National Registry of Certified Medical Examiners - Notice of Proposed Rulemaking (US Federal Motor Carrier Safety Administration Regulation) (FMCSA) (2018 Edition) The Law Library

presents the complete text of the National Registry of Certified Medical Examiners - Notice of Proposed Rulemaking (US Federal Motor Carrier Safety Administration Regulation) (FMCSA) (2018 Edition). Updated as of May 29, 2018 The FMCSA proposes to establish and maintain a National Registry of Certified Medical Examiners (NRCME) and to require that all medical examiners who conduct medical examinations for interstate commercial motor vehicle drivers complete certain training concerning FMCSA physical qualification standards, pass a test to verify an understanding of those standards, and maintain competence by periodic training and testing. Following establishment of the NRCME and a transition period, FMCSA would accept as valid only medical examiners' certificates issued by medical examiners listed on the NRCME.

The FMCSA is developing the NRCME program to improve highway safety and driver health by requiring that medical examiners be trained and certified to determine effectively whether a commercial motor vehicle driver's health meets FMCSA standards. The program implements requirements in 49 U.S.C. 31149 and supports FMCSA's goal to improve safety and reduce fatalities on our Nation's highways. This book contains: - The complete text of the National Registry of Certified Medical Examiners - Notice of Proposed Rulemaking (US Federal Motor Carrier Safety Administration Regulation) (FMCSA) (2018 Edition) - A table of contents with the page number of each section
