"The objective of this report is to identify and establish a roadmap on how to do that, and lay the groundwork for

transforming how this Nation- from every level of government to the private sector to individual citizens and communities - pursues a real and lasting vision of preparedness. To get there will require significant change to the status quo, to include adjustments to policy, structure, and mindset"--P. 2.

"This eloquent, elegant book thoughtfully

plumbs the . . . consequences

of our dependence on

plastics" (The Boston Globe, A Best Nonfiction

Book of 2011). From pacemakers to disposable bags, plastic built the modern world. But a century into our love affair, we're starting to realize it's not such a healthy relationship. As journalist Susan Freinkel points out in this eye- opening book, we're at a crisis point. Plastics draw on dwindling fossil fuels, leach harmful chemicals, litter landscapes, and destroy marine life. We're drowning in the	stuff, and we need to start making some hard choices. Freinkel tells her story through eight familiar plastic objects: a comb, a chair, a Frisbee, an IV bag, a disposable lighter, a grocery bag, a soda bottle, and a credit card. With a blend of lively anecdotes and analysis, she sifts through scientific studies and economic data, reporting from China and across the United States to assess the real impact of plastic	on our lives. Her conclusion is severe, but not without hope. Plastic points the way toward a new creative partnership with the material we love, hate, and can't seem to live without. "When you write about something so ubiquitous as plastic, you must be prepared to write in several modes, and Freinkel rises to this task. . . . She manages to render the most dull chemical reaction into vigorous, breathless sentences." —SF

My new friends
have begun to
suspect I

haven't told
them the full
story of my life.

"Why did you
leave Sierra
Leone?"

"Because there
is a war." "You
mean, you saw
people running
around with
guns and
shooting each
other?" "Yes, all
the time."

"Cool." I smile a
little. "You
should tell us
about it
sometime."

"Yes,
sometime." This

is how wars are
fought now: by
children, hopped-
up on drugs and
wielding AK-47s.

Children have
become soldiers
of choice. In the
more than fifty
conflicts going on
worldwide, it is
estimated that
there are some
300,000 child
soldiers. Ishmael
Beah used to be
one of them.

What is war like
through the eyes
of a child
soldier? How
does one
become a killer?
How does one
stop? Child
soldiers have
been profiled by
journalists, and

novelists have
struggled to

imagine their
lives. But until
now, there has
not been a first-
person account
from someone
who came

through this hell
and survived. In
A Long Way

Gone, Beah, now
twenty-five years
old, tells a
riveting story:

how at the age of
twelve, he fled

and wandered a
land rendered
unrecognizable
by violence. By
thirteen, he'd
been picked up
by the

army, and Beah,
