identical barrier has appeared around Mars. Jason, desperate, seeds near space with self-replicating machines that will scatter copies of themselves outward from the sun - and report back on what

they find. Life on Earth is about to get much, much stranger. Stars Bleed Cosimo, Inc. Two East Texas families must deal with the aftermath of a marriage that never happened leading to deceit, secrets, and tragedies in a sweeping multigenerational Southern saga "with echoes of *Gone with the Wind*" (Publishers Weekly). Spanning the 20th century, the story of *Roses* takes place in a small East Texas town against the backdrop of the powerful timber and cotton industries, controlled by the scions of the town's founding families. Cotton tycoon Mary Toliver and timber magnate Percy Warwick should have married but unwisely did not, and now must deal with consequences of their momentous choice and the loss of what might have been--not just for themselves but for their children, and their children's children. With expert, unabashed, big-canvas storytelling, *Roses* covers a hundred years, three generations of Texans, and the explosive combination of passion for work and longing for love. *Fault Lines* Penguin From the New York Times bestselling author of *Roses* comes "epic storytelling that plunges the reader headfirst" into the fate of heiress Samantha Gordon and ranch hand Nathan Holloway as their lives collide in early 1900s Texas. (Jackie K Cooper, *The Huffington Post*) Texas in the early 1900s was on the cusp of an oil boom that,

unbeknownst to its residents, would spark a period of dramatic changes and economic growth. In the midst of this transformative time in Southern history, two unforgettable characters emerge and find their fates irrevocably intertwined: Samantha Gordon, the privileged heiress to the sprawling Las Tres Lomas cattle ranch near Fort Worth, and Nathan Holloway, a sweet-natured and charming farm boy from far north Texas. As changes sweep the rustic countryside, Samantha and Nathan's connection drives this narrative compulsively forward as they love, lose, and betray. In this grand yet intimate novel, Meacham once again delivers a heartfelt, big-canvas story full of surprising twists and deep emotional resonance. *Forget Me Not* W. W. We first

met hardscrabble ranchers Renny and Ben Cross in Laura's debut collection, and now in Stars Go Blue, they are estranged, elderly spouses living on opposite ends of their sprawling ranch, faced with the particular decline of a fading farm and Ben's struggle with Alzheimer's disease. He is just on the cusp of dementia, able to recognize he is sick but unable to do anything about it —the notes he leaves in his pockets and around the house to remind him of himself, his family, and his responsibilities are no longer as helpful as they used to be. Watching his estranged wife forced into care – taking and brought to her breaking point, Ben decides to leave his life with whatever dignity and grace remains. As Ben makes his decision, a new horrible truth comes to light: Ray, the abusive husband of their late daughter is being released from prison early. This opens old wounds in Ben, his wife, his surviving daughter, and four grandchildren. Branded with a need for justice, Ben must act before his mind leaves him, and sets off during a brutal snowstorm to confront the man who murdered his daughter. Renny, realizing he is missing, sets off to either stop or witness her husband's act of vengeance. Stars Go Blue is a triumphant novel of the American family, buffered by the workings of a ranch and the music offered by the landscape and animal life upon it.
