"Wrenching . . . powerfully sensuous." — New York Times "As searing and unforgettable as an electric shock." —Kirkus Reviews At the age of eight Brian Lackey is found bleeding under the crawl space of his house, having endured something so traumatic that he cannot remember an entire five–hour period of time. During the following years he slowly recalls details from that night, but these fragments are not enough to explain what happened to him, and he begins to believe that he may have been the victim of an alien encounter. Neil McCormick is fully aware of the events from that summer of 1981. Wise beyond his years, curious about his developing sexuality, Neil found what he perceived to be love and guidance from his baseball coach. Now, ten years later, he is a teenage hustler, unaware of the dangerous path his life is taking. His recklessness is governed by idealized memories of his coach, memories that unexpectedly change when Brian comes to Neil for help and, ultimately, the truth.

When Beth Dolinsky's military husband returns from deployment with post-traumatic stress and gambles all their money away, this mousy, church-going housewife and mother of twin boys has to take matters into her own hands. Against the advice of friends and family, 40-year-old Beth applies to become a deputy sheriff and embarks on the toughest journey of her life. Now, Recruit Dolinsky finds herself out of place in her new world, even though she no longer fits into her old one. As Beth fights for her family and her right to hold this position of strength, she must convince not only the inmates in the jail, but also the "squared-away" sergeants and deputies half her age (with double the attitude) that she really can fire a gun, perform strip searches that would make even the toughest inmate squirm, restrain men twice her size, and control 70 criminals with the strategic use of the f-word. And in

the process, Beth manages to convince herself that she can handle anything that comes her way. DISHRAGS TO DIRTBAGS is a story of inner strength, motherhood, reinvention, and acceptance. "A surprisingly intimate view of the relationship and mutual respect between this deputy and her inmates. It's a must-read." Does a market economy encourage or discourage music, literature, and the visual arts? Do economic forces of supply and demand help or harm the pursuit of creativity? This book seeks to redress the current intellectual and popular balance and to encourage a more favorable attitude toward the commercialization of culture that we associate with modernity. Economist Tyler Cowen argues that the capitalist market economy is a vital but underappreciated institutional framework for supporting a plurality of co-existing artistic visions, providing a steady stream of new and satisfying creations, supporting both high and low culture, helping consumers and artists refine their tastes, and paying homage to the past by capturing, reproducing, and disseminating it. Contemporary culture, Cowen argues, is flourishing in its various manifestations, including the visual arts, literature, music, architecture, and the cinema. Successful high culture usually comes out of a healthy and prosperous popular culture. Shakespeare and Mozart were highly popular in their own time. Beethoven's later, less accessible music was made possible in part by his early popularity. Today, consumer demand ensures that archival blues recordings, a wide array of past and current symphonies, and this week's Top 40 hit sit side by side in the music megastore. High and low culture indeed complement each other. Cowen's philosophy of cultural optimism stands in opposition to the many varieties of cultural pessimism found among conservatives, neo-conservatives, the Frankfurt School, and some versions of the political correctness and multiculturalist movements, as well as historical figures, including Rousseau and Plato. He shows that even when contemporary culture is thriving, it appears degenerate, as evidenced by the widespread acceptance of pessimism. He ends by considering the reasons why cultural pessimism has such a powerful hold on intellectuals and opinion-makers.

Sociocultural Identities in Music Therapy is a collection of personal narratives by 18 music therapists who engage in a critical culturally reflexive process and explore implications for their therapeutic practice. Amongst the authors, there is gender diversity, diversity of sexualities, racial diversity, ethnic diversity, neurodiversity, geographical diversity, linguistic diversity, educational diversity, and more. Each person's intersectional identity positions them differently in terms of their sociocultural location and thus each has differing experiences of unearned advantages or disadvantages based purely on their membership in various sociocultural groups in unique combinations. As such, each person distinctively explores how they experience and are experienced in social contexts. Woven together, this book is a rich tapestry of the sociocultural identities of music therapists and implications for their therapeutic relationships and processes. It provides a deep understanding and appreciation of the concept of culture and its omnipresence in all we do and all we are. The hope is that these narratives, and the included strategies for doing this kind of critical culturally reflexive work, will guide music therapy students and practitioners to examine their own sociocultural location and experiences, and that it will open music therapists to consider their relational dynamics in all aspects of their lives.

Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing

across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
