RosettaBooks

In following author Henry Roth's tortured life from his childhood on the Jewish Lower East Side to his twilight years in New Mexico, literary critic Steven Kellman has uncovered FBI files, spoken with family members and friends, and gained access to the tape in which Roth discussed the long-buried incest of his youth.

Childhood's End
Simon and Schuster
Bloodier than Fried Green Tomatoes!
Funnier than The Texas Chainsaw Massacre! Welcome to Gil's All Night Diner, where zombie attacks are a regular occurrence and you

never know what might be lurking in the freezer . . . Duke and Earl are just passing through Rockwood county in their pick-up truck when they stop at the Diner for a quick bite to eat. They aren't planning to stick around-until Loretta, the eatery's owner, offers them \$100 to take care of her zombie problem. Given that Duke is a werewolf and Earl's a vampire, this looks right up their alley. But the shambling dead are just the tip of a particularly spiky iceberg. Seems someone's out to drive Loretta from the Diner, and more than willing to raise a little Hell on Earth if that's what it takes. Before Duke and Earl get to the bottom of the Diner's troubles, they'll run into such otherworldly complications as undead cattle, an amorous ghost, a jailbait sorceress, and the terrifying occult power of pig-latin. And maybe--just maybe--the End of the World, too. Gory, sexy, and flat-out hilarious, Gil's All Fright Diner will tickle your funnybone--before ripping it out of its socket! At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

adventure just may be their way out. *Gil's All Fright Diner* Penguin When Henry Roth published his debut novel *Call It Sleep* in 1934, it was greeted with considerable critical acclaim though, in those troubled times, lackluster sales. Only with its paperback publication thirty years later did this novel

receive the recognition it deserves---and still enjoys. Having sold-to-date millions of copies worldwide, *Call It Sleep* is the magnificent story of David Schearl, the "dangerously imaginative" child coming of age in the slums of New York. *In Search of Mockingbird* Farrar, Straus and Giroux "High

School. Two words that struck fear into the heart of every armless middle schooler I knew. Which was me. And like two people online." The sequel to the critically acclaimed *Insignificant Events in the Life of a Cactus* follows Aven Green as she confronts yet another challenge: high school.

"Those preparing to 'slay the sucktastic beast known as high school' will particularly appreciate this spirited read."
 —Kirkus (Starred review) Just as Aven starts to feel comfortable in Stagecoach Pass, with her friends and schoolmates accustomed to her lack of "armage,"

everything changes once again. She's about to begin high school . . . with 3,000 new kids to stare at her. And no matter how much Aven tries to play it cool, nothing prepares her for the reality. In a year filled with confusion, humiliation, and just maybe love, can Aven manage to stay true to

In a Heartbeat Routledge Laura Pritchett is an award-winning author who has quickly become one of the west's defining literary voices. We first met hardscrabble ranchers

Renny and Ben Cross in Laura's debut collection, and now in Stars Go Blue, they are estranged, elderly spouses living on opposite ends of their sprawling ranch, faced with the particular decline of a fading farm and Ben's struggle with Alzheimer's disease. He is just on the cusp of dementia, able to recognize he is sick but

unable to do anything about it—the notes he leaves in his pockets and around the house to remind him of himself, his family, and his responsibilities are no longer as helpful as they used to be. Watching his estranged wife forced into care-taking and brought to her breaking point, Ben decides to leave his life with whatever dignity and

alien invaders
bring peace to
Earth—at a
grave price:
"A first-rate
tour de force"

(The New York Times). In the near future, enormous silver spaceships appear without warning over mankind's largest cities. They belong to the Overlords, an alien race far superior to humanity in technological development. Their purpose is to dominate Earth. Their demands, however, are surprisingly benevolent: end war, poverty, and cruelty. Their presence, rather than signaling the end of humanity, ushers in a golden age . . . or so it seems. Without to make a fresh start with a new love and a new home. But she hasn't planned on sharing her century-old house with her son's not-so-imaginary friends—a ghost child and a Japanese water monster. Jeff, the man she's dating, definitely wants to marry her. Yet how can his scientific rationalism accept Heidi's belief in

paranormal forces? If the alleged haunting turns out to be real, he'll have to change his entire worldview. Can their love flourish while coping with an exotic supernatural infestation? At least the creatures aren't dangerous—or are they?

Momentous Events in the Life of a Cactus Penguin

When two young people are given a

life-changing opportunity they encounter moral and systemic challenges that are directly tied to their racial and economic backgrounds. In *The Quest of the Silver Fleece*, W.E.B. Du Bois confronts covert discrimination in contemporary America. Cotton, also known as "silver fleece," is still a prized

possession in the early-twentieth century. It continues to generate massive profits that are barely distributed amongst its predominantly Black workforce. Zora is a child of the South, and Bles, is a man with Northern sensibilities—yet, they both feel the weight of oppression. Set in Alabama and Washington D.C., *The Quest of the*

Silver Fleece examines the struggle for upward mobility and the compromises to sustain it. As a sociologist, Du Bois explores the ongoing effects of racial inequality in both the North and South. With *The Quest of the Silver Fleece*, he highlights the glaring disparity between the white establishment and African American

labor. It's an explicit indictment of continued oppression in a post-slavery society. With an eye-catching new cover, and professionally typeset manuscript, this edition of *The Quest of the Silver Fleece* is both modern and readable. *A Nameless Witch* Simon and Schuster "Two women ... give bad men exactly what they deserve--one an English p

rofessor/serial killer who murders the most evil man she knows each year, and the other a lost college freshman seeking vengeance after her best friend is sexually assaulted at a party"--*Dragonfly* Harper Collins AN INTERNATIONAL BESTSELLER Featured in *Entertainment Weekly*, *People*, *The Millions*,

 -Publisher description. *The German Girl* Union Square & Co. Third-grader Aven Green has been solving mysteries for a really long time—a whole month! She's solved many important cases like *The Mystery of the Cranky Mom*, *The Mystery of the Missing Ice Cream*, and *The Mystery of the Smelly Feet*. Her record is nearly 100% (only *The Mystery of the Cereal in My Underpants* remains unsolved to this day). Aven asks all the right questions, wields her detective kit carefully, and follows up on every clue. Then her teacher's lunch bag (with her lunch still in it) is taken and Aven's great-grandma's beloved dog goes missing! Can this perceptive detective crack two

cases at the same time? Luckily, Aven has a super-powered brain full of lots of extra brain cells to take on both cases. See, she was born without arms, so all of the cells that were supposed to make her arms went into making her brain instead. At least that's her working theory for The Mystery of Why I

Have So Many Extra Brain Cells. Stars Go Blue Walker Childrens Learn about the visual and performing arts in The Movie Book. The series uses striking graphics along with engaging writing, making big topics easy to understand. 24 Hours in Nowhere Elijah Muhammad Books "Aven is a perky, hilarious, and inspiring protagonist whose attitude and humor will linger even after the last page has turned." -School Library Journal (Starred review) Aven Green loves to tell people that she lost her arms in an alligator wrestling match, or a wildfire in Tanzania, but the truth is she was born without them. And when her parents take a job running Stagecoach Pass, a rundown western theme park in Arizona, Aven moves with them . . . even across the country knowing that she'll have to answer the question over and over again. Her new life takes an unexpected turn when she bonds with Connor, a classmate who also feels isolated because of his own disability, and they discover a room at Stagecoach Pass that holds bigger secrets than Aven ever could have imagined. It's hard to solve a mystery, help a friend, and face your worst fears. But Aven's about to discover she can do it all . . . even without arms.
