The German Girl Tor Books

Rick Rivera's first novel charts the sometimes hilarious, sometimes bitter-sweet saga of growing up in two cultures with the American Dream as a guiding light. In a series of poignant vignettes, the reader follows Ricky Coronado's search for identity—a search made more difficult by the specter of his father's suicide and the pressures placed upon him by his strong-willed mother. The narrator is a quiet but mischievous boy who retells the antics of his close-knit and often eccentric family. The amusing adventures of the clan include his stepfather's proposal to his mother, visits to the psychiatrist and the comic misconception of Catholic catechism by well-meaning nuns. In his journey of self-discovery that harkens to the pioneer work of Oscar Zeta Acosta's Brown Buffalo adventures, Ricky comes to the same solution that generations of hyphenated Americans have reached: the painful but rewarding creation of a new self that combines elements of both ethnic realities.

Forget Me Not HarperCollins

The #1 New York Times bestselling author of *A Man Called Ove* shares an irresistible and moving collection of heartfelt, humorous essays about fatherhood, providing his newborn son with the perspective and tools he'll need to make his way in the world. *Things My Son Needs to Know About the World* collects the personal dispatches from the front lines of one of the most daunting experiences any man can experience: fatherhood. As he conveys his profound awe at experiencing all the "firsts" that fill him with wonder and catch him completely unprepared, Fredrik Backman doesn't shy away from revealing his own false steps and fatherly flaws, tackling issues both great and small, from masculinity and mid-life crises to practical jokes and poop. In between the sleep-deprived lows and wonderful highs, Backman takes a step back to share the true story of falling in love with a woman who is his complete opposite, and learning to live a life that revolves around the people you care about unconditionally. Alternating between humorous side notes and longer essays offering his son advice as he grows up and ventures out into the world, Backman relays the big and small lessons in life, including: -How to find the team you belong to -Why airports explain everything about religion and war -The reason starting a band is crucial to cultivating and keeping friendships -How to beat *Monkey Island 3* -Why, sometimes, a dad might hold onto his son's hand just a little too tight This is an irresistible and insightful collection, perfect for new parents and fans of Backman's "unparalleled understanding of human nature" (Shelf Awareness). As he eloquently reminds us, "You can be whatever you want to be, but that's nowhere near as important as knowing that you can be exactly who you are."

Z for Zachariah Little, Brown

From the author of *Axis and Vortex*, the first Hugo Award-winning novel in the environmental apocalyptic *Spin Trilogy*... One night in October when he was ten years old, Tyler Dupree stood in his back yard and watched the stars go out. They all flared into brilliance at once, then disappeared, replaced by a flat, empty black barrier. He and his best friends, Jason and Diane Lawton, had seen what became known as the Big Blackout. It would shape their lives. The effect is worldwide. The sun is now a featureless disk--a heat source, rather than an astronomical object. The moon is gone, but tides remain. Not only have the world's artificial satellites fallen out of orbit, their recovered remains are pitted and aged, as though they'd been in space far longer than their known lifespans. As Tyler, Jason, and Diane grow up, space probe reveals a bizarre truth: The barrier is artificial, generated by huge alien artifacts. Time is passing faster outside the barrier than inside--more than a hundred million years per day on Earth. At this rate, the death throes of the sun are only about forty years in our future. Jason, now a promising young scientist, devotes his life to working against this slow-moving apocalypse. Diane throws herself into hedonism, marrying a sinister cult leader who's forged a new religion out of the fears of the masses. Earth sends terraforming machines to Mars to let the onrush of time do its work, turning the planet green. Next they send humans...and immediately get back an emissary with thousands of years of stories to tell about the settling of Mars. Then Earth's probes reveal that an identical barrier has appeared around Mars. Jason, desperate, seeds near space with self-replicating machines that will scatter copies of themselves outward from the sun--and report back on what they find. Life on Earth is about to get much, much stranger. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Map of Salt and Stars Simon and Schuster

The Jewel of Seven Stars (1903) is a novel by Irish author Bram Stoker. Written during a period of increased interest in Egyptology across Europe, *The Jewel of Seven Stars* helped to establish the Irish master of Gothic horror's reputation as a leading writer of the early-twentieth century. In the middle of the night, a young lawyer is roused from sleep by Margaret Trelawny. At her urgent request, he accompanies her to the house of her father, Abel Trelawny, a world-renowned Egyptologist. There, Ross discovers the archaeologist unconscious and in a trance-like state on the floor of his bedroom, surrounded by strange and horrifying artifacts. After reading a note left by Trelawny instructing them not to wake him, the group takes turns watching over the injured man. Several nights later, a man arrives who reveals himself to be Eugene Corbeck, a colleague of Trelawny's who has only recently returned from Egypt. He shares with them the story of their discovery years before of Queen Tera's tomb. By taking the sarcophagus, the pair unlocked an ancient curse, and have since been struggling to fulfill the prophecy recorded on the wall of the tomb—the resurrection of the Queen. *The Jewel of Seven Stars* demonstrates not only Stoker's detailed research of contemporary Egyptology, but an undeniable mastery of horror. Blending nineteenth-century Gothic themes with twentieth-century concerns regarding the legacy of British imperialism, Stoker's novel is an artifact itself, and a highly entertaining one at that. With a beautifully designed cover and professionally typeset manuscript, this edition of Bram Stoker's *The Jewel of Seven Stars* is a classic of Irish literature reimagined for modern readers.

A series of apocalyptic incidents [bears] out one character's claim that 'when a man or a woman dies, a whole world falls to ruin.' "Suspenseful...emotionally compelling. I found myself eagerly following in a way I hadn't remembered for a long time, impatient for the next twist and turn of the story."—NPR An Afghan American woman returns to Kabul to learn the truth about her family and the tragedy that destroyed their lives in this brilliant and compelling novel from the bestselling author of *The Pearl That Broke Its Shell*, *The House Without Windows*, and *When the Moon Is Low*. Kabul, 1978: The daughter of a prominent family, Sitara Zamani lives a privileged life in Afghanistan's thriving cosmopolitan capital. The 1970s are a time of remarkable promise under the leadership of people like Sardar Daoud, Afghanistan's progressive president, and Sitara's beloved father, his right-hand man. But the ten-year-old Sitara's world is shattered when communists stage a coup, assassinating the president and Sitara's entire family. Only she survives. Smuggled out of the palace by a guard named Shair, Sitara finds her way to the home of a female American diplomat, who adopts her and raises her in America. In her new country, Sitara takes on a new name—Aryana

Shepherd—and throws herself into her studies, eventually becoming a renowned surgeon. A survivor, Aryana has refused to look back, choosing instead to bury the trauma and devastating loss she endured. New York, 2008: Thirty years after that fatal night in Kabul, Aryana's world is rocked again when an elderly patient appears in her examination room—a man she never expected to see again. It is Shair, the soldier who saved her, yet may have murdered her entire family. Seeing him awakens Aryana's fury and desire for answers—and, perhaps, revenge. Realizing that she cannot go on without finding the truth, Aryana embarks on a quest that takes her back to Kabul—a battleground between the corrupt government and the fundamentalist Taliban—and through shadowy memories of the world she loved and lost. Bold, illuminating, heartbreaking, yet hopeful, *Sparks Like Stars* is a story of home—of America and Afghanistan, tragedy and survival, reinvention and remembrance, told in Nadia Hashimi's singular voice.
